

## SCROLLING A LOADED TEXT FILE

---

- [DOWNLOAD THE .FLA](#)
- **SKILL LEVEL: INTERMEDIATE**
- Read [Part I](#) of this tutorial to learn how to load the text file!
- Must know how to use Actions

### TUTORIAL

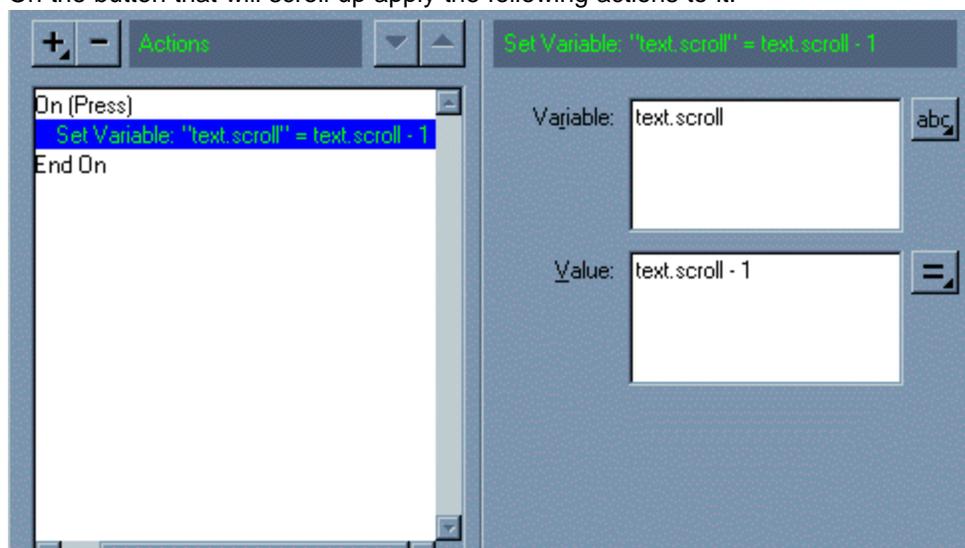

**NOTE:** You **MUST** [read Part I of this tutorial](#) if you do not already know how to load a text file into Flash.

There are only a few more steps needed to make a text file scroll:

1. First off, you need to create your button and place it on that stage. One to scroll up, and one to scroll down.

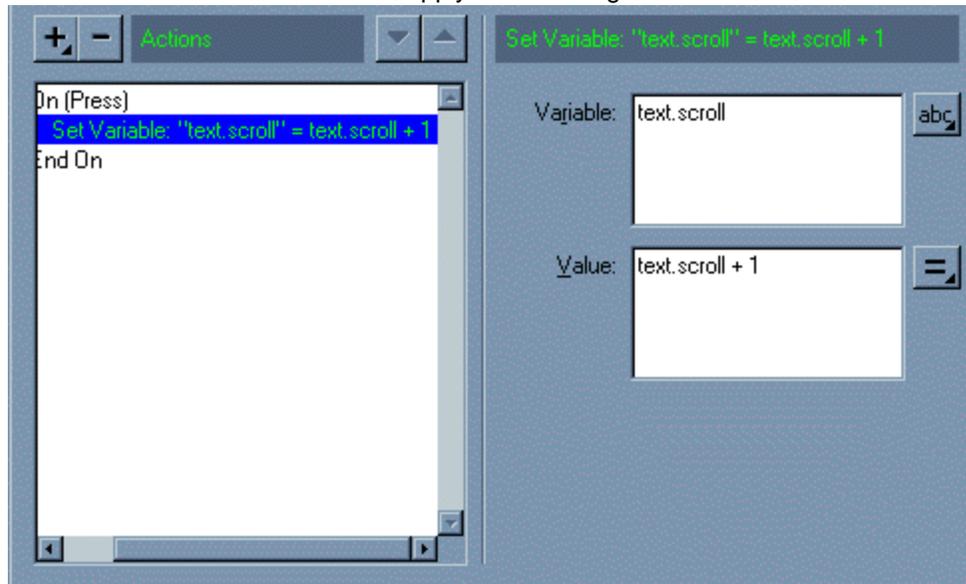

### SCROLL UP BUTTON

- On the button that will scroll up apply the following actions to it:

### SCROLL DOWN BUTTON

- On the button that will scroll down apply the following actions to it:

And that should do it for ya!
