

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI

DATE: October 9, 1947

FROM : SAC, PORTLAND

SUBJECT: FLYING DISCS
SECURITY MATTER - X.

Reference is made to Portland teletype dated September 13, 1947.

[REDACTED]

[REDACTED] Madison Ave., Portland, advised that he was one of the two officers on duty in District 18 on September 11. The car was in the vicinity of N.E. 25th Avenue and Saratoga Court when [REDACTED] and his fellow officer noticed a number of people looking upward and pointing. Upon looking at the sky [REDACTED] observed the very bright reflection of the sun on some object which was apparently made of silvery metal. The object was coming from the east and made a wide turn over the city and disappeared to the south. [REDACTED] estimated its speed at about 150 miles per hour and its altitude at about 5,000 feet. He watched it for a period of about two minutes and during that time it gradually disappeared in such a manner as to appear that the angle was slowly changing, so that the sun was no longer reflected into [REDACTED] eyes. He says that the shape appeared to be round but that the glare was so bright that it could have hidden the true outline of the object. There was no oscillation visible - only steady flight. [REDACTED] believes it was an ordinary metal airplane reflecting light of the afternoon sun.

[REDACTED] Lincoln St., Portland, Oregon was [REDACTED] partner in District 18 on September 11. [REDACTED] states that the object appeared to him to take the same course as that described by [REDACTED]. He pointed out that the speed, height, and size of the object were difficult to judge, because of the interdependence of the three factors. However, he believes that the object when first sighted was about three miles away and about two miles high. He believes it was traveling at a much greater speed than a conventional airplane and was a great deal larger. It appeared to him to be elliptical in shape, and inasmuch as it did not bank or tip he could not judge its thickness. It was of a very bright silver or aluminum substance.

Anchorage File 100-1406

It may be stated to the Bureau that Mr. [REDACTED] is a well known flyer as well as Mr. [REDACTED] and both are known to be very reliable and responsible people, and it appears definite that they observed something. b7c

The above is being submitted for the information of the Bureau.

LOT:LMR
100-1406

PD 62-1531

[REDACTED] advised that he was travelling south on N. Williams Avenue near Russell St., when he and Officer [REDACTED] his driver, received a call on the police radio requesting District 14 to attempt to observe an unknown object in the sky reported by officers in District 18. [REDACTED] observed what appeared to be a round silver object, about 10,000 feet high, travelling northeast to southwest. It was directly to [REDACTED] left when observed first. He thought it was a weather balloon. Further observation convinced him that it could not be a balloon because of its speed which was extremely great. As [REDACTED] watched, it turned gradually until it was travelling due south, and as it did so, its shape seemed to change until it appeared to be egg-shaped. It disappeared in about 30 seconds. b7c

[REDACTED] stated that when he first observed the object it was straight ahead of him and travelling straight away from his car. [REDACTED] was driving south on N. Williams Avenue. To [REDACTED] it appeared to be just a glare of sun on some object, and he was unable therefore to tell its shape. It appeared to be very high and travelling extremely fast. It was out of sight after he had travelled 4 or 5 city blocks at a speed of about 25 mph. [REDACTED] stated that he has never seen an object at such an extreme height before and that if the sun had not reflected from it he could not have seen it at all. He believes it could possibly have been a reflection from a large airplane at great altitude. b7c

[REDACTED] N. Fessenden St., Portland stated that he was on duty in District 14 with Officer [REDACTED] on September 11, 1947 and received the call to watch for the object flying over the city. [REDACTED] and [REDACTED] immediately scanned the sky from a vantage point in open territory where they could see the entire sky. They saw nothing in the sky at that time, SHAYLOR stating that they did not even see any airplanes. b7c

A short article in "The Oregonian", Portland daily newspaper, for September 12, 1947, describes the object as seen by Chief of Police JENKINS and also states that "The Oregonian" received several calls from other persons reporting the object. FRED M. WHITE, Assistant City Editor, advised that the paper has no record of the identities of the people making the calls.

~~_____~~ b7c
Menomonee Falls, Wis

(Ed. note) The flying saucers are real, and you can be sure of that! Let your neighbors think what they will, in a few months you will be able to prove how good your brother's eyesight is! Thanks for your report, and we hope many more readers send them in. Rough drawings would also be helpful. - Ed.

The editor had asked for letters from readers who saw the flying discs, mentioned so much in the news. Several times the editor (Ray A. Palmer) has mentioned in "Amazing Stories" that he has been threatened.

In the same issue (Jan. 1948) on page 162 is a letter from W. C. Hefferlin, following:

Svc:

Enclosed is a newspaper clipping, just one of many items showing up of like nature. Thumb nail sketches.

Remember the article "Circle-winged Plane" as printed by you in "Amazing Stories" magazine, September, 1946, page 157? You have the facts and confirmation. Now, re-read the article, again, please.

The planes seen at Golitt, Ill., Kans.

... same group of planes but other groups of same type, all on a world wide "mapping exped.

They are only a few of the many belonging to a world government consisting of all oppressed peoples and dominated nations of the earth, of all colors, races, and creeds.

This government is directed and advised by an organization headed by "The Ancients Three, Who were, Who are, Who will be." They who at one time over a year ago, sent a message to you by way of us. Their headquarters is "Rainbow City", Antarctica.

Permission is given to print this letter if desired.

 b7c
Livingston, Mont.

(Ed. note) We print your letter because it is interesting. We don't know if it is true, naturally we do know, however, that the "flying saucers" are no mirage. As for Rainbow City, if it's what you say it is, we'd sure like to pay it a visit. That sort of thing, which the Utopia all science-fiction writers have dreamed about, is just not visible anywhere in the civilized world. If it exists at the South Pole, near that warm spot Byrd found, and it has what you intimate, we'll be waiting for the saucers to come back and bring peace to the nasty-minded old planet. Only we wonder how it

haps the war "it will ever be gone" is to wipe
the slate clean and just start off as vertible caves
shocked to sanity by utter destruction. In the
case, maybe the "last" war is our "last" hope.
peculiar viewpoint, but it has amazing logic
never met the man who could learn how a k
in the pants feels without getting a kick in the
pants. as for the saucers - maybe you're sho-
ing in the dark - because your editor knows
what he's talking about there! But even if you
we'll forgive you, because your motives are so
obviously of the good kind. Thank you for yo
letter. it wasn't really necessary. Our readers ha
not forgotten your article - and how they wrote us about it.

Please notice where Keffelin says - "govern-
ment of ... all oppressed peoples ..." They want
all rights and privileges that there are yet
want to deny them to others, especially the freed-
of free speech, as witness from "Rainbow City" tel-
me to "keep quiet"! And why did they numb-
their letter to me "1" - are they intending to
write more?

as my letter is a warning letter with a
threat, and coming through the U. S. mail, I am
sending it to you personally so that it can
be investigated. Please keep this confidential
since under the circumstances, I do not feel en-
ly safe.

Thanking you, Very truly yours,

67c

Federal Bureau of Investigation,
Pittsburgh, Pa.

Gentlemen:

Following the appearance in this town on November 6, 1947, of a Mr. [redacted], Red Cross, Pittsburgh, Pa., as "speaker of the evening", at the annual local Red Cross dinner, I was told by Dr. [redacted] local practicing dentist, that in a personal conversation, following the dinner, Mr. [redacted] told him that the "saucers" reported as seen in various parts of the country, were actually from Spain. He said that Mr. [redacted] said that this had been ascertained by the Government in Washington, but that it was not being made known. He said that Mr. [redacted] had been in Europe and inferred that he had been in Spain and knew conditions over there. Dr. [redacted] is a man active in the Methodist Church and the local Protestant Mens Club, and it is easy to see how far this report can be spread. The fact that the Federal Government indorses the Red Cross makes a statement of an official representative of that organization almost indisputable.

As a representative of the Federal Government and as a citizen interested in truth and World peace and racial and religious harmony in our own country, I question the advisability of an accredited representative of the Red Cross giving out this information, even "off the record". I thought you might be able to check with Mr. [redacted] or his organization.

Yours very truly,

STOP DEN

Dear Sir

In regards to the "flying saucer" mystery which recently received national publicity, I, as a citizen would like to ask a few questions. If you, as head of the FBI, would be so kind as to answer I would be greatly appreciative.

First, has the FBI been and is the FBI still investigating the "flying saucers"?

Second, were copies of the July 7th 1947 issue of the Arizona Republic, published in Phoenix, Arizona confiscated by the FBI?

Third, is the FBI investigating the "Shaver Mystery" in which an author named W. J. Shaver claims there are people

living underground who have been there
for centuries?

Fourth, has a newsreel, which appeared
in a Los Angeles theatre showing Russian
scientists examining a crashed flying
saucer, been suppressed by the FBI?

Fifth, Does the FBI consider knowledge
of the "flying saucers" too dangerous for the
general public to know?

Though the above questions may seem
a trifle silly, I would appreciate an
answer to them, if at all possible.

Thanking you for your courtesy in reading
this and hoping for an answer, I am
Sincerely yours

Dear Sir.

With all these forest fires in main and out west in our country I was wondering whether the flying discs had anything to do with it. Was that just a myth or did they exist. If so could not they have been incendiary falling to earth then with drought and heat from the sun ignite. Were not the discs seen flying over main Vt. and western states are the western states that have forest fires the same ones reported to have seen the flying discs.

I have great respect for your Bureau or should I say our. In any way the F.B.I. has been excellent. I visited the Bureau while in Burlington some years ago.

I do hope I haven't taken up too much time but couldn't stop thinking of it. All Americans must be alert but not nervous. I have quite a lot of different foreigners settling up here with plenty of money. Like the book words I guess. Keep to themselves too.

1/2/47

It is not for the first time
was something of a new design
for a tested starter object. (Please
do not laugh) You know about
all those little planes looking
just over time bombs & about
fires in ships, and what it
possible some war incident was
a cover for this sabotage, because
that is what all the people I
don't think of those fires and
airplane wrecks.

They are not
accidents. We have had dry
spells before, but did the
whole country burn up at the

some time. I say it would be
a good idea to ask the people
in the ruined areas if any
of them had seen a bee and
how long ago. I know we have
the smartest man in the world in
our F. B. I. and I do not presume
to tell you people what to do, but
maybe there is some connection.

In any event I think you
people should start protecting our
country the same as you did in
War Time.

Because whatever you
people think, we are at war with
some one, Only they are hiding.

August 29, 1950.

Gentlemen:

It has come to my attention that one of the Departments of the F.B.I. is collecting information from eyewitnesses of the phenomenon commonly termed 'Flying Saucers' and with this in view I have the following incident to relate.

On July 19th at 10:30 I was looking over my farm facing west. The moon was fairly full and there was a low ceiling of light clouds. Much to my amazement I saw through the clouds a hazy object of light coming towards the farmhouse with incredible speed. It circled before reaching the farmhouse and continued to do so, neither the height or the orbit of which I could determine. I could not distinguish its shape, as it was above the clouds and I could only see a filter of light.

This was an entity in itself or within itself. It did not come from a beam either above or below. At times it seemed to retard its speed and then would circle in the opposite direction. After watching this spectacle for about ten minutes I felt in justice to myself that I should have corroboration so I called to my houseman who was in bed who came out in slippers and bathrobe and watched it with me for about ten minutes with mouth agape. I continued to watch it in all for about thirty-five minutes, from 10:30 p.m. to 11:05 p.m. when it disappeared in a westerly direction.

I am passing this along to you for what it is worth. If you are not interested throw it in the waste paper basket.

Yours very truly,
a

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

DATE: July 31, 1950

FROM : SAC, Chicago

AIR MAIL
SPECIAL DELIVERY

SUBJECT: [REDACTED], INFORMANT

0 FLYING DISCS

On July 28, 1950, Mr. [REDACTED], Chicago, phone [REDACTED], brought to this office the original letter and envelope attached, postmarked July 25, 1950 at Chicago, which letter is quoted below:

"New Flying Saucer" ~~DEFERRED RECORD~~

"Since we are on the brink of a third world conflict, the world is more air concious than ever. Aviation in some phases is yet in its pioneering days. Much talk goes on about the flying saucers or discs. The saucer we speak about, is not a military secret, and is not yet owned by any government. The flying saucer which was seen over south Chicago last April is a large fuel tank with crystal glass wings. It has two large jet engines on both sides. It is radion controled. It resembles a saucer very much when in flight. The wings cannot be seen on a clear day. This is so it is a most difficult target for anti aircraft gunners. The reason for the large flat gas or fuel tank is to give the ship a long range for atomic bombing. The ship was designed by [REDACTED], a former 'Linco' skywriter, [REDACTED] aircraft mechanic, and [REDACTED] German World War I ace. The ship was financed by HOWARD HUGHES, millionaire aviation enthusiast. It is now being tested by the Glen F. Martin Aircraft Co., makers of the Martin Marauder. The craft is only made for one way trips. It has a range of 4000 miles, ceiling of 25,000 feet, and a speed of 750 miles per hour. So far only a few of these craft have been made, and they usually are pitched in the lake or ocean as they cannot be landed. They are merely to carry a bomb of high destruction to enemy country. They have no wheels, but small steel rails on the bottom from which they take off. All other mechanism can be explained in detail. The man who welded the ship says it is by far the best long range bombing instrument he has ever seen. The name of the ship is the 'Danse Macabre'.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

DATE: 8/2/50

FROM : SAC, Louisville

SUBJECT: ALF E. HIXENBAUGH's Photographs
of Flying Saucers;
INFORMATION CONCERNING

On June 28, 1950, the Louisville Times, a newspaper of general circulation published at Louisville, Kentucky, carried a two column out showing three frames of a movie camera film of what purported to be a moving picture of a flying saucer. The photographs, taken by ALF (AL) HIXENBAUGH, Times staff photographer, were taken, HIXENBAUGH said, on a 16 mm magazine-loading movie camera.

