PURPOSE:

To inform you of an article appearing in "The Washington Post" dated February 13, 1950, regarding statements made by Senator Joseph McCarthy (R), Wisconsin, during a Lincoln Day talk at a dinner of Nevada Republicans, wherein he identified four individuals as "people with Communist connections."

BACKGROUND:

This article, carried by the Associated Press and date-lined Reno, was for the most part a continuation of his criticism of the State Department as regards his charge of Communist infiltration. He named, as "specific cases of people with Communist connections, " John W. Service, Gustave Duran, Mrs. Mary Jane Keeney, and Dr. Harlow Shapley. From the facts given by Senator McCarthy John W. Service is, no doubt, identical with John Stewart Service on whom we conducted an investigation under the provisions of Executive Order 9835. The others, Duran, Keeney, and Dr. Shapley, have not been identified with federal employment since the inception of the Loyalty Order and therefore, have not been within the scope of the Order. There follows a brief sketch of these individuals:

John Stewart Service

A full field loyalty investigation under the provisions of Executive Order 9835 was conducted of Service and the reports reflecting the results of this investigation were furnished to the Civil Service Commission on December 23, 1948, and to the Department on March 24, 1949. The basis for investigation was his arrest, together with Phillip Jacob Jaffe and Kate Mitchell, co-editors of "Amerasia," a magazine published in New York City, and others, on the basis of a complaint charging him with conspiracy to remove government documents and furnish them to unauthorized individuals. Service was not indicted by the Grand Jury in this case.

The Loyalty Investigation developed generally that

There is no information in Bureau files indicating that Service is not still employed by the Department of State. The Criminal Division of the Department, however, advised, on April 21, 1949, that an examination of the Bureau's reports failed to indicate a violation of any federal statute.

Gustave Duran

A loyalty investigation under the provisions of Executive Order 9835 has never been conducted inasmuch as Duran has not been in Federal employment since the inception of the Loyalty Order. As of June, 1949, he was employed as Chief of Section of Cultural Activities in the Department of Social Affairs, United Nations, Lake Success, Long Island, New York.

Mary Jane Keeney

since she has not been a Federal employee since the inception of the Loyalty Order, she has not been investigated under the Loyalty Program.

Dr. Harlow Shapley

Shapley has never been investigated under the provisions of Executive Order 9835 on the basis of his being a member of the National Research Council of the National Academy of Sciences. The Attorney General advised by memorandum dated May 24, 1948, that neither the National Academy of Sciences nor its National Research Council is a part of the Executive Branch of the Government and, consequently, does not fall within the purview of Executive Order 9835.

Mr. J. Edgar Hoover Federal Bureau of Investigation U. S. Department of Justice Washington, D. C.

Dear Mr. Hoover:

As of possible interest, I am enclosing news items and editorials from Salt Lake City and Renc, Nevada papers relating to recent public statements made by Senator JOSEPH REMCCARTHY (R) of Wisconsin regarding alleged Communists in the State Department and in the United States.

Senator McCARTHY, accompanied by Senator GEORGE W. MALONE (R) of Nevada was out this way for the purpose of addressing an annual Lincoln Day banquet in Reno. Diller

a Resident Agent at Reno, has a retired reputable businessman informed me that of Reno who attended the banquet, later informed him that Senator McCARTHY had paid you one of the finest compliments he had ever heard of a Government official. that during his speech at the banquet Senator MCCARTEY deviated from his script and said he would like to pay a compliment to a Government official. He then identified the person as, "Director J. Edgar Hoover of the Federal Bureau of Investigation," and said, "Hoover is the outstanding man in Washington at this time."

Irresponsible Gossip Or Derelict Officials

Senator Joseph R. McCarthy of Wisconsin dropped a bombshell when he stopped in Salt Lake City the other day on his way to attend a Republican rally in Reno, Nevada. He said there were 57 card-carrying Communists in the state department, and that he could give Secretary of State Acheson their names.

Many of the 57, the senator said, are in the higher salary brackets and hold influential positions. He charged that one man, John Service, "was picked up by the FBI for turning over state department secrets to Communists" but was strangely not prosecuted. Joseph Grew, who insisted on prosecution, was forced to resign. Service was reinstated and promoted, and is now en route to India to represent the state department there. "I think," said Senator McCarthy, "he should be recalled before we establish the same kind of policy there that we had if China."

This accusation is simply staggering. If it is true, it establishes a degree of vicious laxity in the administration's effort to eliminate disloyal officials that amounts to a betrayal of trust.

