REGULATIONS

FOR THE

Uniform and Dress

OF

THE NAVY

Of the United States.

REGULATIONS

FOR THE

Uniform of the Navy of the United States.

GENERAL REGULATIONS.

201. *Full dress*.—Frock coat, epaulettes, cocked hat, sword, and plain pantaloons; the coat to be worn fully buttoned. The epaulettes, cocked hat, and sword-knot are to be dispensed with during the war.

202. *Undress*.—The same as full dress, but without cocked hat or epaulettes, and with or without sword.

203. *Service dress*.—The same as undress. Swords to be worn at quarters and on leaving a navy yard or vessel on duty.

204. *Officers* are to wear their uniform, either full or undress, whenever they make official visits to the President of the United States, the Secretary of the Navy, or to foreign authorities and vessels of war; when acting as members of courts-martial, courts of inquiry, boards of examination, or of special boards, or when attending such boards as witnesses, or in any other capacity.

It is left optional with officers to wear their uniform while on duty in the Navy Department, at the Observatory, or on light-house duty ashore.

205. *Uniform* is to be worn by all officers when attached to any vessel of the navy or Coast Survey, to any navy yard or station, or to any hospital or other naval establishment, for duty, unless when absent on leave.

206. *Officers on furlough* will not wear their uniform, and officers are strictly prohibited from wearing any part of it while suspended from duty by sentence of a court-martial.

207. *On all occasions of ceremony*, abroad or in the United States, when a commanding officer may deem it necessary to order the attendance of the officers under his command, he shall be careful in such order to prescribe the particular dress to be worn.

208. *Officers* attached to vessels of the United States Navy in foreign ports will not visit the shore without being in uniform.

209. *Officers* appointed on "temporary service" are not required to supply themselves with full-dress uniforms, but are required to obtain undress uniforms and side-arms.

210. *Officers* holding executive appointments in the volunteer service of the navy are to wear the same uniform as is authorized for their respective grades in the regular service.

211. Before a vessel proceeds to sea, there will be a general muster for the purpose of ascertaining whether the officers and crew are provided with the uniform prescribed by the regulations, and the commanding officer of the vessel will see that all deficiencies are supplied.

COATS.

212. *For a Rear-Admiral, Commodore, Captain, Commander, Lieutenant-Commander, Lieutenant, Master, and Ensign, and all Staff Officers* of assimilated rank, respectively, to be as follows:

213. *For gunners, boatswains, carpenters, and sailmakers, the same.*

214. *For midshipmen, third assistant engineers, and clerks, the same, except that the buttons are to be of medium size only.*

215. *For a master's mate, receiving \$40 per month, frock coat, of navy-blue cloth or flannel; rolling collar; single breasted, with nine navy buttons of medium size on the breast, one behind on each hip, one near the bottom on each fold, and none on the cuffs. ILLUSTRATED CATALOG OF CIVIL WAR MILITARY GOODS

Union Weapons, Insignia, Uniform Accessories and Other Equipment

In its own way, this rare catalog of Civil War military goods is as vital a source of authentic information and illustration as the battlefield photographs of Mathew Brady, Alexander Gardner and Captain A. J. Russell. Messrs. Schuyler, Hartley & Graham, military suppliers during the War Between the States, were a major source of materiel for the Union Army, Navy, Marines and Revenue Corps.

This unabridged edition reproduces the company's fascinating and valuable catalog (originals command several hundred dollars)—brimming with uniform and dress regulations, arms and ammunition, horse "furniture," tables of military pay, an organizational chart of the Navy Department and much else. Here is everything the well-equipped officer and enlisted man might require—military sundries of every conceivable kind. You'll find detailed descriptions of coats, "trousers," hats, boots, spurs, sashes, flags, tents, as well as crisp, clear illustrations of swords and sabres, foils and fencing masks, saddles, bits, bridles, field glasses, gauntlets, epaulette ornaments, coat sleeve trimmings, medals, buttons, knives, canteens, candlesticks, musical instruments and other equipment.

A section devoted to arms and ammunition depicts a rich selection of rifles, carbines and shotguns, pistols, revolvers, cartridges, etc. And the final section contains first-rate images of the coats of arms of the United States and each of the thirty-four states.

Civil War buffs, military historians, scholars, artists and costume historians will delight in browsing through and studying this extraordinary volume. A treasury of authentic original illustrations, *Illustrated Catalog of Civil War Military Goods* is a fascinating document dating from one of the most dramatic periods in American history.

Unabridged and slightly revised Dover (1985) republication of *Illustrated Catalogue of Arms and Military Goods: Containing Regulations for the Uniform of the Army, Navy, Marine and Revenue Corps of the United States*, originally published by Schuyler, Hartley & Graham, Military Furnishers, New York, 1864. 226 black-and-white illustrations. 160pp. 9 x 12. Paperbound.

A DOVER EDITION DESIGNED FOR YEARS OF USE!

We have made every effort to make this the best book possible. Our paper is opaque, with minimal show-through; it will not discolor or become brittle with age.