The news article, accompanying the photographs, stated HIXENBAUGH took 50 feet of film in which "the bright flying object shows clearly." The photographer, according to the article, was at Longest and Everett Avenues near his home, 2205 Longest, at 4:15 p.m., June 27, 1950, on his way to take some moving pictures of birds. The article relates that HIXENBAUGH "suddenly heard the roar of a big plane -- a twin-motored DC-3 -- and glanced overhead. At first he thought it was a jet plane then he looked to the west of the plane, which was flying southwest toward Standiford Field -- and saw the large disk. It had a slight corona around it and seemed to be lower than the plane."

According to HIXENBAUGH, the object appeared "motionless for about ten seconds ... then it began to get smaller, finally vanishing into the west." The article notes that while the "saucer" appeared on all the film HIXENBAUGH took, the airplane was out of the picture field quickly, appearing on only about 10 feet. HIXENBAUGH, according to the article, advised military officers at Godman Field who in turn notified flight headquarters at Wright-Patterson Field. A copy of the newspaper article and photographs are being forwarded to the Bureau as enclosures.

A subsequent newspaper article stated that representatives of the military would fly to Louisville to examine the films. In addition to being printed in the Louisville Times, the movie film taken by HIXENBAUGH was carried on a national television network and received national comment from WALTER WINCHELL. HIXENBAUGH has received telephonic and written queries concerning subject matter of the picture

from various persons and organizations throughout the United States, he said.

On July 28, 1950, HIXENBAUGH telephonically communicated with the Louisville Division stating that he had been advised that a representative of one of the Army Intelligence Agencies would be in Louisville on Saturday, July 29, 1950, to view the film. He expressed fear that the persons who might be contacting him might be unauthorized individuals and asked if he could bring the film to the FBI office for clearance. HIXENBAUGH was advised that the Bureau did not clear employees of other agencies and if he had doubt as to their authenticity he should check with the agency they professed to represent. HIXENBAUGH was advised that in the event they were not representatives of the agency they professed to represent, the information should be furnished this office and appropriate action would be taken under the Impersonation Statute.

[REDACTED]

[REDACTED]

Movies Snapped of Sky Disk By Alert Times Photographer

Yes, we have some flying saucers today, and for the first time, here are moving pictures for proof.

Many have reported seeing the saucers but it remained for Al Hixenbaugh to do something about it—with his trusty 16 mm. magazine-loading movie camera.

"Hix," Times staff photographer, took 50 feet of film in which the bright flying object shows clearly in all. Army officials have been informed and have indicated eagerness to examine the pictures.

The photographer was at Longest and Everett Avenues, near his home at 2205 Longest, at 4:15 p.m. yesterday. He was on his way to take some movies of birds.

Suddenly he heard the roar of a big plane—a twin-motored DC-3—and glanced overhead. At first he thought it was a jet plane. Then he looked to the west of the plane, which was flying southwest toward Standiford Field—and saw the large disk. It had a slight corona around it and seemed to be lower than the plane.

He aimed his camera and fired. While he ground out the film, he said, the object appeared motionless for about 10 seconds.

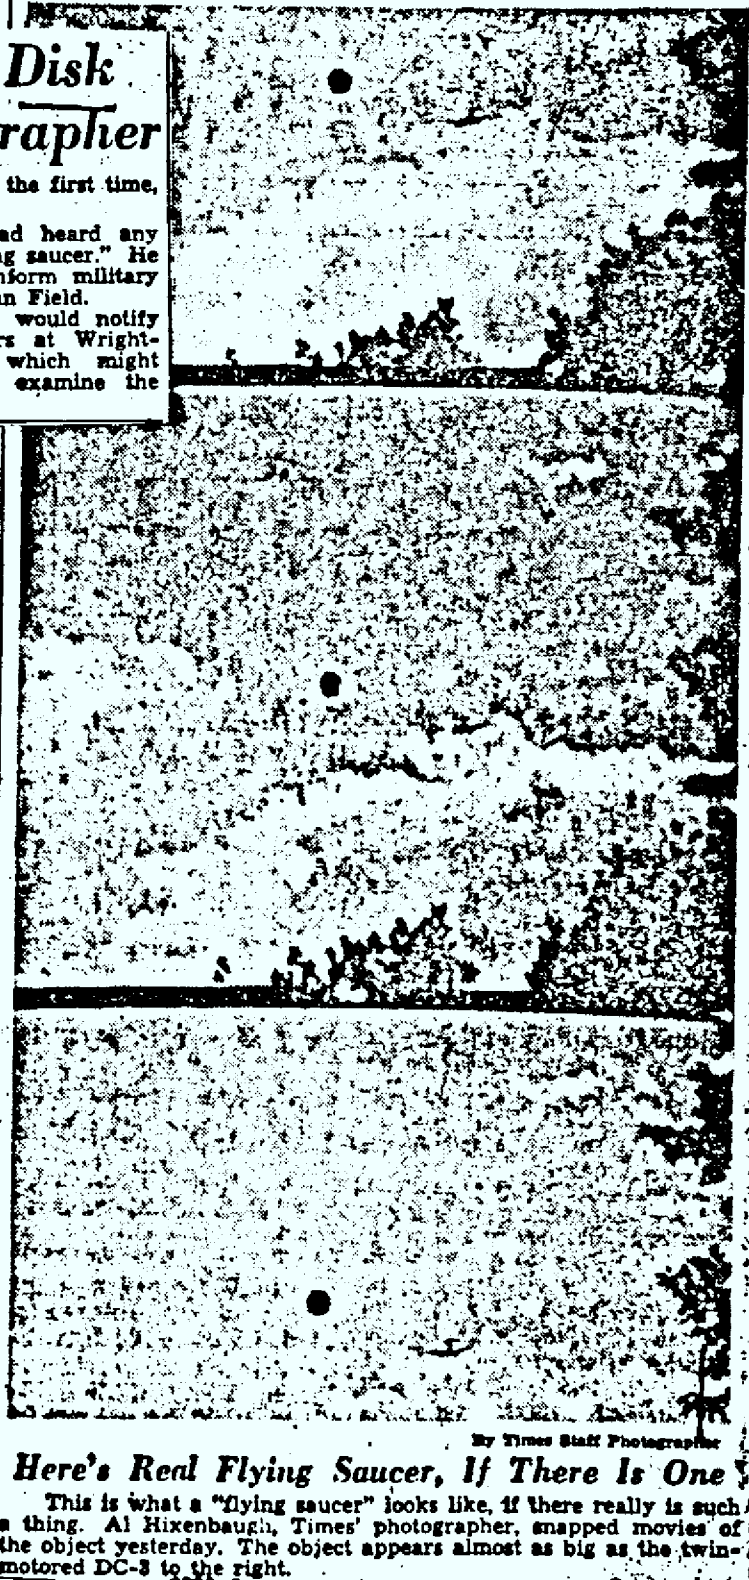

"It stood practically still, like a balloon," he said.

Then it began to get smaller, finally vanishing into the west. While the "saucer" appears on all of the film he took, the plane was out of the picture field quickly, appearing only on about 10 feet. The disk was within his vision "about a minute."

"Hix" contacted the newsroom at WHAS and from there Jerry Gammons called Standiford and Bowman Fields and weather

officials. None had heard any reports of a "flying saucer." He was advised to inform military officials at Godman Field.

Godman said it would notify flight headquarters at Wright-Patterson Field which might send an aide to examine the films.