Frankly, it is difficult to believe any loyal, responsible American officials could be so faithless. But the charge has been made by a United States senator. It cannot be shrugged off. Either Senator McCarthy is an irresponsible purveyer of unsubstantiated gossip and rumor, or trusted American officials, from the president on down through the ranks of state department heads, have been infamously derelict in their duty.

We ought to know which is correct. It is dangerous to permit the poison of subpicion and doubt to eat away the confidence Americans have in the integrital of their government and its ability to guarantee national security.

TOO MANY

Better than anybody else, FBI Directo Edgar Hoover should know how man Communists there are in this country. So when he says there are approximately 540,000 Communists and fellow-travelers. one-tenth of that total party members, his figure will be taken as authoritative. Just what it means, however, may be open to some dispute.

For example, the total is not large by comparison with the population of the United States, now reckoned at 150,000. 000. But Communists have never de pended on mere numbers to achieve their ends. They have worked out methods that have been very successful in putting influence and power in the grasp of a few. (

The figure seems to indicate, too, that Communism has been gaining ground in this country. If it is taken for granted that not all of the 540,000 Communists and fellow-travelers are voters, the Hoover

estimate is sobering.

It is deeply disturbing to realize that the party not only can exist on Americal soil but can grow, no matter how slowly when it is known for what it is.

LISTS 'AT LEAST 57'

Visiting Solon Cites Reds' Infiltration

By O. N. MALMQUIST

A charge that at least 57 card-carrying Communists are in the State department was reiterated in Salt Lake City Friday night by Sen. Joseph R. McCarthy (R., Wis.) after a spokesman for the department had issued a denial.

Sen. McCarthy, en route to Reno, Nev., to address a Lincoln day dinner Saturday, stopped here to attend the local banquet

in Newhouse hotel.

"If Secy, of State Dean Ach son would call me I could read him the list of 57 names" Sen. Mc-Carthy said when informed that Lincoln White, State department spokesman has said:

"We know of no Communist party members in the department ! ranks. If we find any they will be summarily dismissed."

Sen. McCarthy added that while he could supply the state depart-ment with the 57 names he was not certain he would do so un-less officials "showed their good faith and sincerity" by agreeing to certain steps.

Terms Order 'Unusual'

"I may make them public when I have conferred with other members of the senate," he remarked.

One commitment Sen. McCarthy said he would like is withdrawal of what he termed a "very unusual" presidential order prohibiting government departments from turning over information on employes to congressional committees. This order, he recalled, was issued after Alger Hiss testified before the un-American activities committee.

The Wisconsin senator said he did not mean to infer by using the number 57 that that was all the card-carrying Communists in the State department.

"There may be many more," I declared. "We just have the name

Asked as to the source of is information, he replied that some of it was from the un-American attivities committee and sor from sources which could not be disclosed. He indicated that some of the sources he could not disclose are inside the State department.

Sen. McCarthy asserted that many of the 57 are above "the \$5300 salary bracket" and held influential positions. He emphasized that he was not intimating that the secretary of state is even "remotely connected with Communits." But he added that he 1 garded party members in the department as part of the Soviet espionage ring in this country.

Raps India Envoy

"I consider this a very important issue," Sen. McCarthy said; "because of the influence these people can exert on foreign policy. One of the things I think is important is to get an individual recalled who is now en route to India to represent the State | department there. I think he should be recalled before we establish the same kind f policy there that we had in hina."

The senator explained he was eferring to a member of the debartment named John Service who, he said, "was picked up by the FBI for turning over State department secrets to Communists" but, who was "strangely not prose-

He said Joseph Grew, who insisted on prosecution, was forced to resign; that Service not only was reinstated but was advanced to a position which placed him in charge of placements and peronnel.

McCarthy Prepares to List Communists at GOP Session

Republicans Meet in Reno For Lincoln Day

Northern Nevada Republicans will close down the curtain on their annual Lincoln day observance tonight with a banquet in the Mapes hotel.

With Sen. Joseph R. McCarthy of Wisconsin as the main attraction, the banquet is expected to pack around 400 persons into the Mapes mezzanine. It will start at seven o'cclock.

The senator's attacks on Communists in the state department have attracted wide attention here and additional revelations he will make tonight will add to the 11eady large list of reservations. Introductory remarks will be nade by Sen. George W. Malole, ho has also attracted wide attention, perhaps not so sensationally as has his colleague, for his predictions that a Democraticsocialist administration in Washington is preparing America for the greatest economic debacle in history.

