By memorandum dated February 7, 1953, Assistant to the Director L. B. I told Surine we would do this and to avoid making inquiry in each instance, I inquired whether we could assume that this applied to anything else he might furnish us unless he specifically put a restriction on it. He stated that we could so assume and if there was anything they did not want known came from them, they would so advise us. However, Surine did state with reference to the dissemination of such letters to other Government agencies, that we not show the Senator's Office as the source but carry the source as "of unknown reliability." Surine further stated that we should use good judgment in all the letters. For example, if a writer asked the Senator to keep confidential the source of the information, we, likewise, should keep confidential the source of information and should it be necessary to interview the original complainant, we should not divulge that Senator Mc Carthy's Office has furnished us the information."

Senator Joseph McCarthy (N. Wisconsin) Senate Building Washington, D. C.

Dear Senator McCarthy:

Jointly with your investigation of Communists in our overment, and the election results, I wish to call your attention to our case with the atomic Preparation.

Regardless of what you will decide to do with this information permit to say, that this case will tie in with some of the very "higher-was" in the poweriment for one world, which will try again and again to get the ". 3., the only howard against Communism, out of the way.

The facts in brief are as follows: our commany has learned of the aveilability of a large number of good uranium properties and mines, some of these wines lived have been successfully worked, and some examined by the A. E. C. stiff sectorist through our courtesy and found promising.

For the last two years we have been unsuccessfully plending with the to permit the development of these properties, and asking their assistance for tess developments unsuccessfully. Instead of helping us Americans, which the a. E. and not only refused to do but has done practically everything to stop us, the a. ... went, so far as to deny recognition of the rightful owners of those properties. We delivered certified documents, confirmed by the American Embassy, proving owners in and mining rights, with no avail. The A. E. C. restricted the findings of the imerican staff geologist to be used to raise capital through private preventions have no right to enter the uranium field. However, at the same time the A. E. C. has granted millions of U. S. taxpayers dollars for development, in the case places where we were refused, for an independent English corporation, which is in reality a Cyprus corporation controlled by a few foreign individuals.

The As E. C. states that we need all the urantum that we can buy but for an unexplained secret political reason draws a curtain good uranium producing countries

American Smelting and Refining Co., and a number of private companies were all interested to develop these properties on some of which the German government previously spent tremendous amount of money for development, only to be stopped irrediately upon contacting the A. E. C. for confirmation.

that you realise that the control of the world want m supply is as important to our mations and interest that the control of the world want m supply is as important to our mations are interest.

Sincerely yours

I wish to advice that I have specifically raised this problem with Don Surine of Senator McCarthy's Office.

"Surine states that we are authorized to use this material any way we see fit and to say that the material had been referred to the Bureau by Senator McCarthy to disseminate and to conduct any investigation that is suggested by the facts. I told Surine we we would do this and to avoid making inquiry in each instance, I inquired whether we could assume that this applied to anything else he might furnish us unless he specifically put a restriction on it. He stated that we could so assume and if there was anything they did not want known came from them, they would so advise us. However, Surine did state with reference to the dissemination of such letters to other Government agencies, that we not show the Senator's Office as the source but carry the source as "of unknown reliability." Surine * further stated that we should use good judgment in all the letters. For example, if a writer asked the Senator to keep confidential the Sa source of the information, we, likewise, should keep confidential the source of the information and should it be necessary to interview the original complainant, we should not divulge that Senator McCarthy's Noffice has furnished us the information."

EARL' GODWIN'S BROADCAST JULY 24, 1953

PURPOSE

To report reference to the bureau made by Godwin during his 6:15 P.M. broadcast on July 24,1953.

BACKGROUND:

Godwin, during his commentary, mentioned that there was a statement in the Periscope Section of the current issue of Newsweek magazine which claims that confidential FBI files kept turing up in the hands of Senator McCarthy and that the White House was concerned.

Godwin commented that it sounded like somebody was trying to stir up a fuss and noted that Periscope's score on the FBI was fantastically off in the past and they were way off this time. He then commented that John Edgar Hoover wouldn't turn over confidential FBI files to the founding fathers of our republic except on higher authority and "even then I think he would fuss a bit."

RECOMMENDATION:

Mone. This is for your information.

Wilson states that McCarthy's Dride, the former Jean Fraser Kerr, probably had her first influence with the Senator when site was able to "clean ... up a bit" the "barnyard language" he used in "earthy" discussions about cows on the Senate floor.

During their on-off romance, Wilson continues, the then Miss Kerr twent back to script writing and program arranging, helping to launch a recorded television series called Facts Forum. The program was backed by H. L. Hunt, Dallas oil operator, sometimes called the richest man in America. Mc-Carthy was the first guest star on the program. Some say Hunt will eventually back him in a series of reports to the Nation on his activities .