By Times Staff Photographer

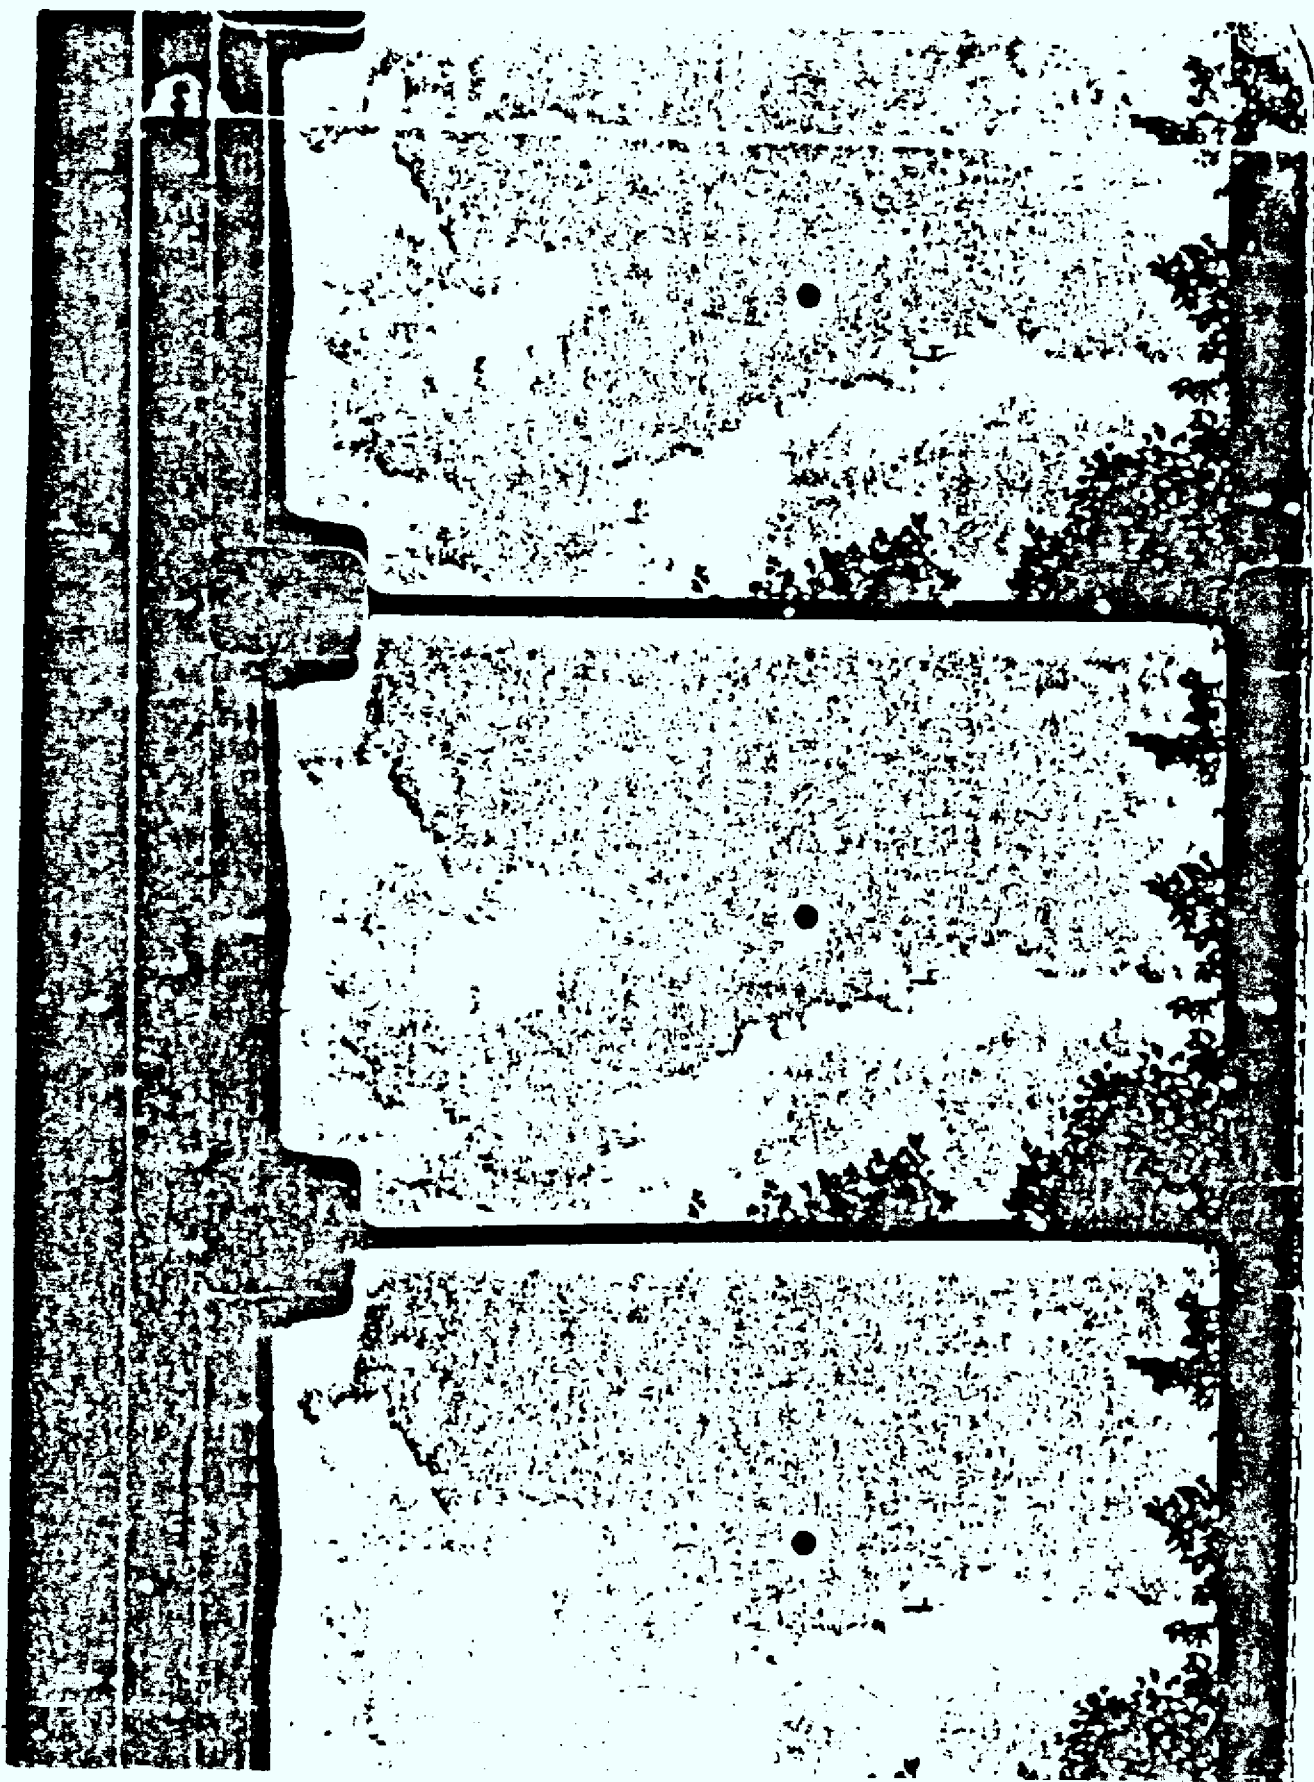

Here's Real Flying Saucer, If There Is One

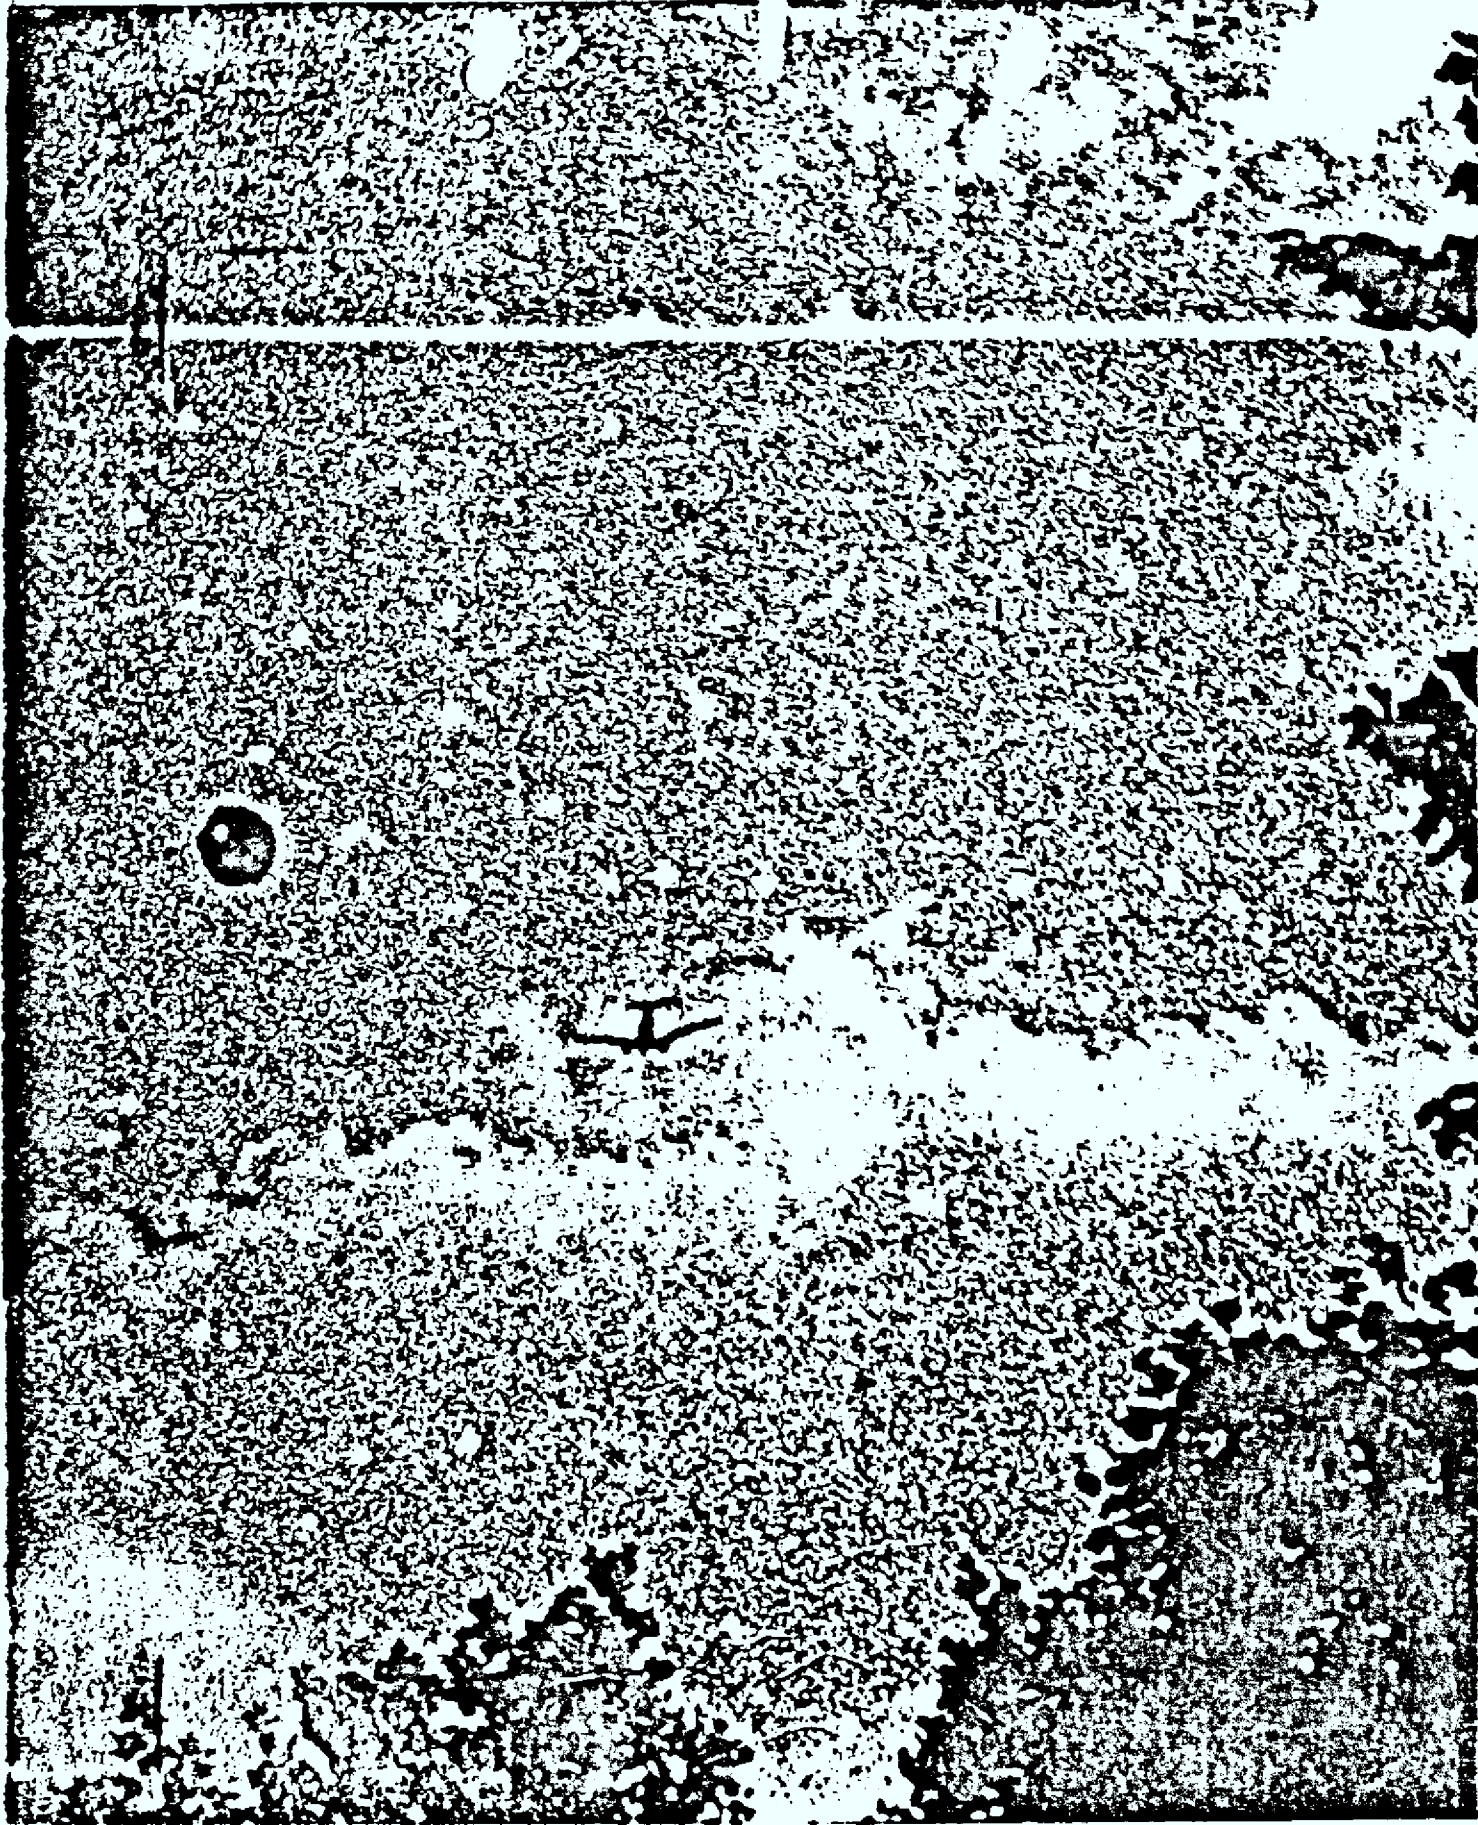

This is what a "flying saucer" looks like, if there really is such a thing. Al Hixenbaugh, Times' photographer, snapped movies of the object yesterday. The object appears almost as big as the twin-motored DC-3 to the right.

Mr. [REDACTED]
Louisville 11, Kentucky

Dear [REDACTED] 83894-239

Your card postmarked July 3, 1950, has been received and it is suggested that you may wish to correspond directly with the Secretary of the Air Force, National Defense Building, The Pentagon, Washington 25, D. C., since the matter to which you referred has been handled by that agency.

I am sure you will find on a close examination of the book you mentioned that it contains no quotations from the FBI but merely mentions this agency.

Sincerely yours,

J. Edgar Hoover

John Edgar Hoover,
Director

NOTE: Correspondent refers to a book "The Flying Saucers are Real" by Donald Keyhoe, which has been read and will be reviewed by the Crime Records Section in the near future. The book mentions briefly that the FBI was investigating flying saucers and that Bureau Agents witnessed saucers at Las Vegas, New Mexico, 12-8-48. It is not malicious in the references to the FBI. Keyhoe wrote the article on saucers for True Magazine.

FROM: SAC, Chicago

SUBJECT: FALLING DISCS
[REDACTED] - INFORMANT

The following is submitted for information of the Bureau for whatever action it may deem advisable.