Although he will make a brief stroductory talk, Sen. Malone is expected to tell his Reno audience what he told his listeners in ncoln day talk at Salt Lake las night, that the catastrophe can b a oided by a vigorous Republican party which fearlessly espouses the principles on which the nation was founded.

Presiding over the session will be A. E. (Burr) MacKenzie, state GOP chairman. Malone will be introduced by Noble H. Getchell, former state senator and Republican and Republic committeeman.

Senator from Visconsin to Speak Tonight

Sen. Joseph McCarthy said today he would name at least four "known Communists" in the U.S. state department when he ad-dresses Nevada Republicans at a Lincoln day dinner here tonight.

He told a Gazette reporter the four are among 57 Reds whose names he is willing to turn over to Pres. Harry Truman "for a propriate action."

BLUNT TALKER

The blunt-talking Wisconsin Republican dispatched a telegram to the president from Reno this morning, offering to submit the list to the chief executive immediately.

And if the president wants to know the names of still more state department Communists, he "simply should pick up his own phone" and ask his secretary of tate, Dean Acheson, for them, the nator said.

Frankly admitting he was seel g to bring public and political pressure to bear on the Truman administration, Mr. McCarthy said loyal American but a politically he viewed the president as "a expedient one."

"If I can make it politically inexpedient for him to allow the Communists to remain where they are, then he'll just have to clean out the state department," the senator said.

The Wisconsin Republican has charged in a series of speeches which began earlier this week at heeling, W. Va., that the stat dipartment employs many Com minists or fellow travelers. His own list of "known Communists" numbers 57.

FBI ALREADY KNOWS

Asked-why he did not turn the ist over to the FBI, he said that geney already know who the ere and what they are doing.

"But the FBI can make no mov until the justice department authorizes it, and the justice department, in turn, won't move until it has been approved by the state department," he charged.

SENDS TELEGRAM

In his telegram sent to the president this morning, Sen. McCarthy, said, in part:

Honorable John E Peurifoy Deputy Underscoretary of State for Administration Department of State Washington, D. C.

My dear Mr. Peurifoy:

It has come to my attention that you have made a public statement; which has been widely circulated sincluding distribution be newereels, to the effect that the FBI has investigated the 16,000 employees of the Department of State.

of Lucutive Order 9835, the Loyalty Order, has checked 17,850 names, representing applicants, appointees and employees of the State Department, against four files. The mere fact that such a name check has been made does not course, mean that an investigation has been conducted. On the contrary, loyalty invostigations were instituted only in those instances where such a name check revealed derogatory, disloyal information. Additionally, the name check does not in any way constitute a clearance or disapproval nor does it mean that there is not any derogatory, disloyal information concerning the individual.

To date the FBI has conducted 297 loyalty investigations on individuals in the Department of State. There are pending as of this time investigations on five other persons in the State Department.

Under the Voice of America Program (Public Law 402, 80th Congress) there have been received as of this date 4,499 requests for investigations, of which 4,261 have been completed and transmitted to the Department of State. Moreover, under the Greek-Turkey Aid Program (Public Laws 75 and 84 of the 80th Congress) this Bureau has received 846 requests for investigation, of which 842 have gencompleted and transmitted to the State Department.

I thought you would be interested in having these statistics in order that there will be no misunderstanding as to the number of investigations we have conducted for your agency

I was advised in the strictest of confidence by a responsible correspondent that Senator McCarthy has told AP, Ui, and INS off the record that his exposure is based upon photostats of loyalty cases from the State Department.

The question was asked, when was this, before Byrnes "lowered the boom."

He replied that it was only through good loyal Americans that he was able to get his material together. Senator Lucas has demanded the Senate Investigating Committee forthwith investigate charges.

It is understood that the three wire services have been advised off the record that the individual referred to as being in the Assistant Secretary of State's Office was that the minister was speech writer was that the White nouse speech writer was own stock in the Daily Worker; that the UN delegate in Switzerland was Esther Brunauer; and that it was in New York who is connected with the Voice of America.

Allegation by Senator McCarthy

"Case No. 1. The man involved in case No. 1 is employed in the office of an Assistant Secretary of State. The intelligence unit shadowed him and found him contacting members of an espionage group. A memorandum of December 13, 1946, indicates that he succeeded in having a well-known general intervene with an Assistant Secretary in behalf of one man who is an active Communist with a long record of Communist Party connections. There is another individual who is very closely tied up with a Soviet espionage agency. There is nothing in the file to indicate that the general referred to know those two individuals were Communists.

