

LOADING YOUR GUN

- Before starting the loading procedure, push the safety catch downwards until you can read the word "GESICHERT", wich means sofe.
- Push magazine catch and remove the magazine.
- The magazine holds 8 shots and is filled by placing the rounds one by one into the magazine.
- 4. The filled magazine should be inserted into the gun while the safety catch is still applied. The right hand holding the grip so that the forefinger lies alongside the trigger guard, but not touching the trigger.
- 5. Release the safety catch and pull up and backwards the rear toggle link as far as it will go and then release it. This will carry the first bullet from the magazine into the barrel and the pistol is now ready to fire. The safety catch can now be reapplied.

 Check to ensure the pistol is unloaded. Push magazine catch and remove the magazine.

 Push barrel with receiver assembly forward; this will enable the locking bolt to be removed.

 Barrel and receiver assembly will now slide backwards on the frame due to spring tension; the receiver axle pin can then be removed.

5. Toggle link and breechblock assembly can now be withdrawn from the rear of the receiver.

9. Insert the receiver axle pin.

6. Slide complete barrel and receiver out of the frame. The pistol is now dismantled and ready for cleaning.

rel and receiver on the

frame.

10. Pull the barrel forward against spring tension and at the same time insert the locking bolt.

8. Push downwards with finger tip the sear, this allows the breechblock to close.

11. Replace the magazine.

DESCRIPTION

The ERMA-L.A. 22 is an 8 shot semiautomatic pistol with toggle breech mechanism in cal. 22 L. R.

TECHNICAL DATA

Overall Length: 22,5 cm (9")
Length of Barrel: 8,0 cm (3'/4")
Heigth of Pistol: 14,0 cm (5'/4")
Weight of Pistol: 1,0 kos. (24 oz.)
Capacity of Magazine:
8 cartridges cal. 22 L. R.