On July 1, 1950, [REDACTED] of known reliability, advised that at 1:00 a.m. July 1, 1950, at North Chicago, Illinois, east intersection of 22nd Street and the Chicago, North Shore and Milwaukee Railroad and Chicago Northwestern Railroad tracks, atop the watchman's tower, which is approximately fifteen feet in the air, he observed one cigar-shaped object, about five feet in appearance from his viewpoint, traveling from northwestern to southeastern direction at an excessive rate of speed over the Great Lakes Naval Training Center, Great Lakes, Illinois. According to the informant, this object appeared almost directly overhead at an altitude which he estimated to be about 15,000 to 20,000 feet, and it remained in sight for about twenty to twenty-five seconds until it disappeared over the horizon.

This informant advised the object did not appear like any falling star or meteor he had ever seen, and that it proceeded in a straight and level flight. The informant continued that the front two-thirds of the object was a constant glow about the coloring of a burning kerosene lamp, and that the rear third was dark. He continued that the object left a bluish-white trail behind it, appearing to be about four inches in width, and about three times the length of the object. The informant advised that there were no wings or other type of support visible to him, and that the propulsion, control and stability were unknown to him. He advised that the speed of this object was much faster than any conventional type of aircraft he had ever seen, although it did not travel as fast as a falling star. He added that there was no sound discernible.

[REDACTED]

his attention was drawn to this object while he was watching for an approaching train. It is to be noted that he advised there were no other witnesses who saw the aforementioned object.

This informant has furnished reliable information to the Chicago Division in the past, is of average intelligence, and considered of good character and reputation.

Reference is made to SAC letter #38, series 1949.

Mr. [redacted] Downers Grove, Illinois, telephone number - [redacted] telephonically advised SA [redacted] at 9:54 PM, July 4, 1950, that at 9:38 PM on July 4, 1950, he observed a large, bright, silvery object moving at an approximate altitude of 10,000 feet, in a north, north-westerly direction over Downers Grove. Mr. [redacted] said that his wife also observed this object. He stated that he estimated the speed of the object at 700 to 800 miles by comparing its rate of movement with that of commercial airplanes.

Mr. [redacted] advised that he is a meteorologist with United Air Lines and the object he observed was not a plane nor was it a fireworks display.

The above is being submitted for your information.

TO: DIRECTOR, FBI

FROM: SAC, WASHINGTON FIELD

SUBJECT: FLYING DISCS
INTERNAL SECURITY - X

This is to advise the Bureau that on June 25, 1950, [redacted] and who is employed at the Hot Shoppe, Connecticut Avenue, N.W., informed that at 9:25 am, that date, while looking out of the window of his residence he saw what he believed to be a flying saucer. He described this object as resembling a cigar, the end of which was tilted down toward the earth and presenting a silver appearance. He estimated the height of this object as from 20 to 25 thousand feet, and stated the size at that distance appeared to be about four inches. [redacted] could furnish no further details other than to state the object appeared to be moving in an easterly direction. He advised that this is the first flying saucer he has ever seen.

The foregoing is being furnished for the information of the Bureau and no action is being taken by this Office.

FROM : SAC, San Francisco

DATE: June 15, 1950

SUBJECT: [REDACTED]
Yuba City, California
RESEARCH

Rebulet 6-5-50.

Subject was located 6-13-50 residing at [REDACTED] San Jose, California. He was interviewed by SA [REDACTED] of this Office, who carefully explained the jurisdiction of the FBI to him and questioned him relative to any information he might have which would be of interest to this Bureau.

Mr. [REDACTED] had nothing to add to his previous story as submitted by letter to the Bureau on 4-9-50. He was advised that any information relative to "flying saucers" did not come within the jurisdiction of this Bureau and that he could communicate such information to the Secretary of the Air Force, National Defense Building, The Pentagon, Washington 25, D. C.

For the further information of the Bureau, Mr. [REDACTED]

[REDACTED], was contacted in an effort to locate Mr. [REDACTED] Mr. [REDACTED] described [REDACTED] as being "odd" but would not elaborate on this statement.

It was also ascertained from [REDACTED]

[REDACTED], San Jose, California, through whom [REDACTED] was located, that [REDACTED] was given to weird imaginings. Mr. [REDACTED] stated that he would not exactly describe [REDACTED] as being insane but stated that he was getting along in years and was prone to exaggerate on queer imaginings.

It was the observation of the interviewing agent that Mr. [REDACTED] is abnormal mentally.

June 2, 1950

[REDACTED]

Mr. J. Edgar Hoover, director
Federal Bureau of Investigation
Pennsylvania Avenue at 9th, NW
Washington, D.C.

Dear Mr. Hoover,

I am currently engaged in research for a graduate dissertation which will attempt to analyze the sociological and psychological implications of the flying saucer phenomenon.

In the course of my research I am giving extensive consideration of the several magazine articles and the one book which have already been written on the subject. The book, in particular, and the magazine articles in general, hint at official restraints which have hampered the authors in their research. So far as I know none of those research projects attempted to probe as deeply into the background of the phenomena as I am, yet I have encountered no such "official censorship" as they mention. In fact I have been surprised at the openness with which some people have replied to my queries.

I believe the fact that I have encountered no restrictions is significant when I attempt to analyze my total findings. It raises the question as to whether those previously mentioned authors aren't trying hard to sell something which really isn't there to sell.

Is there any reason why the flying saucer situation should be "played down?" Is there any official attitude toward the matter?

I wish to thank you in advance for your interest and help. You may be assured that I will appreciate any information you may be able to give me.

Sincerely yours,

*ack 6/8-50

fm

On May 24, 1950, this office received from Major MERLE L. MENNIE, Intelligence and Security Officer, New Orleans Port of Embarkation, a report dealing with **[REDACTED]**. A copy of this report is attached to this letter for your information.

b6

The report states that **[REDACTED]** sold for \$1.00 two photographs to one **[REDACTED]**, who in turn gave the photographs to an agent of CID, New Orleans Port of Embarkation. These photographs were of flying saucers and a man from Mars in the custody of two U. S. Army Military Policemen. A copy of one negative and a copy of one positive of these photographs are also enclosed herewith.

SUMMARY OF INFORMATION

At about 1430 hours, 22 May 1950, the attached (See Inclosure 1) "photograph" was turned over to Agent John F. Quinn, CID, New Orleans Port of Detention. The individual who turned this material over to Quinn told him that he had purchased the "photograph" from one [redacted] for the sum of \$1.00. He stated that he thought this material "should be placed in the hands of the Government", as it was supposed to be pictures of "flying saucers" and "a man from Mars in the United States". The "man from Mars" was pictured as being in the custody of two military policemen. (S-2)

The individual turning this material over to Quinn gave his name as [redacted] (S-2)

According to [redacted] he alleged to have served five (5) years in the Federal penitentiary at Leavenworth, Kansas. (S-2)

No interrogation of [redacted] was conducted by Agent Quinn. (S-2)

2 Encl:
2 Photo. (Original & Copy)

COMMENT: A literal translation of the caption under the alleged photographs stated that a special infra-red machine was used to take these photographs because the "flying saucers" were invisible to the human eye. Also, the sound emitted by the two pictured "saucers" was of such high frequency as to be above frequencies audible to the human ear. The caption continues by stating that an accident occurred to one of the "saucers" and the individual shown in custody of United States Military Police in the right hand photograph was a "Mr. X", a member of the crew of one of these "flying saucers". The location of both photographs was stated to be Weisbaden, Germany.

INTELLIGENCE REPORT

(Reference to this report must specify Serial No., Page and Date.)

Serial No. 4-50 at Kodiak, Alaska Date 10 Feb. 1950

From OPIC/AFD (See note 2)
Reference (Specify, conversation, previous report, etc., if applicable)

Source OFFICIAL - U. S. NAVY Evaluation L-2
(Usual, personal character, reliability, etc., for source work - Monthly when applicable, etc.)

Subject Unidentified Phenomena in vicinity of Kodiak Alaska
(Specify nature, etc.) (When used as performed in (S. S. S.)) (Specify character report for each title)

NOTE: (More or less careful scrutiny of report, containing references necessary stated, include important facts, sources, phases, etc., etc.)

SUMMARY: A report of sightings of unidentified airborne objects, by various naval personnel, on 22 and 23 January 1950, in the vicinity of Kodiak, Alaska is contained herein.

NOTES: (1) This information is as of 23 January 1950
(2) IFI makes no provision for reporting phenomena of this nature

- ENCLOSURES:**
- (1) Completed CINCPAC form containing information given by [redacted] USN
 - (2) Completed CINCPAC form containing information given by [redacted] USN and [redacted] USN
 - (3) Sketch of radar interference characteristics experienced by [redacted] USN
 - (4) Completed CINCPAC form containing information given by Lt. [redacted] USN
 - (5) Track chart of aircraft in which Lt. [redacted] USN embarked 23 January 1950
 - (6) Statements of [redacted] USN and [redacted] USN
 - (7) Statement of Lt. [redacted] USN
 - (8) Winds aloft and balloon release data

1. Enclosures (1), (2), and (4) are completed forms suggested by Commander in Chief, Alaskan Command, Fort Richardson, Alaska for the reporting of sighting of unidentified objects. Enclosure (3) is a sketch of radar interference experienced in aircraft piloted by Lt. [redacted] Enclosure (5) is a track chart of aircraft in which Lt. [redacted] was embarked when he sighted unidentified object. Enclosure (6) contains statements by [redacted] USN and [redacted] USN relative to their sighting. Enclosure (7) is a copy of Lt. [redacted] statement and enclosure (8) is a summary of weather and balloon release information.

independent British team, failed to uncover any evidence to support the theory of Soviet missiles. By 1947 the thing had snowballed to such an extent that the Swedish Government finally issued a report identifying most of the incidents with natural phenomena and denying that any foreign power was involved. During this period sightings were reported from the remaining Scandinavian countries and most of Western Europe.

Incidents were first reported over the US in 1947 and are still continuing. Much space in the press has been given to these reports and various semi-official opinions have been quoted. For example, on 18 May, Captain Eddie Rickenbacker was quoted as saying "There must be something to them, for too many reliable persons have made reports on them. I am duty bound not to say what I know about them - or what I don't know about them. However, if they do exist, you can rest assured that they are ours." The USAF for a long time conducted a thorough investigation of each of the hundreds of incidents involved. It found that approximately 15% of the reports could definitely be related to known causes such as meteorological balloons, aircraft, meteors and other common phenomena.

A public statement was issued debunking the entire existence of flying disks or saucers. This did little to cut down the flood of reports.

It only resulted in convincing a large number of people that the National Military Establishment was trying to cover up our own experiments with new weapons.

Many theories have been advanced to explain these reports of aerial phenomena over the US. These include:

1. Space ships from other planets.
2. Soviet guided missiles or aircraft, probably atomic-powered.
3. US experiments with new weapons.
4. Natural phenomena.
5. Mass hysteria, or other psychological causes.

~~CONFIDENTIAL~~

While it is not possible to categorically rule out theory No. 1 it is very easy to do so on reasonable grounds. The existence of any form of life on other planets is extremely tenuous and debatable. The level of technical achievement required to launch piloted or pilotless missiles from one planet to another and return is several orders of magnitude beyond that existing on the earth today and probably would have resulted in some firm contact prior to this, either through deliberate landings or unscheduled crashes. (Even these have been reported in the press - complete with descriptions of men only 18 inches tall! Such reports are sheer fabrication.)

There is absolutely no evidence that the Soviet Union possess either guided missiles or disc shaped aircraft capable of making round trip flights to the US, and the use of atomic energy for the propulsion of any aerial vehicle is still at least several years in the future. Even if the Soviets are that far ahead of us in such a program, there is no reason to expect the airplanes would be other than of conventional design. An atomic power plant, alone, would be sufficiently radical, without also designing a completely new vehicle to carry it.

The US is not experimenting with any new weapon that could reasonably be mistaken or identified as a flying disc or saucer. The US is launching large numbers of meteorological and cosmic ray balloons for experimental purposes and a fair number of the reports can be definitely attributed to sightings of these objects or reflections of other shiny objects such as aircraft.

The continued reporting of aerial phenomena must then be attributed to mass hysteria caused by the present tense in the international situation; the public belief in the ability of science to accomplish miracles; and to statements in the press by "man" individuals hinting at

[REDACTED]

the existence of some new weapon. Such statements, of the type attributed to Eickenbaeker, often solicited in the most sensation form by news reporters in order to make a good story, make people watch the sky and any object they cannot immediately recognize is called a "flying saucer." This helps to maintain the "chain reaction" of such reports.