"That is a part of the usual modus operandi. If there is one Communist in the Department, he will get some other individual to recommend another Communist so that the breed can be increased.

"This individual was successful in obtaining important positions for other Communists. They were finally ordered removed from the Department not later than November 15 of the following year. Subsequent to that time, however, both of them still had access to secret material.

"A memorandum of November 2, 1946, pointed out that this individual and the previously mentioned Communists whom he succeeded in having placed were connected with an alleged Russian espionage agency. Nevertheless, this individual still occupies an important position in the State Department. I should like to point out at this time, however, that the security group, which was then operating in the State Department, was apparently doing a good job. It presented the entire picture to the Secretary of State. This individual who, the investigating agency of the State Department says, is a Communist, got a general innocently to bring two other Communists into the State Department, and he is today in the State Department and has access to the secret material. As I say, his name is certainly available to any Senate committee that wants it."

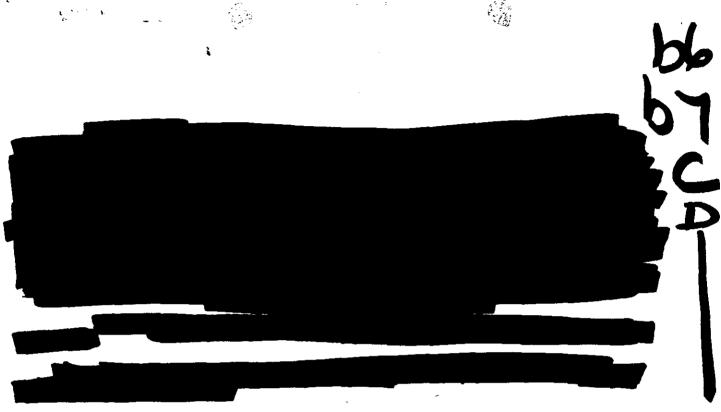

Possible Identification

1946, 1947 and January, 1948.

The Washington Dookshop Association, Washington Committee for Democratic Action and the American Peace Mobilization have been declared within the purview of Executive Order 9835. The International Juridical Association and the National Lawyers Guild were cited as Communist fronts by the Special Committee on un-American Activities, March 29, 1944.

The loyalty reports were sent to the Civil Service Commission on September 15, 1948 and to the Department on October 27, 1948.

The Loyalty Review Board by letter dated October 7, 1949, advised that had been declared "eligible on loyalty."

Allegation by Senator McCarthy

Case No. 2

"This is a case to which I particularly invite the Senate's attention. The files show two very interesting facts. A major portion of the file was removed. Papers refer to information in the file which is nonexistent. Upon contact with the keeper of the records, he stated that, to the best of his knowledge, the major portion of the file had been removed. He did not mention any name, but he said, 'He was put in some high-brass job about 2 years ago.'

(

"I am inclined to think that this individual's name may be known from the information which I shall give here.

"The file shows two things. It shows, first, that this individual had some of his clothing picked up, with unusual material in it, and, secondand this is important -- it shows that the State Department and the President had prepared material which was to be sent to a foreign government. The file shows that before the material left the State Department it was in the hands of the Kremlin in Moscow. Do Senators follow me? The State Department's own investigative file shows that some secret material, which was being transmitted to another nation, before it even left this country for the other country, showed up in Moscow. So far, that is not too significant. However, the file shows that this particular individual, who has held one of the most important positions at one of the listening posts in Europe, was shadowed, that he was found to have contacted a Soviet agent, and that the Soviet agent was then followed to the Soviet Embassy, where the agent turned the material over to the Soviet Embassy. Do Senators follow me? This is what the secret State Department file shows: First, the papers get to Moscow in some mysterious manner, and, second, this individual, who is now one of our foreign ministers, contacts a Russian espionage agent, and that agent is followed to the Russian Embassy, where the material is handed over. This is no secret to the State Department.

"Incidentally, I might say that I promised the press I would have copies of this material for their use. However, in view of the fact that I have nothing completely ready at this time, and must refer to the documents before me, which I cannot turn over to the press, I do not have anything to give them. I am sorry. I shall try, however, to give them now the material I have, and shall try to make the dates and places as clear as I can."

It was alleged that Moscow obtained the telegram through a top United States diplomatic official identified only as "No. 52." "So that there may be no question about this, we will refer directly to the investigative file. I think I am doing Mr. Truman a favor by telling him this. I do not think he knows it. I do not think he would have this individual there writing speeches for him if he knew it.

