SUPERVISOR TWO-WAY COMM EXPLAINED

I don't think from the day they were spoken until now, anybody has understood or used "The Study Tapes".

This is the only piece of Technology that you use on a course.

There is no other teaching Technology of any kind used on a course.

The 2-way comm HCO Bs are Auditor HCO Bs.

The Supervisor has to know 2-way comm simply so that he can ask these burning questions:

"How are you doing?" (Not with a lot of student it'sa.)

"Is there any word you haven't understood?"

"Look it up."

"Use it in a sentence a few times."

That's the totality. That's all there is to teaching a course as far as the Technology goes.

It's contained in a few words and there's no other technology.

That's all there is to teaching a course because that's all that's wrong with students.

You can monitor it this way. You can watch a student's stats. His stats are down today compared with yesterday's so you go over and talk to him. He says "Yes. I had a hard night last night, up all night arguing with my wife." etc. - which could go on for hours.

But the Supervisor says "Now yesterday or today what word did you run across that you didn't understand?"

The meter gives a LF.

He says "Yes! Well I didn't understand the word 'waffle-waffle'.

The Supervisor says, "Well lets look it up and get it defined.

The student says, "Well it wasn't that word, it was the word before that."

Supervisor, "Good - let's get this looked up."

The student does and he gets an F/N and it's all fine.

His study stats go back up.

That's all there is to it!

There are two ways to fail to communicate the Tech. One is not to read the HCO Bs and the other is not to use the misunderstood word tech.

(Of course you can have no course and nobody there even trying.)

As long as the Administration of the course is in, the sole course Tech is this misunderstood word tech.