[REDACTED]

~~CONFIDENTIAL~~
UNIDENTIFIED AERIAL PHEN
(Flying Saucers)

11 May 1954

from 62 cubes

Reports of strange and mysterious objects seen in the sky over most of the countries of the world during the past five years have created quite a stir in the public press. The sighting of such objects has not been confined to the last five years. History records many instances of man's inability to explain what he saw or thought he saw. The prophet Ezekiel in the 6th century BC reported, "a whirl wind came out of the north, a great cloud, and a fire unfolding itself, and a brightness was about it." He then saw "a wheel in the middle of a wheel" and reported "when they went, they went up on their four sides and they turned not when they went". (Ezekiel 1:16)

In the past, these phenomena have usually been attributed to supernatural causes, and in more recent years to natural phenomena. However, the introduction of the atomic bomb and guided missiles in World War II has so caught the public imagination with their potentialities, actual and fanciful, that we now find the phenomena variously attributed to space ships from other planets and US or Soviet experiments with new and wonderful weapons.

The present flurry of flying saucers, ghost rockets, etc., began in mid-1946 in Sweden. Hundreds of people reported seeing strange objects flying over the country. Newspapers speculated that they were Soviet guided missiles being tested over the Baltic Sea, either from the former German experimental station at Peenemunde, or from Dago Island off the Estonian Coast. The fact that an experimental V-2 fired by the Germans from Peenemunde had landed in Sweden in 1944 lent credence to this speculation. The Swedish defence staff made an investigation and may have deliberately allowed the public to believe this theory for some time for political reasons. Careful investigation by the US SA and by an

CONFIDENTIAL

DIC/177D No. 4-50

10 February 1950

Subj: Unidentified Phenomena

2. A summary of the information contained in enclosure (1) through (6) follows:

a. At 2202Z January LT [redacted] USN, patrol plane commander of P2V3 No. 4 of Patrol Squadron One reported an unidentified radar contact 20 miles north of the Naval Air Station, Kodiak, Alaska. When this contact was first made, LT [redacted] was flying the Kodiak Security Patrol. At 0215Z, 5 minutes later a radar contact was made on an object 10 miles southeast of NAS Kodiak. Lt. [redacted] checked with the control tower to determine known traffic in the area, and was informed that there was none. During this period the radar operator, [redacted] ALC, USN reported intermittent radar interference of a type he had never before experienced. (See enclosure (3)). Contact was lost at this time, but intermittent interference continued.

b. At some time between 0200 and 0300Z, [redacted] TFC, USN was standing watch on board the USS TILLAMOOK (ATA 192), which was anchored in the vicinity of buoy 19 in the main ship channel. [redacted] reported sighting a "very fast moving red glow light, which appeared to be of exhaust nature, seemed to come from the southeast, moved clockwise in a large circle in the direction of, and around Kodiak and returned out in a generally southeast direction." [redacted] called [redacted] T1, USN, also on watch, to observe this object, and they both witnessed the return flight. The object was in sight for an estimated 30 seconds. No color or sound was detected, and the object was described to have the appearance of a ball of fire about one foot in diameter.

c. At 2204Z, conducting routine Kodiak security patrol, Lt [redacted] reported a visual sighting of an unidentified airborne object at a radar range of 5 miles, on the starboard bow. This object showed indications of great speed on the radar scope. (The trailing edge of the blip gave a tail like indication.) At this time Lt [redacted] called the attention of all crew members to the object. An estimated ten seconds later, the object was directly overhead, indicating a speed of about 1600 MPH. [redacted] climbed to intercept, and attempted to circle to keep the object in sight. He was unable to do this, as the object was too highly maneuverable. Subsequently the object appeared to be opening the range, and [redacted] attempted to close the range. The object was observed to open out somewhat, then to turn to the left and come up on Smith's quarter. [redacted] considered this to be a highly threatening gesture, and turned out all lights in the aircraft. Four minutes later the object disappeared from view in a southeasterly direction.

d. At 0243Z, the day following Lt Smith's sighting, Lt [redacted] and Lt [redacted] of Patrol Squadron One were conducting the Kodiak Security Patrol, and sighted an unidentified object. At the time of the sighting the aircraft in which these officers were embarked was approximately 52 miles south of NAS Kodiak. The object appeared to be on an ascending westerly course, and was in sight for ten minutes. During this period the object was observed by Lieutenants Causser and Sisco, and P-2V3C, T1, plane captain. At no time was radar contact made on the object. Lt Causser was unable to close the object at 170 knots.

CONFIDENTIAL

CONFIDENTIAL

DD FORM Serial No. 1-50

19 February 1950

Subject: Unidentified Phenomena

(e) The objects sighted have been described as follows:

(1) To Lt. [redacted] and crew it appeared as two orange lights rotating about a common center, "like two jet aircraft making slow rolls in tight formation". It had a wide speed range.

(2) To [redacted] T-3, and Sawyer, T-12 it appeared as a reddish orange ball of fire about one foot in diameter, travelling at a high rate of speed.

(3) To Lt. [redacted], Lt. [redacted] and [redacted] AD1, it appeared to be a pulsating orange yellow projectile shaped flame, with regular period of pulsation on 3 to 5 seconds, off 3 to 5 seconds. Later, as the object increased the range the pulsations appeared to increase to on 7 to 8 seconds and off 7 to 8 seconds.

A check with the Navy Weather Central, Kodiak, Alaska revealed that balloons were released at the following times:

22 January - 0445 and 2000Z (approximately)
23 January - 0400Z (approximately)

On 23 January winds aloft at 1000 feet were reported at 0400Z as from 310° T at 35 knots, and at 2000 feet from 240° T at 37 knots, while the object was reported to be on an ascending - westerly course.

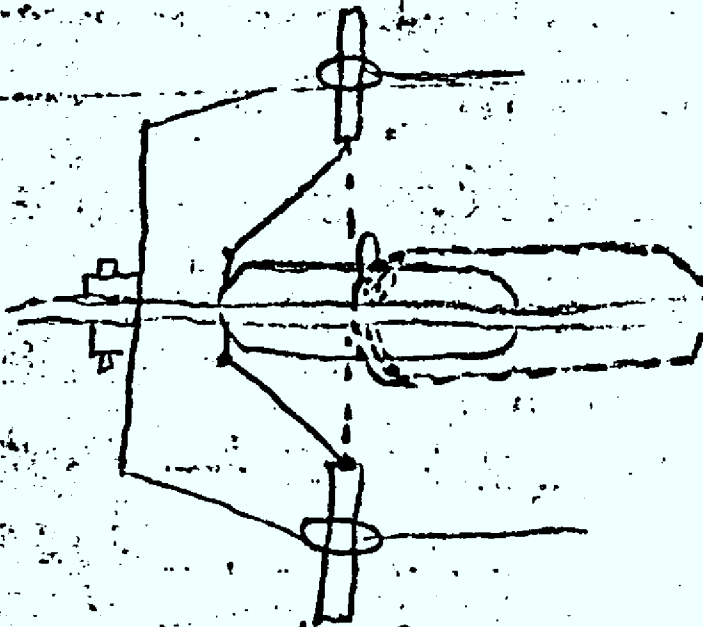

CONCLUSION: In view of the fact that no weather balloons were known to have been released within a reasonable time before the sightings, it appears that the object or objects were not balloons. If not balloons the objects must be regarded as phenomena (possibly meteorites), the exact nature of which could not be determined by this office.

CONFIDENTIAL

Attached I really do not know our Engineers can
type that out so I am sending a set of drawings
free hand and these are in detail just exactly like
the Russian drawings - so these look a lot better
than those I mailed out Sat. and Ubaldey said
after I studied them for quite a spell - that he
was trusting me - and should I open my mouth
or tell any one of the mechanics I saw in them
sources I would be taken care of - an damn fact - so
that's that. When you get these drawings go to the military
officials and don't get me in dutch I know you will not
or my life is the price I would pay - sooner or later
the commie agents figured I had give this away and
to not have any F.B.I. men tagging me that would look
suspicious to the commie agents. I am taking a hell of
a chance and I want some more information get from them
and I will pass it along to you as fast as I get it

where the jets are fixed in I or set not from it out so will
same that to you the drawings I sent in sat. with the jet
are O.K. That is the jet. - but some of the centrifugal power
mechanism is wrong in design. ~~██████████~~ had two or three sets
of drawings and this copy I am sending you are plain and I
think better drawings.

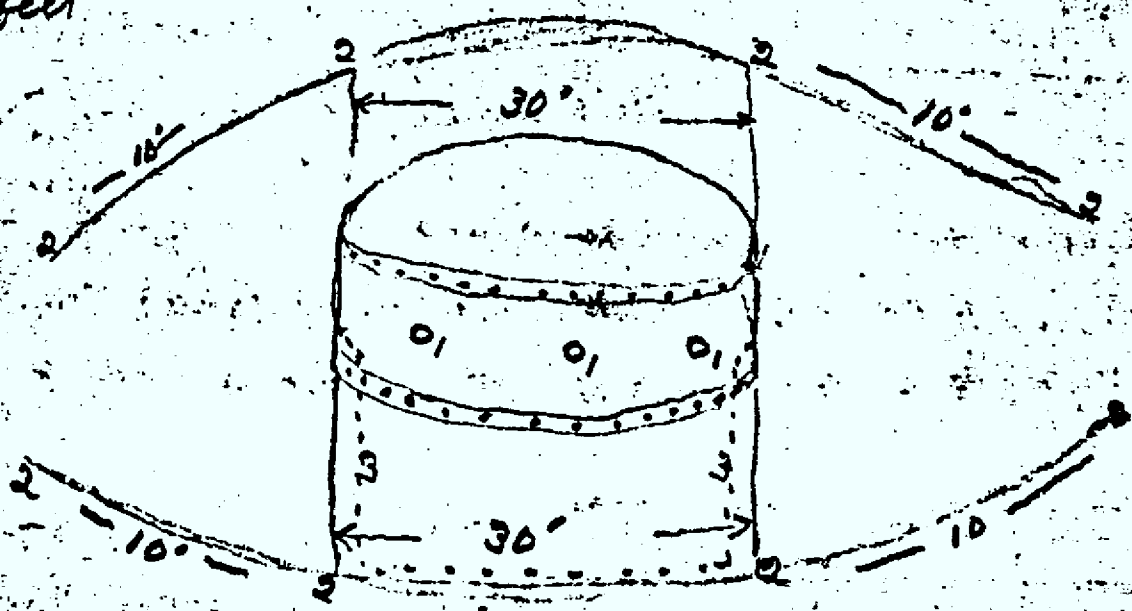

In drawing #2 where turnbuckles are
shown on cables - they are shortened or lengthened to suit - like
this as the weights fly or pull outward - the weights must pull the
cable straight out or up and down - see no bend in the line
holding the weight to a line must be straight when engines are in
motion and up to speed allowing every thing else is in proportion O.K.

drawing 3.

the drawings of the saw & put together like this. straight piece circular between top and bottom of saucer - filled with ball bearings in a groove top and bottom the center piece can turn top or bottom does not turn - top and bottom obey the rudders up and down rudders and the sideways rudders.

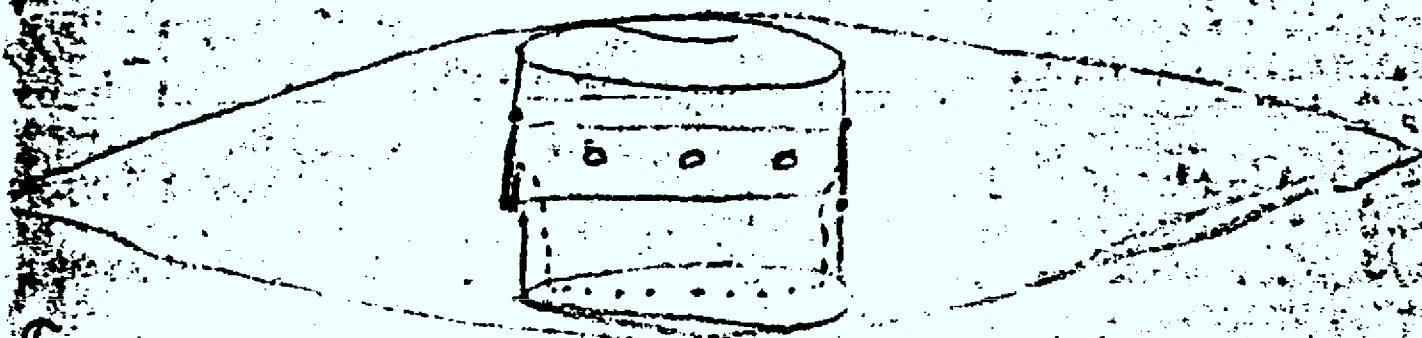

1. 1. is for the jets to fire out side. from point 2 to point 2 on 30 foot diameter saucer is 10 feet making an overall diameter 50 feet

drawing 4.

of course it does not look like this drawing for curves and it - you know what I mean. all the floor in the saucer is fastened to the center piece as dotted line shows at 3. 3. guess that is so saucer can be maneuvered or something my wife or son - or son in law - or daughter know nothing about this - and do not tell them - or there would be hell to pay. I think the drawings are plain enough this time.