"Both the individual referred to and his wife--this is in the file of the investigative agency--are members of Communist-front organizations. He has a relative who has a financial interest in the Daily Worker. But in any event the State Department used good judgment not to clear this individual."

"Case No. 77. This young man applied for a position in the State Department. The file indicates he is a very close friend of reported Communists, and that he is closely associated with members of Communist-front organizations. The file indicates that his wife belongs to an organization listed as subversive by the House Un-American Activities Committee, and that a relative of his has a financial interest in the Daily Worker.

The loyalty investigation which was initiated at the specific request of the Civil Service Commission disclosed the following information:

The National Lawyers Guild, the League of Women Shoppers and the International Juridical Association were named as Communist fronts by the Special Committee on Un-American Activities in March 1944. The Descendants of the American Revolution was similarly described by the same Committee in June 1942. The "Daily Worker" is an East Coast daily Communist newspaper, while "New Masses" has been characterized by the Special Committee on Un-American Activities as a "nationally circulated weekly journal of the Communist Party.... whose ownership was vested in the American Fund for Public Service." The Washington Bookshop Association has been declared within the purview of Executive Order 9835.

DR. ESTHER CAUKIN BRUHAUER

Allegation by Senator McCarthy

"Case No. 47. This individual was employed in March 1944, as Division Assistant in the Division of Internal Security. The House Un-American Activities Committee advised on August 18, 1947, that an admitted former Communist Party member was formerly associated with this individual in Communist activities in Washington, D. C. This individual's husband admitted having been a member of the Communist Perty. The husband now has a highly confidential position with the Many Department. The file indicates that this individual has been associated with a group of known Communists.

"Keep in mind, Mr. President, that she was given a job in the Division of Internal Security."

"A report dated July 16, 1947, states that in 1941 a Senate investigating committee had found that both this individual and her husband were members of the Communist Party. A report dated September 15, 1947, by a Government investigative agency, advised that a reliable informant reported this individual as a Communist, and that she has been recently contacting a member of the Soviet espionage ring. This individual is still in a highly paid job in the State Department."

Possible Identification

A review of the Bureau's files indicates this individual is apparently identical with Dr. Esther Caukin Brunauer. The Bureau's records reflect that a loyalty investigation was conducted on this individual in 1948.

According to information developed during the course of this investigation, Dr. Brunauer was never known to be a member of the Communist Party.

Case No. 81. "I think this individual has been doing this Nation untold damage because of the high position she holds in the Voice of America. This individual was in the Voice of America project, in the New York office, until some time ago. She was transferred to Europe, technically under control of the Commanding General, in the same type of work as the Voice of America, and subsequently the entire project was transferred back to the State Department, and she is today in the State Department.

MR. D. M. LADD

SUBJECT:

OCCUMUNISTS IN THE STATE DEPARTMENT

(ALLEGATIONS BY SENATOR JOSEPH R. McCARTHY - Rep.-Wisconsin)

PURP OSE:

To furnish you with the possible identity of and summaries of information regarding the individuals referred to anonymously as employees of the State Department by Senator McCarthy before the Senate, as set forth in the Congressional Record dated February 20, 1950, Volume 96, No. 35, pages 2043 through 2071 inclusive.

BACKGROUND:

Reference is made to Mr. Nichols' memorandum to you dated February 21, 1950, advising that the Loyalty Section was endeavoring to identify the cases referred to by Senator McCarthy before the Senate and was preparing a summary on each case. You noted, "Expedite as much as possible."

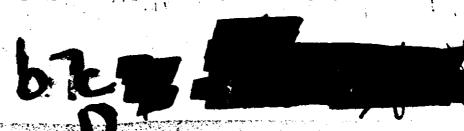

There is attached hereto a compilation of summary memoranda on the cases that have been identified. It should be noted that the identifications were arrived at solely on the basis of a comparison of Senator McCarthy's testimony on individual cases with the material furnished to the Bureau confidentially on January 29, 1948, by

In some instances it was noted that Senator McCarthy's language on particular cases appeared to be direct quotes of portions of the individual case write-ups in the material in other instances Senator McCarthy's remarks were so brief that it was necessary to arrive at the identification through a process of elimination, as well as comparison of the case write-ups in Ise's material.

