URGENT-IMPORTANT

Successful Training Lineup

It has recently been found that there are blocks to Academy and major course training which are slowing the training of Auditors and C/Ses. It has been additionally found that the erroneous requirement of BSM before Academy contained in the above HCO PL had introduced a training cutative by taking the Student Hat and Study Tapes out of the training line-up.

It is well known that these materials have been the backbone of Scientology training since their introduction in 1964. They are therefore fully reinstated by this BPL.

The basics of successful training are simply the basics of Standard Study Tech. This means fast courses that encourage more enrollment and that produce Auditors and C/Ses and Supervisors who really know and apply Standard Tech.

Further, staff training is itself vital in an org. It is a matter of survival to an org to be able to train its staff quickly.

STAFF TRAINING AND HATTING

The only prerequisite for Staff Hatting is BSM done per the checksheet. PRD is not a prerequisite, nor is a Student Hat nor is Word Clearing Method 1. Where a staff member has had neither the PRD nor M1, he may not fast flow his hatting, but may only starrate checkout, and take exams to graduate.

Where a staff member has had PRD or Student Hat and Method 1, he may fast flow his hatting with no twin checkouts, no examination, but only by attest.

Staff training on Major Tech or Admin courses is as given later in this BPL. Staff training on major admin courses has prerequisites as follows: for OEC a staff member must do a full Student Hat and Method 1 and may then fast flow the course; for FEBC, the PRD in full is prerequisite.

It is important to note the difference between staff HATTING and staff TRAINING. For an exact outline of the basic sequence of hatting, see HCO PL 24 July 72, Esto Series 23, "The Vital Necessity of Hatting".

FAST FLOW TRAINING RULES

Following are the rules of Fast Flow Training:

1. The only prerequisite for a student, staff or public, to be able to Fast Flow his courses is Student Hat and Method 1 Word Clearing. Where a student has already done the full Primary Rundown, he is also qualified to Fast Flow his courses.
2. Requirements of twin training or checkouts for Academy are suspended.
3. The prerequisites for Major Courses and Academy training are Student Hat and Method 1 Word Clearing. BSM as an Academy prerequisite is abolished.
4. Where a student has not yet completed his Method 1 Word Clearing, he is not to be held up or denied his Academy Courses or put onto smaller courses, but may get on with his Academy doing Starrate Checkouts and examinations to graduate while completing M1.
5. The Student Hat Course including Study Tapes is one time only FREE and MANDATORY for any Major Course. (Note: A full Academy Package 0-IV must be purchased in order for this offer to be applicable -- not just individual levels.)
6. Method 1 Word Clearing must be fully done with each word taken to F/N as well as F/Ning the final assessment.
7. Method 1 may be done either on a Student Co-Audit or in the HGC. If purchased in the HGC, professional rates apply for those students who have purchased the full Academy 0-IV. If done on a student Co-Audit,

the Method 1 Co-Audit Course must be completed and is free for those students who have purchased the full Academy 0-IV.

8. The above rules apply to OEC training.
9. The above rules apply to AOs and SHs.
10. Method 1 Word Clearing is not a prerequisite for HSDC or HPDC, but is advised.

FAST FLOW AND QUAL

Students who graduate Academy training Fast Flow are not made to take examinations. Courses are passed by attestation at C&A that the student has: (a) enrolled properly on the course, (b) paid in full for the course (or has signed a no charge invoice in the case of 2½ or 5 year contracted staff), (c) studied and understands all the materials on the checksheet, and (e) can produce the result required in the materials of the course.

Interneships and High Crime Checkouts requirements remain as issued. High Crime Checkouts and cramming actions requiring starrates are done starrated and not fast flow.

Interneship graduation requirements are that a full Interneship as formal auditing experience is completed. When actual honest evidence is presented to C&A that a student has demonstrated that he can and has produced flubless results, the Interne's Certificate is validated and made permanent. Until an Interneship is completed as above, Academy certificates are PROVISIONAL.

With other courses the person must demonstrate that he can apply the materials studied by producing an actual statistic in the materials studied, such as an Apprenticeship done in full. This evidence is presented to C&A and the student receives a validation gold seal, making his certificate permanent.

Qual has the responsibility of safeguarding the technology. Qual must be very strong to fulfill its responsibility, especially under Fast Flow training. Ethics must be accurate and not neglected. Ethics exists to get Tech in.

FALSE ATTESTS on Fast Flow get immediate cancellation of certificate and a Condition of Doubt.

A Provisional Certificate expires one year from date of graduation if not validated. Persons whose provisional certs have expired are required to take an Interneship for their past Class levels, at which time if Interneship is successfully passed, a Permanent Cert is awarded.

CLASS VII

Class VII is a vital level for training Sea Org Auditors. Orgs should have at least 2 Class VIIs on 5 year contract to deliver Power to contracted staff.

Class VII is not prerequisite for Class VIII. The Class VII Course is not now available for public, but may be delivered to Org Auditors on a valid and proven 5 year contract, and to Sea Org Auditors only.

IMPORTANCE

The importance of top notch, 100% Standard Training on Academy and higher level Tech and Admin training courses cannot be stressed enough. The foundation of this is strong, Standard Study Tech. Auditors and C/Ses and Supervisors and Executives who have not gotten in firm Study Tech basics have been seen to fail time & again & to themselves be sources of out-tech, declining delivery and declining income.

Full Study Tech is hereby going back in with a crash. Staff only are allowed to do BSM as a hatting prerequisite and that is only a study boost, not a full grounding in Study Tech. BSM may, of course, be sold separately, but does not fulfill any study requirements except for staff hatting or public mini courses.

The full technology of Dianetics and Scientology is there to be duplicated and applied. Please see that it is.