3 I do not believe it is "horse feathers" so much as I did
in the drawings sent you sat. Ubaltsky said on the snow
with runners on this saucer like a sled centrifugal force will
all keep at a hell of a speed. The jets are used on take off
there is wheels on the saucer there are 3 wheels they are pulled
up into places in the saucer from the inside and some how or
ther a piece covers the spot on the outside the drawing shows
that but I cannot figure out how it's done from the inside of
the saucer. Now I believe this is all the dope I can give you
on them. Ubaltsky said the big saucers are oblong fore and aft
not round in the middle - just as the round saucers are
something little this. you know what I mean only I cannot
draw it.

I will mail this from Utah Monday 10th 1950 and
trust you will put this into the right hands

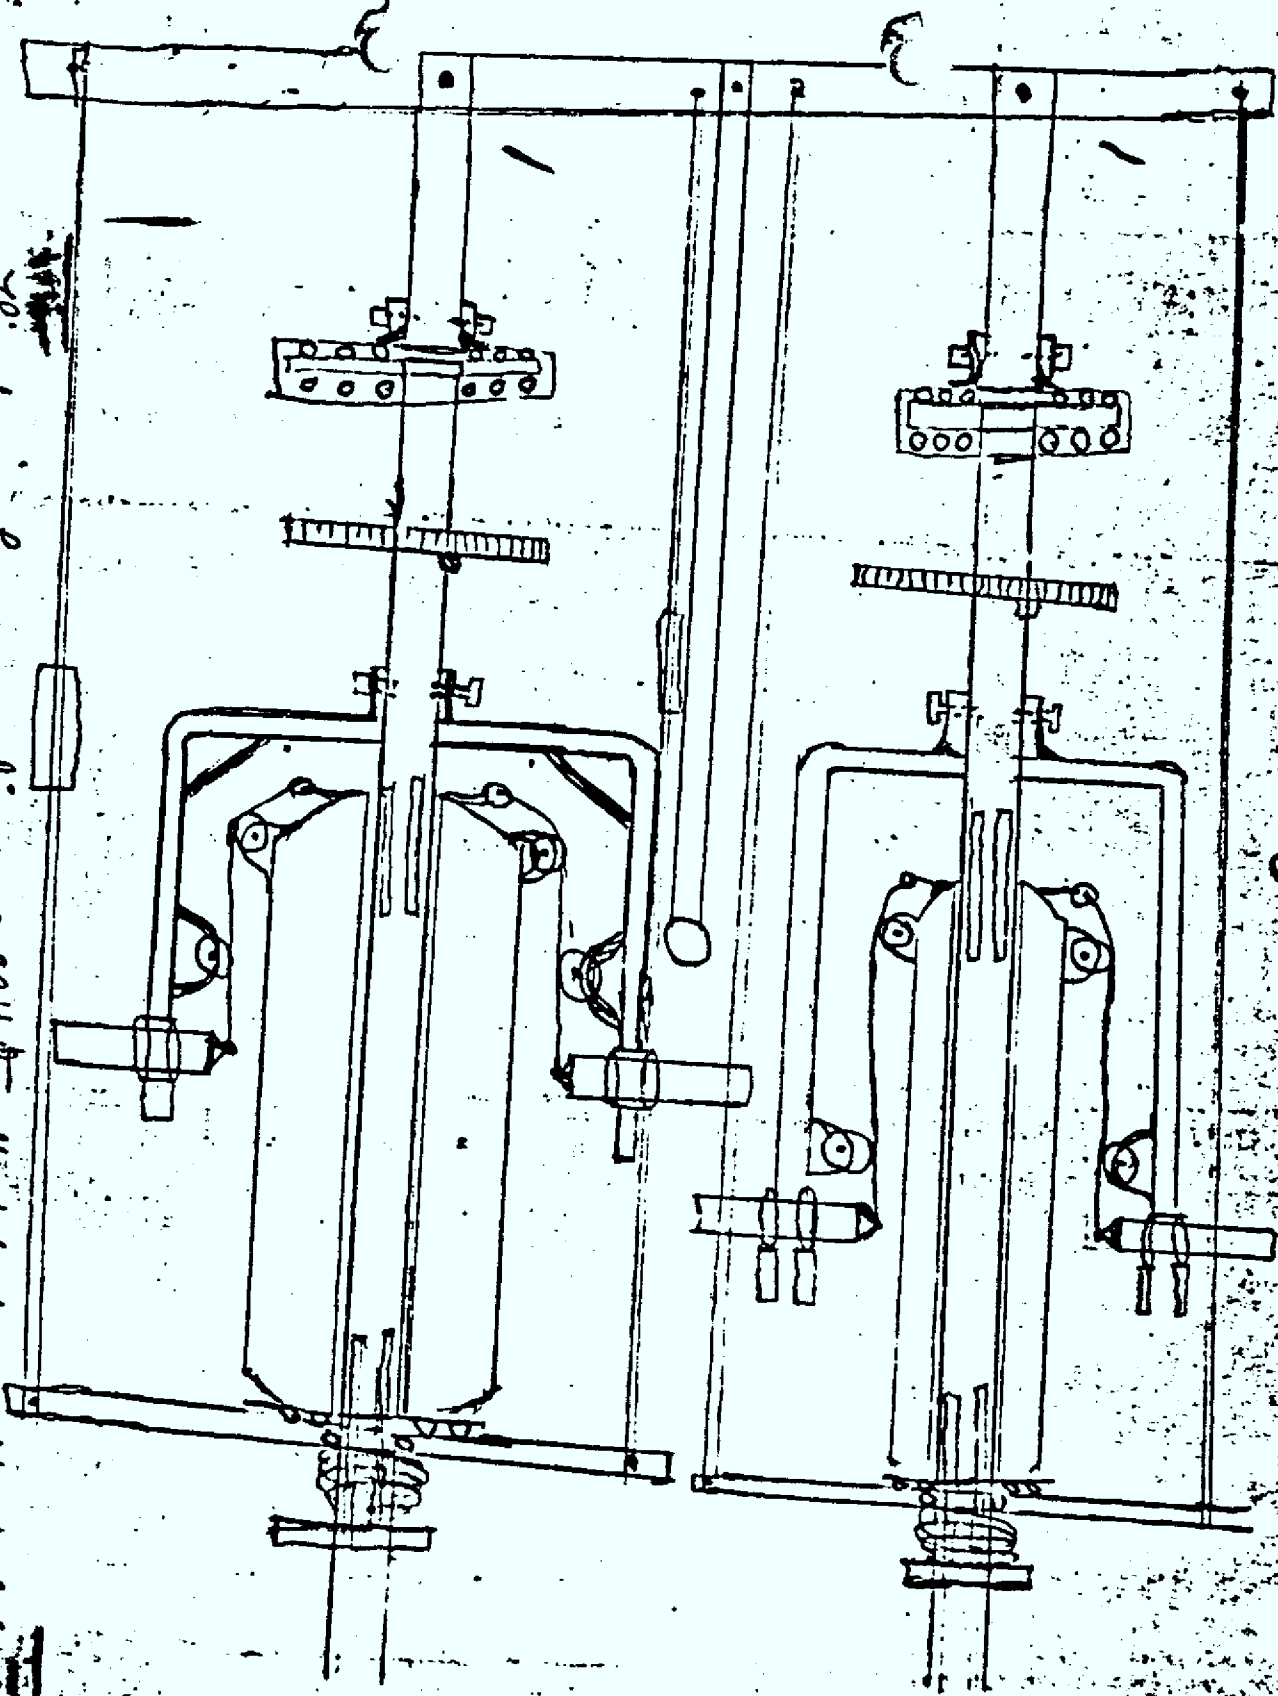

Yours Truly

Yuba City Calif

P. S.

I think I can get some information on the Russian submarine and what makes them go so deep down. ~~They~~ says he is sure we ~~may~~ cannot locate them as they got dummies they put out some how - in the water and can fool anyone with the dummies. He said they were making a long range rocket and building this engine it but that the saucer goes as fast as the rocket will. I was going to patent this engine even if I did get it from Ubalsty - I placed myself in great danger to get it - and am in danger yet if anyone gives me away. But give it to the U.S.A. quick and the U.S.A. can give me something for my efforts, I do not think the U.S.A. will turn me down - do you? and maybe I will ask a favor of the F. B. I. - who knows.

Drawing #1

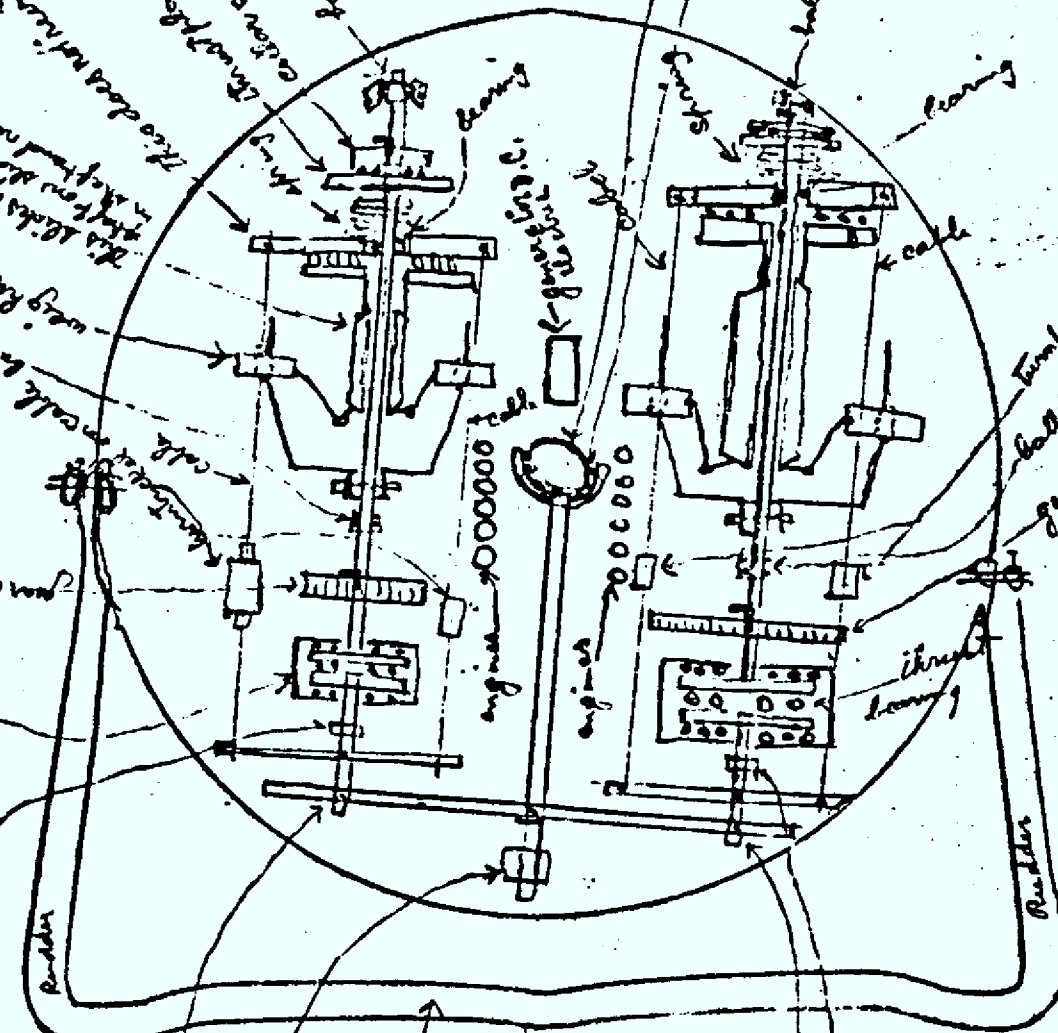

This drawing has no separations and set them off at 1/4" so as it will look plain.
The separations are absent in drawing and

just a rest bearing for shaft the shaft does not turn in this bearing - just slides a little.

This looks up and down in the shaft from the shaft in the shaft and it looks up and down in the shaft from the shaft in the shaft.

Also does not turn in this bearing - just slides a little.

Flying Saucers
Gentlemen:-

Niagara sq. Buffalo, N. Y.

Here is a sketch of a "flying saucer," as was
Hermann Ubalstky

given to me by [redacted] a free hand drawing

of me after going over Ubalstky's drawings I was very
interested in same as to what made it "Tick" and I will
give you the sketches by me as I have a pretty good
memory on what I see.

