SECTION XVIII - AUDITING:

The requirement for auditing per BPL 18 Oct 76 URGENT -
IMPORTANT SUCCESSFUL TRAINING LINEUP is "can produce the result
required in the materials of the course". The following re-
quirements exist for an HSDC student for graduation:

Has audited a pc on Dianetics processes or at least one Dianetic RD to a definite pc result, and has done so with consistent WD or VWD sessions. (A "pc result" is not an F/N but a remarkable case change.)

Note: The auditing requirements are not to be brushed off, nor are they to be made overlong. The original HSDC requirement was 25 hours which included one or more remarkable case changes in the physical condition or well being of a preclear, which classifies here as a result.

The student should plan to do the Dianetic Internship, upon completion of this course. This Internship is absolutely necessary to full Dianetic Auditor Training.

I attest I have fully completed the above checksheet and know and can apply the HSDC materials and produce the expected results on pcs.
