**Welcome to the
"Demand your money back from Scientology"
page.**

Dear reader,

Did you ever try to get your money back from the "church" of Scientology? Or didn't you even start trying because you think you'll never manage?

If that's the case you're definately not the only one. Probably we can be at your service.

Who we are, you wonder? We are a group of ex-"churchies" with, meanwhile, quite a lot of experience with the "refund"-policies of Scientology.

In short we operate this way. The 'org' in question gets a registered letter with the (financial) demands including the moment the payment is expected. When no reaction is received a second registered letter will follow which contains the message that collecting the money will be handed over to an international collecting agency, and, that they are kept accountable for all extra costs. When the 'org' still doesn't react or pay, all necessary juridical steps will be taken.

This way we managed to collect 400.000 euro last year.

You can reach us by telephone at: +31(0) 638 394 557 (ask for John).

Our e-mail address is: scientologypayback@yahoo.com

With kind regards,