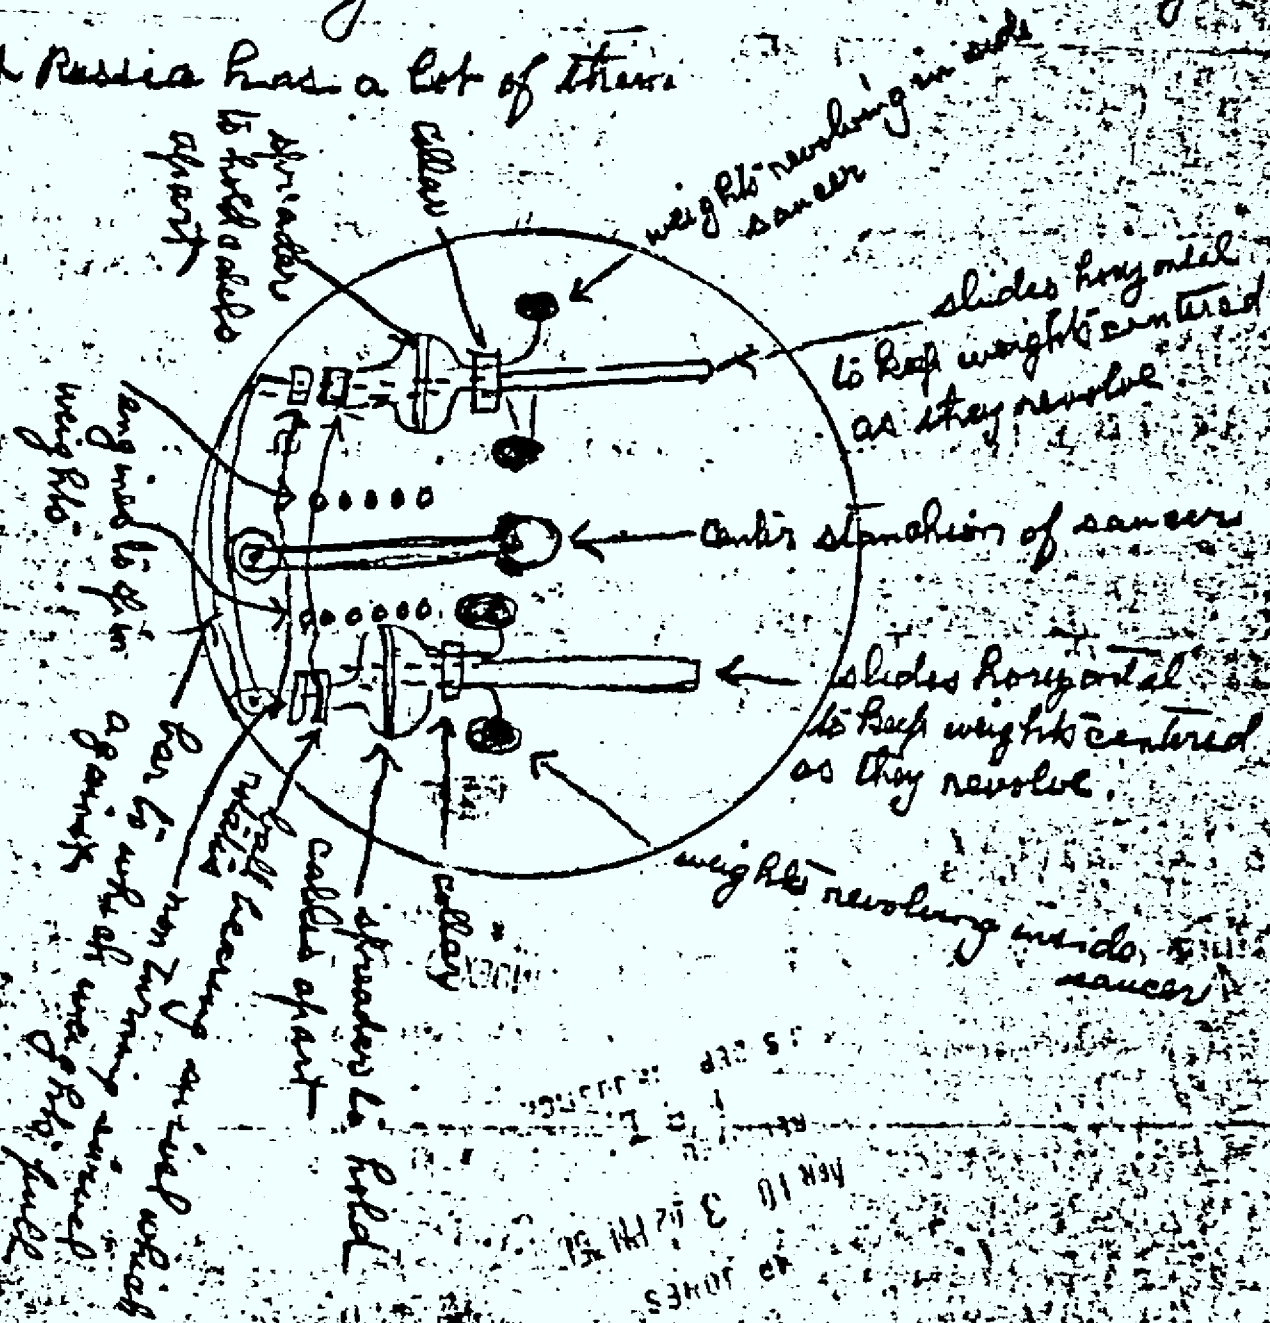

[redacted] said these "saucers" can
travel tremendous speeds and says when one is launched
near Leningrad it is but 3 hrs if not in to much of a hurry
to New York, Washington, Boston, Albany and a lot of other
cities on the Atlantic coast

RECORDED
INDEXED - 25162-43494-226
APR 22 1950

I am at Redwood Valley, Ca. now in
California on Highway 9 mi north of Ukiah. Will go back
to Yuba City and Marysville and Stockton next week after
asked Ubalstky to understand these "saucers" do not need much

me
ack. 4-14-50 rcc

power to run them and Ubaltsky says they can go over
 5,000 mi per hr. and go as high as two hundred thousand
 feet and more. We'll give these sketches to our army
 chiefs of staff and they can soon tell what is what
 about I think Ubaltsky lied some but it looks kinda good
 and that Russia has a lot of these

APR 10 3 42 PM '51
 NO JONES

5/10
 give

this uses centrifugal force and is all connected
weights that revolve at right angles to the pull on
the saucer. I presume engines are synchronized as to
speed the wt of the revolving balls gives the pull to
pull "saucer" and the whole mechanism is inside of
the "saucer" there are a bottom and top saucers

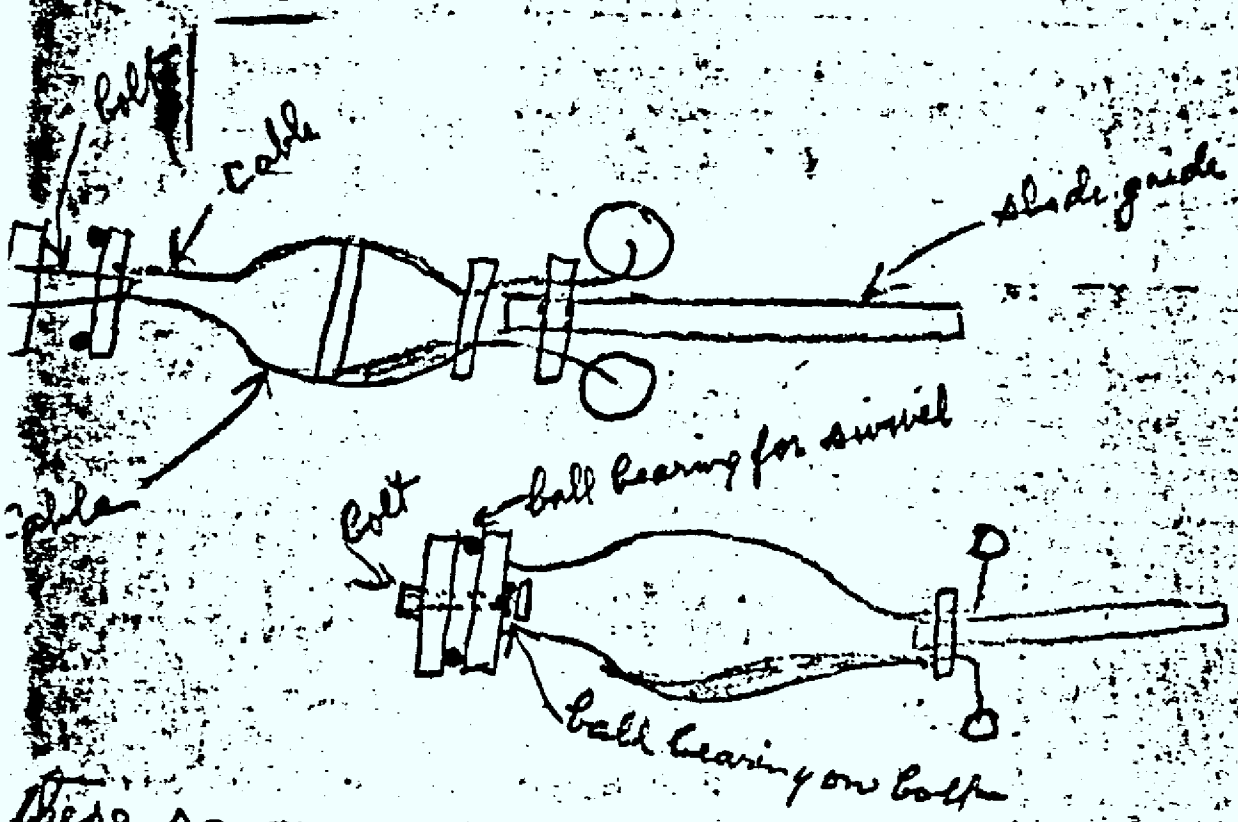

He said there is an up and down rudder
and a sideways rudder but very small and they are
handeled by electronic gadgets at high speed.

The saucers are made of magnesium
and reinforced for strength they look something like this
the saucers it looks are air tight.

