# Superb Cheesecakes

*Cheesecakes! Just say the word and you call up visions of sinfully rich, moist, delicious desserts. Almost everyone loves cheesecakes, yet many are intimidated from making cheesecakes at home. Actually, making a cheesecake is very easy. Yes, it takes time to bake, and yes, it takes time to cool and then chill, but putting together the ingredients couldn't be easier. Plus, you have the added benefit of a delicious dessert made well ahead of time, freeing you up to do other things.*

*What makes a great cheesecake, is, of course, the ingredients. PHILADELPHIA BRAND Cream Cheese is the main ingredient in the cheesecakes offered here. Its fresh, delicate, creamy-smooth flavor is perfect for making marvelous cheesecakes. For over 50 years, Kraft has been developing recipes for cream cheese. One of the first was the "Kraft Philadelphia Cream Cake," published in 1928. This simple cheesecake was an instant success. Since then, the homemade cheesecake has matured and grown as we marble it with chocolate, top it with meringues, garnish it with all manner of fresh fruits and flavor it with everything from peanut butter to liqueurs.*

*This book offers you two main kinds of cheesecakes to serve to your family and friends. There are traditional baked cheesecakes—a combination of cream cheese, eggs and flavorings poured over a prepared crust, baked for approximately one hour, then cooled and chilled. And then there are no-bake cheesecakes—a combination of unflavored gelatin, cream cheese and flavorings poured over a prepared crust and then simply chilled until set. No-bake cheesecakes tend to be lighter in texture than baked cheesecakes, but both are equally appealing in flavor. Whatever kind of cheesecake you decide to make, consult the next few pages of step-by-step photos. They'll show you just how easy it is to make superb cheesecakes.*

# Easy Steps Toward a Successful Cheesecake

## BAKED

1

*For baked cheesecakes, first prepare crust by pressing crust ingredients into pan, in this case a mixture of graham cracker crumbs, sugar and melted margarine. Bake crust while you prepare cheesecake batter.*

2

*Combine cream cheese and sugar, mixing at medium speed on electric mixer. Beat in eggs, one at a time. For flavored cheesecakes, beat in flavorings, such as melted chocolate shown here.*

3

*Using a spatula, scrape cheesecake batter into prepared springform pan. Bake for the time given in each recipe. Remove to a wire rack to cool.*

4

To loosen cake from rim of springform pan, use a thin metal spatula. Insert spatula between cake and rim of pan; run spatula around inside edge to loosen cake. Allow cheesecake to cool completely.

5

Loosen spring fastener on side of pan. Lift rim of pan straight up to separate it from the cheesecake.

6

Place cheesecake on serving plate and garnish as desired, in this photo, with whipped cream and toasted slivered almonds.

## NO-BAKE

7

*When making a no-bake cheesecake, combine unflavored gelatin and cold water in a small saucepan. Let stand until gelatin is softened, about 2 minutes.*

8

*Heat the softened gelatin over low heat, stirring, until the gelatin is completely dissolved and the mixture is clear.*

9

*For most recipes, beat softened cream cheese and sugar, mixing at medium speed with electric mixer. Gradually add dissolved gelatin.*

10

Chill the cream cheese-gelatin mixture until slightly thickened, but not set. If mixture gels too much, the texture of the finished cheesecake will not be smooth. (If you do overchill the mixture at this point, you can soften it again by dipping bowl in warm water and stirring mixture until slightly softened.)

11

Fold whipped cream and flavoring into chilled cream cheese mixture. Using a circular motion with a spatula, cut down through center of the mixture across bottom of bowl, lifting mixture up and over. Repeat until mixture is well blended.

12

Using same spatula, scrape cream cheese mixture into prepared springform pan. Chill until cheesecake is set, several hours or overnight. To remove cheesecake from springform pan, see photos 4 and 5.

## Banana Nut Cheesecake

1 cup chocolate wafer crumbs  
¼ cup PARKAY Margarine, melted

*Combine crumbs and margarine; press onto bottom of 9-inch springform pan. Bake at 350°, 10 minutes.*

2 8-ounce packages PHILADELPHIA BRAND Cream Cheese, softened  
½ cup sugar  
½ cup mashed ripe banana  
2 eggs  
¼ cup chopped walnuts

*Combine cream cheese, sugar and banana, mixing at medium speed on electric mixer until well blended. Add eggs, one at a time, mixing well after each addition. Stir in walnuts; pour over crust. Bake at 350°, 40 minutes. Loosen cake from rim of pan; cool before removing rim of pan.*

⅓ cup milk chocolate pieces  
1 tablespoon PARKAY Margarine  
2 teaspoons cold water

*Melt chocolate pieces and margarine with water over low heat, stirring until smooth. Drizzle over cheesecake. Chill.*
