

SOFTWARE ARCHITECTURE

- ❑ **Is this a “Good Idea”?** Feature creep — kill it.
- ❑ **DRY?** Do I repeat this anywhere?
- ❑ **Orthogonal?** How independent is this?
- ❑ **Testable?** How will I test this?
- ❑ **Is there another way?** Having only one idea is dangerous
- ❑ **Costs of changing** this later
- ❑ What would the architecture look like **if I didn't have this problem?**
- ❑ What are the **facts** and **assumptions?**
- ❑ **Document rationale**