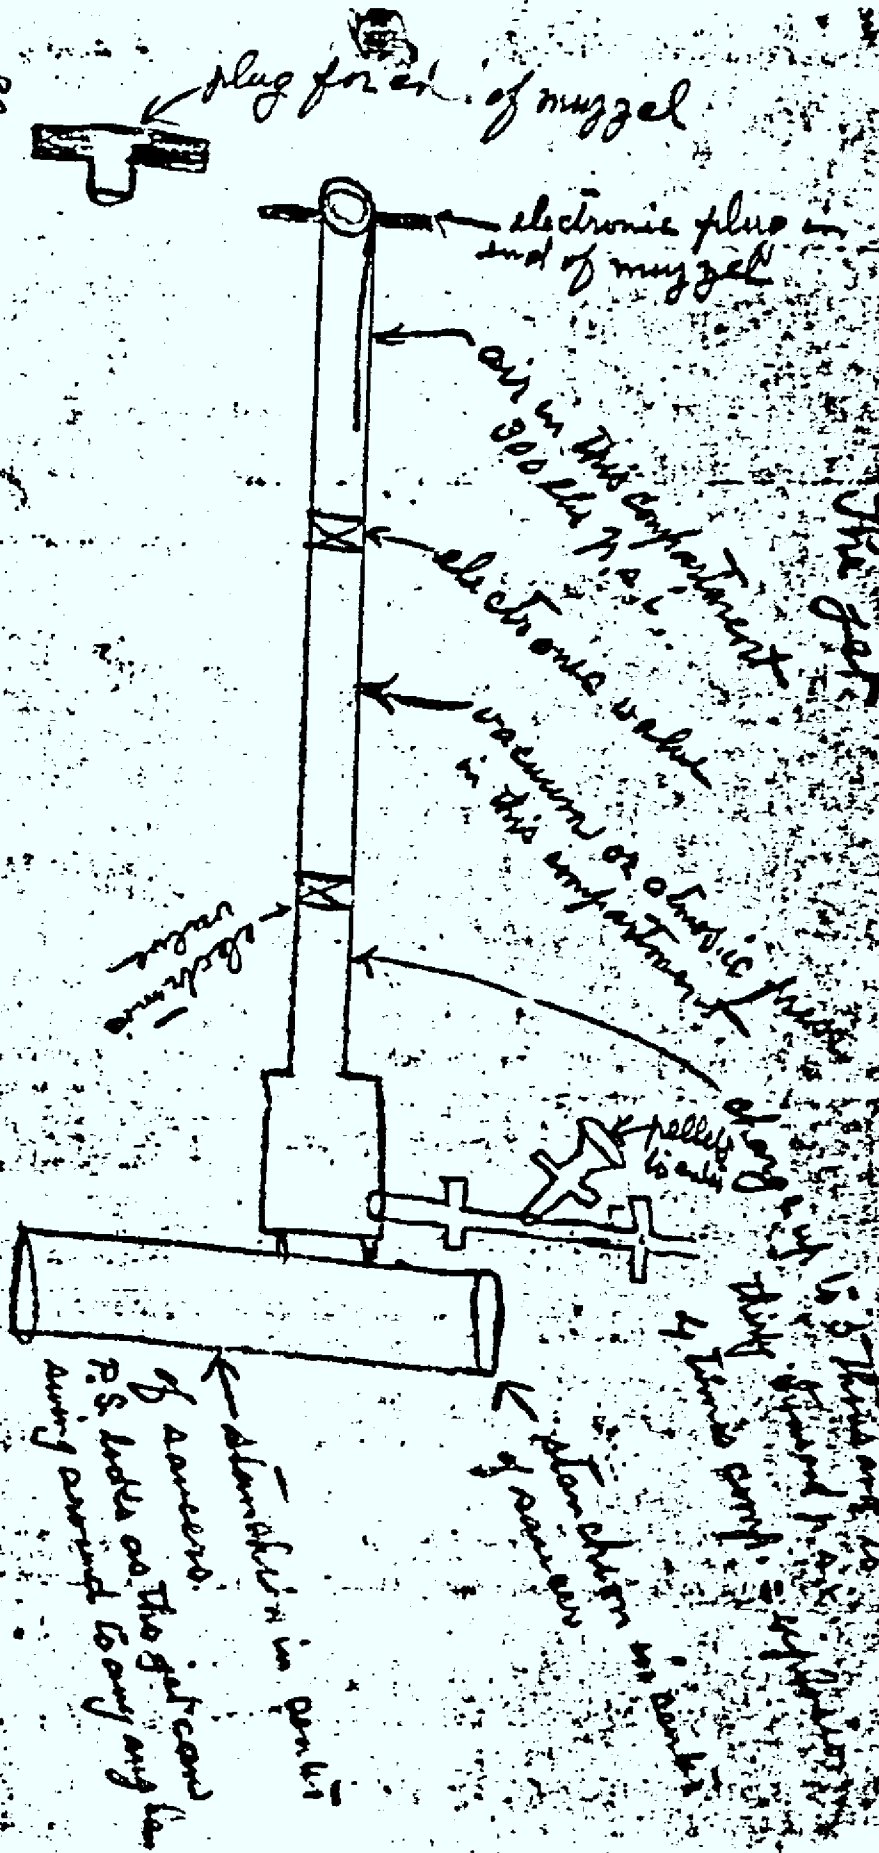

these drawings are not much - but there is not much
to them as I cannot give dimensions our tech
will have to figure that out as I am damn hard
to find this out and be all together.

7. The saucers are launched by a cat, ult.

These saucers are 30 feet and more in dia and not very heavy Ubalstky says. The plane division of our army can soon figure this out I cannot as it is out of my line but I saw the mechanics of it I did not see any propellor on it in the drawings I saw by use a jet on it to so Ubalstky says.

They use pellets in a case in the jet and it fires like a cannon and the recoil sends the saucer very fast

This jet is loaded with capsules by air dies traps and the capsule containing

the gasolene is put into a pressure of say 10,000 lbs p.s.i. the capsule is

rotated and out comes the gasolene in that high press. of air is something else

like place of air low elasticity set it off the capsule falls between the ends of the

chamber every time the charge leaving by the opening of the electronic valve goes the

vacuum expands and hits the air press. chamber the air in chamber is the capsule

that the right slip out; the elect nozzle plug controlled by electronics is found

and the next section is 10 times as fast as the air

3 ~~_____~~ says at high alti tudes the jet will speed
up to - well he don't know but it is a terrific speed
he said he thought 10 thousand mi. per. hr.

Now this does not look like a lot of horse feathers
so I am putting it into your hands as if it is a trap
for me its only you can get me in ditch and I know
you won't do that - but get it into our army chiefs hand
or I do not know if this will fly or not - but on the
other hand it may be all O.K. so what.

~~_____~~ is 5 feet 8 tall wt. 175 square faced quite
large mouth gold teeth left side upper light hair sort of red chattering
arms all around stout square hands short fat fingers
and talks good english - blue eyes. has friends in Buffalo
Iowa, is a Russian Pole and was in world two, in Europe.

He has gone to Netchican he knows some folks
there he said he got off a submarine and gave a fishermen
a sum of money to get him ashore near Eureka and he said
he was drifting inshore in a drift boat made of rubber when
picked up - he said there was nothing to it getting ashore.

When you give this to the Army Chiefs keep
my name out of it - I want to get a lot more information to give
you.

I guess this is all for now - and I'll write you again
as soon as I learn anything worth while

Yours Truly

P.S.

I have been in contact with the Buffalo Office
and they can tell you more - so I decided to
send this direct to you to the head office
in case the office with Buffalo on this letter as
deem it important enough to go direct to you
if you will me do not forget to use perfectly plain
envelope - no markings on it - just in case

I am putting this in your hands because I
do not know who is a Comanie in Washington and who is not
I leave that to you and I know you will not give me
away

I am nervous over this and if this bring the dope he gave me - well if it ever got out I am a dead duck sure as hell out the U. S. A. first and myself well I don't amount to much my house [redacted] said another party will contact me if he don't in due time not any particular date. He said Russia is very well prepared for war and will make damn short work of Europe and England, Spain, France & India, Japan & Philippines, and he said it will be soon and when Russia starts it will make Hitler's life look like a lot of school kids he says he thinks Russia has 350 Atomic Bombs. If you want any plainer drawings of them saucers - yes I can draw plainer lines of course but the Air Tech. engineers will dope it out - you see I am no good on electronic gadgets as required on this saucer but that is a good description of the drawings I saw.

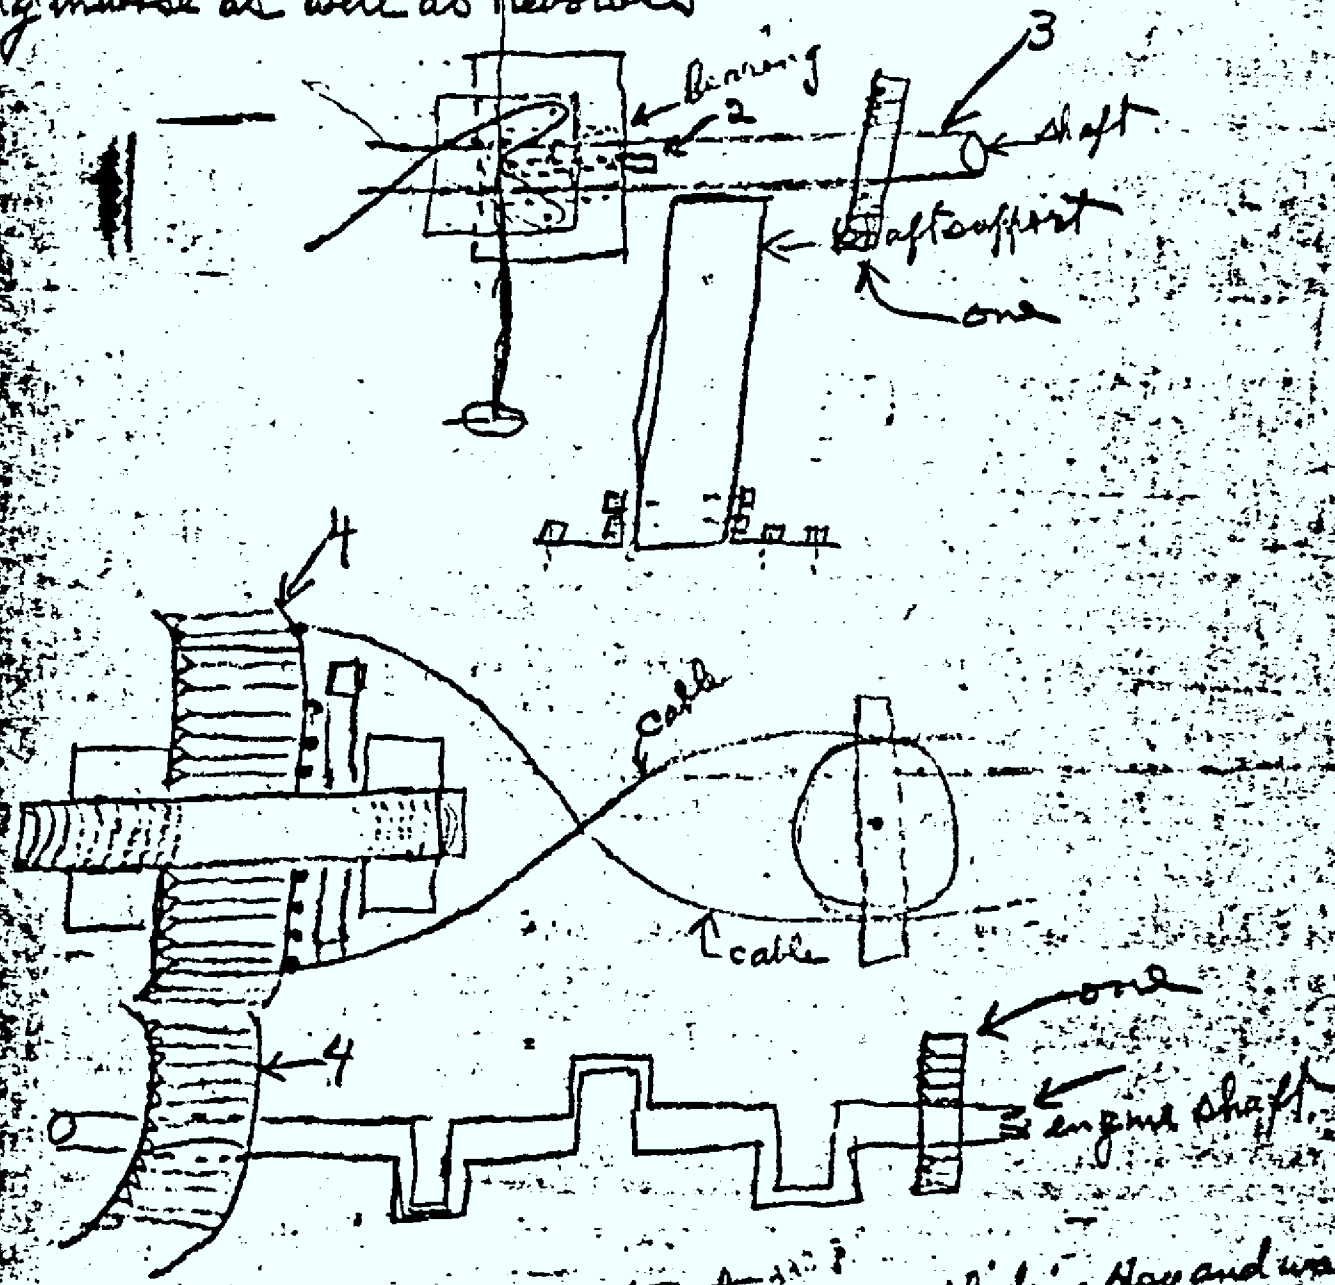

In case you write to me put some plain envelope and address it to me at [redacted] Yuba City, Calif. The jet I pictured is just the same as was on the drawings Hbalstky had. I would like to hear about this as this will give me an idea if this Hbalstky is trying to give me horse feathers - I think tho it is not any baloney - but maybe it is.

this shows lace of cable to weights and sheaves. there are two of these set ups. one on each side this shows detail of one the other one is left out it would be at 3 the next sketch will show what makes it revolve that swivel plate is a cog wheel at 4. The sheave plate at 5 is made of two plates and a bearing is between the two plates so it can move (over)

date 4-11-50 ngs

up and down a mil as the weights revolve. the bearing moves lengthwise as well as revolves

one and one cog wheels mate there is a sliding way and way shaft at 2 and the cog wheel one on engine shaft turns shaft 3 causing the weights to revolve. the cog wheels 4 & 5 give equal plate 4 & 4 and shaft 3 run even, i.e. both the same R.P.M. This is the mechanism of the thing as near as I can remember it from the drawings.

I do not know how the new ideas go on the said they were manual control, hydraulic control, and electronic control as they pulled hard at high speed.

The jet is fed by pellets carefully reported to the charge in the jet chamber and are fed out fast by gadgets operated by electronics so as they go out and accurate. I gave the idea that is all I cannot draw the gadgets as I do not know how. But I saw in the drawings electric control on them.

He says they can light on a pond and take off on a pond on even flat land he said they can light and take off if they have to but it's damn rough going.

I wonder if that's "horse feathers".

well that is all I know about it the rest you will have to dope out. I have looked my copies over after I left him and while the drawings were fresh in my head I can see nothing further to try and tell you about.

In case you do not know I am the fellow who reported to the Buffalo office when I lived at [redacted] in Buffalo. I am working on an engine that goes by the cosmic ray. The Russians want to get this - rest assured they need will as they make contact with me and see what I got to say about this engine. You likely know about it if you inquire.

Office Memorandum • UNIT UNITED STATES GOVERNMENT

TO : Director, FBI

DATE: 4/18/50

FROM : SAC, Phoenix

SUBJECT: INFORMATION CONCERNING FLYING DISCS

Rebulet 6/30/49.
62-83894-183

On 4/17/50 Mr. [redacted] advised he had been contacted by True Magazine and would like to secure the photographs which he had made available to the Air Force Intelligence.

He was referred to OSI, Fourth Air Force Base, San Francisco, California, since the photographs desired were made available by him to a representative of A-2 of the Fourth Air Force on 8/30/47.
