- Value and Reference Book Listing

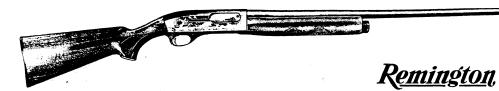

NOTE: We are pleased to accommodate your request for the Sportsman 58 Autoloading Shotgun information. The following documentation represents all information available on this model from the Remington Arms Co., Inc.

DO NOT MAKE CHANGES OR ALTERATIONS TO ANY PARTS OF A FIREARM. USE ONLY REMINGTON PARTS. NEVER MAKE AN ADJUSTMENT TO THE TRIGGER, OR CHANGE THE SHAPE OR SIZE OF THE SEAR, SEAR NOTCH, OR OTHER PARTS.

Ten Commandments of Shooting Safety

1. Always keep the muzzle pointed in a safe direction. 2. Firearms should be unloaded when not in use. 3. Don't rely on your gun's "safety". 4. Be sure of your target and what is beyond it. 5. Use correct ammunition. 6. If your gun fails to fire when the trigger is pulled, handle with care! 7. Always wear eye and ear protection when shooting. 8. Be sure the barrel is clear of obstructions before shooting. 9. Do not alter or modify your gun, and have guns serviced regularly. 10. Learn the mechanical and handling characteristics of the firearm

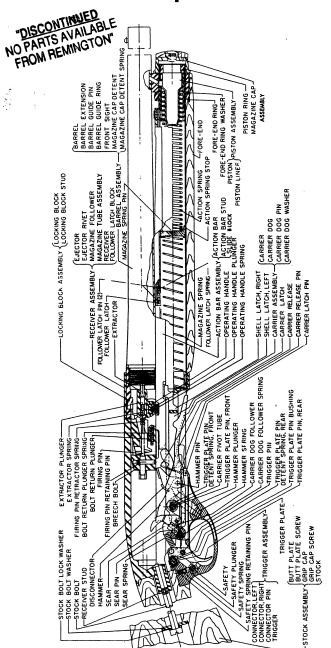

you are using.

MODEL SPT-58

Autoloading Shotgun

"Sportsman-58" with "Power-Matic" Action

REPLACEMENT PARTS

When ordering parts, specify model, gauge, part name and number, and the serial number of the gun. All parts, including barrel assemblies, will be shipped as ordered but, since they are made to close dimensions, the particular part may require slight adjustment or fitting to assure proper functioning of the arm.

Remington,

MODEL SPT-58

INSTRUCTION FOLDER

Ilion, N.Y., U.S.A.

NORMAL CLEANING AND CARE

can be done with these simple take-apart instructions

DISASSEMBLY

TO REMOVE BARREL AND FORE-END

CAUTION: Push safety "ON SAFE" (Red band will not show). Unscrew magazine cap. Slide barrel and fore-end together from gun.

TO REMOVE TRIGGER PLATE ASSEMBLY

Push out front and rear trigger plate pins. Lift trigger plate assembly from receiver. Inspect and clean, whenever necessary. Clean as a unit. NOTE: Do not allow cocked hammer to snap forward with trigger plate assembly removed from receiver.

TO REMOVE BREECH BOLT ASSEMBLY AND SLIDE

Remove piston mechanism. See opposite instructions. Pull out operating handle. Depress left shell latch in receiver. Pull action bar assembly wi't breech bolt assembly attached from front of receiver. Replace in reverse order.

FOR CLEANING

An evaporating cleaning solvent should be used. mechanisms remain clean much longer after shooting necessary precautions. Action brication is used.

RE-ASSEMBLY

TO REPLACE TRIGGER PLATE ASSEMBLY

Cock hammer and push safety to "ON SAFE" position. Slide trigger plate assembly ir receiver taking care that projecting parts of assembly clear receiver rails properly. A trigger plate pin holes and insert front and rear trigger plate pins.

TO REPLACE BARREL AND FORE-END

Hold both barrel and fore-end together with barrel guide ring fitted into top of fore-end. Place combined barrel and fore-end over magazine tube and slide towards receiver. Guide barrel extension into receiver and barrel guide ring over magazine tube. Open action to seat barrel properly into receiver. Replace magazine cap over barrel guide ring onto magazine tube and screw down tightly.

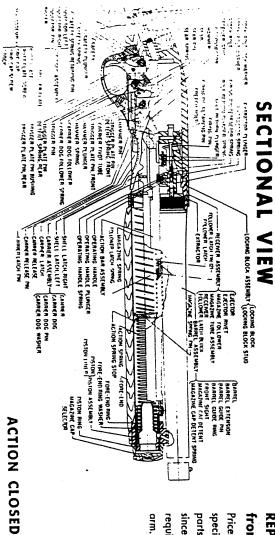

PLACE BARKEL AND FORE-END

I both barrel and fore-end together with barrel guide ring fitted into top of fore-end. e combined barrel and fore-end over magazine tube and slide towards receiver. Guide el extension into receiver and barrel guide ring over magazine tube. Open action to barrel properly into receiver. Replace magazine cap over barrel guide ring onto lazine tube and screw down tightly.

may also require additional care.

BELOW FREEZING WEATHER

Special attention should be taken that all oil is removed from action parts. If a lubricant is desired — use dry graphite or similar non-congealing lubricant. Take care also to prevent rusting from condensation (cold weather to warm room temperature) on action parts.

REPLACEMENT PARTS: Parts may be identified from the Sectional View.

Prices for parts will be furnished on application. When ordering parts, specify model, gauge, part name, and the serial number of the gun. All parts, including barrel assemblies, will be shipped as ordered but, since they are made to close dimensions, the particular part may require slight adjustment or fitting to assure proper functioning of the

MORE POWER FOR HUNTERS

WITH REMINGTON AND PETERS STANDARD-LENGTH MAGNUM LOADS

Hunters who own 12, 16 or 20-gauge shotguns with standard 2¾" or longer chambers can now get denser, harder-hitting patterns with magnum power ... in the sensational Remington "Express" and Peters "High Velocity" standard-length magnum loads. They're available in No. 2 and No. 4 shot in all three gauges. CAUTION: These magnum-powered shells should be used only in shotguns in good shooting condition and intended for maximum loads.

SIGHT ADJUSTMENT FOR "RIFLED SLUG SPECIAL"

WINDAGE — Rear sight eyepiece may be moved to left by turning windage screw clockwise. This will move slug impact to left. By turning screw counter clockwise rear sight eyepiece may be moved to right. This will move slug impact to right. NOTE: Windage screw is located beneath eyepiece.

ELEVATION OR RANGE

Rear sight may be raised or lowered by sliding notched sight step beneath eyepiece back and forth. Slug impact will lift, or range increase, by raising rear sight. Slug impact will lower, or range decrease, if rear sight is lowered.

"SPORTSMAN"—58, "EXPRESS,"
"HIGH VELOCITY," and "POWER-MATIC" are Reg. U.S. Pat.
Off., by Remington Arms Company, Inc., Bridgeport 2, Conn.
Form RD-5287 Rev. 1161 Litho in U.S.A.