Some of McCarthy's many other Texas associates are noted

in the article:

"... He recently stayed at the home of Douglas Marshall, sonin-law of H. R. Cullen, the oil multimillionaire, who has a keen interest in McCarthy. \$5000 to 1952 Campaign

"Cullen contributed \$5000, the legal limit, to Joe's campaign for reelection in 1952. Joe was successful but ran well behind President Eisenhower's Wisconsin vote. Cullen put up \$48,000, in addition, to "help other can-didates for Congress in 1952."

Another oil man listed among Another oil man listed among McCarthy's "backers and associates" is "Clint Murchison, who owns Henry Holt & Co., book publishers in New York. Like Joe's other big Texas friend, Hunt, Murchison is interested in influencing public applicant.

"Austin Hancock, former San Antonio insurance executive, is a friend of McCarthy. Hancock heads an organization called the American Heritage Protective Association. He has said that he hopes to help get the Republican presidential nomination for McCarthy.

"Some of McCarthy's volunteer helpers have been very influential in his career. One of them is a former FBI agent, Robert E. Lee, recently ap-pointed by President Eisenhower to the Federal Communications Commission . . . Lee left the FBI, where he was one of J. Edgar Hoover's brightest young men, for a position as one

of the chief staff members of the House Committee on Appropriations . . .

Wilson notes that a list of suspected subversives in the State Department was compiled by that committee, and that Mc-Carthy's Red "case studies" which plunged him into the Nation's headlines in 1950, "were all on the list Lee compiled for the Republican Congress in 1947."

"Lee and his wife," the article continues, "are close personal friends of the Senator and Jeannie, often teaming up on parties with the Edward K. Nellors. Nellor is a former reporter for the New York Sun, who worked for several years as an investigator and reporter for Fulton Lewis. He still writes Lewis' syndicated column in the Hearst newspapers, but is also independently employed as a Washington correspondent by the North American Newspaper Alliance. He became an unofficial, volunteer adviser to McCarthy on the fairly sound journalistic assumption that he could thus keep abreast of what McCarthy was doing .

"Joe's relations with his fellow men in the United States Senate are strained and probably always will be. Vice President Nixon, a friend, but no boon companion, has taken on the difficult assignment of adjusting McCarthy and the Eisenhower Administration to each other.

. . . Sen. William E. Jenner. . chafes over Joe's invasion of what Jenner considers his own hunting preserves as chairman of the Senate (sub) Committee on Internal Security . . .

Wisconsin supporters of Mc-Carthy named in the article include Walter Harnischfeger, president of the Harnischieger, president of the Harnischieger Corp., Tom Korb, counsel for that firm, and Wayne Hood, former State chairman in Wisconsin. "McCarthy's Wisconsin newspaper backers include Laba Heidl managing editor of John Heidl, managing editor of the Appleton Post-Crescent and a boyhood friend; John Wyngaard of Madison, columnist for a dozen Republican papers; Rex Karney, editorial writer for the Wisconsin State Journal.

"The McCarthy of today," the article states, "is a far cry from the one-man operator who drew these scores of people into his orbit. He is now an entity, complete with a staff of 50. He has money, powerful backing and impressive public support. Unconfirmed rumors in Washington credit him with a private, secret staff financed by contri-buters, but this is denied.

Wisconsin Professor Assails McCarthy's'WarpedTheories'

FREDERICK, Md., June 18 .-A Wisconsin professor believes Senator McCarthy has "risen to power by making an idolatrous fathers." religion out of what he considers to be patriotism."

The Rev. Dr. Chad Walsh of Beloit College (Wis.) harled the charge here yesterday as he addressed some 400 delegates at a conference of the Washington province of the Episcopal church.

"The forces of history would have created an equivalent demagogue with a different name" if Senator McCarthy hadn't come along, the speaker said.

He said it was "inevitable in this age of jitters that the political Neanderthal should arise."

Says Tactics Ald Reds.

"If Senator McCarthy were a Russian agent planted in this country to spread disunity and suspicion and prepare the way for a Communist coup d'état, he could not be doing a more effective job," said Dr. Walsh.

He termed McCarthyism "200 per cent Americanism" and said it is a force which "acts as though the end justifies the means; anthough anything goes Carthy could not be reached for . . . so long as you can strike comment.

a blow at some one or some thing that is possibly red or reddish . . . it does not tally well with anything said by the founding

Dr. Walsh said "200 per cent Americanism creates an atmosphere of mob justice . . . spreads suspicion between neighbor and neighbor . . encourages the craven timidity of a Casper Milquetoast . . . brands the slightest disagreement with it as virtually equivalent to treason."

Nation Is An Idol.

The Wisconsin educator declared that "200 per cent Americanism perverts so good and wholesome a thing as patriotism into idolatrous worship of the state. When one's nation becomes an absolute to which all moral values and individual rights must be subordinated. then that nation is an idol, a fiery Moloch demanding human sacrifices for its maw."

He added: "The Neanderthal

believes in human sacrifice."

The theme of his remarks was "The Christ and His Modern Rivals."
