

REACTION PAPER

Type a two to three page paper which summarizes and reacts to a research article you select by doing/answering the following:

1. Summarize the Hypothesis, Method, Results and Conclusion (Discussion) of the article.
2. Critically analyze and give your reaction to each part of the article (Introduction, Method, Results and Conclusion).
3. Write your own general reaction and impression of the article (particularly your reaction to the conclusions of the author(s)).
4. Include a copy of the article with your paper.
