This book is produced using paper that is made from wood grown in managed, sustainable forests. It is natural, renewable and recyclable. The logging and manufacturing processes conform to the environmental regulations of the country of origin.

Text compiled and typeset by Market House Books, Aylesbury
Printed and bound in Great Britain by Bookmarque Ltd, Croydon, Surrey

INTRODUCTION

This dictionary is intended to help crossword puzzle solvers and other word-game enthusiasts to find anagrams quickly and easily.

It consists of lists of English words and phrases arranged into two-letter words, three-letter words, etc., up to words and phrases that have sixteen letters. Each word or phrase is preceded by an anagram key, composed by taking the letters of the word or phrase and arranging them in alphabetical order. The entries themselves are arranged in alphabetical order of anagram key.

The use of the book can best be illustrated by a simple example. Take the clue 'Ronny can get mixed up and fired.' The answer is an eight-letter word. The words 'mixed up' in the clue suggest that the answer may be an anagram of 'Ronny can'. Taking the letters of 'Ronny can' and putting them in alphabetical order gives the key ACNNNORY. In the list of eight-letter words, this gives the correct solution - CANNONRY.

We have tried to include as many words and phrases as space permits and short lists of palindromes and backwards are also included. We hope that the book will prove useful to all who enjoy doing crossword puzzles.

John Daintith