It was also noted that Senator McCarthy uses the male gender in referring to most cases although in several instances the cases apparently refer to women. Senator McCarthy also makes reference in some cases to the person having signed an affidavit that he was a member of the Communist Party, whereas Lee's material shows only that the individual, or a person of similar hame, signed a Communist Party petition.

his remarks in the Congressional Record shows he pmitted 4 cases, specifically case No. 15, No. 27, No. 35 and No. 39. He also makes a general reference to cases No. 21 to 26 as being typical examples of many of the employees in the

Attachment 65 8 JUN 12 1950

ele, Roo

New York Office of the Office of Information and Educational Exchange but does not give any details on these six cases upon which an identification could be based. In cases No. 19 and No. 36 Senator McCarthy's remarks were so sketchy that insufficient facts were available to make an identification.

Thus, possible identifications were made in a total of 69 of the cases referred to by the Senator. Of this figure, however, cases No. 9 and 77 apparently refer to the same individual and have been so treated in the attached summary. Cases No. 48 and 49 are lumped together by the Senator as involving a man and wife and and, therefore, these two cases have been treated together in one memorandum.

Taking the above into consideration, you will note that there are only a total of 68 individuals involved that we have been able to identify and, since the cases involving the man and wife have been treated in one memorandum, the attached summary contains a total of only 67 individual case memoranda.

Of the 68 individuals involved, 37 are possibly still employed in the State Department, since there is nothing in our files to indicate otherwise. We, of course, have made no effort to check with State to see if all these individuals are actually still employed.

With regard to the 68 individuals involved, we have conducted 38 full field loyalty investigations, 5 preliminary inquiry type loyalty investigations, and 5 investigations under the Voice of America program, or a total of 48 investigations conducted either under the President's Executive Order No. 9835 or Public Law 402, 80th Congress, (Voice of America program). In an additional 6 cases we have conducted some type of applicant or security investigation in the past. Of these six, according to our files, five apparently are no longer employed in the State Department. In the case of 14 individuals we cannot identify them as having been subjects of investigation by the Bureau, but, of this number, our files indicate 10 are apparently no longer employed by the State Department and four may or may not be employed. We have been unable to determine whether we have received loyalty forms on these four individuals because all loyalty forms have not been indexed and in view of the lack of identifying data. We are arranging through Liaison for a discreet check on these four individuals to determine if they are actually employed. If so, appropriate action will be taken.

It is noted that Senator McCarthy, in his remarks before the Senate, singled out for particular attention Case No. 1

— see Page three); and Case No. 81 (
— see Page 132). Your attention is also invited to Cases No. 9

and 77 (
— see Page 23) who was referred to by Senator

McCarthy as a "speech writer in the White House," and to Case No. 47 (Esther Caukin Brunauer — see Page 74) who was referred to by Senator McCarthy as

being in a highly paid job in the State Department. These particular cases were called to your attention individually by a memorandum earlier today, at which time, also, pursuant to your instructions, summary memoranda were addressed to the Attorney General.

ACTION

As previously indicated, we are making a discreet check with the State Department on the 4 individuals referred to above to determine if they are actually employed. These individuals are (see page 51); (see page 61); (see page 129).

The loyalty reports were sent to the Civil Service Commission on September 15, 1948.

Case No. 2

"This is a case to which I particularly invite the Senate's attention. The files show two very interesting facts. A major portion of the file was removed. Papers refer to information in the file which is nonexistent. Upon contact with the keeper of the records, he stated that, to the best of his knowledge, the major portion of the file had been removed. He did not mention any name, but he said, 'He was put in some high-brass job about 2 years ago.'

"I am inclined to think that this individual's name may be known from the information which I shall give here.

"The file shows two things. It shows, first, that this individua had some of his clothing picked up, with unusual material in it, and, second -- and this is important -- it shows that the State Department and the President had prepared material which was to be sent to a foreign government. The file shows that before the material left the State Department it was in the hends of the Kremlin in Moscow. Do Senators follow me? The State Department's own investigative file shows that some secret material, which was being transmitted to another nation, before it even left this country for the other country, showed up in Moscow. So far, that is not too significant. However, the file shows that this particular individual, who has held one of the most important positions at one of the listening posts in Europe, was shadowed, that he was found to have contacted a Soviet agent, and that the Soviet agent was then followed to the Soviet Embassy, where the agent turned the material over to the Soviet Embassy. Do Senators follow me? This is what the secret State Department file shows: First, the papers get to Moscow in some mysterious manner, and, second, this individual, who is now one of our foreign ministers, contacts a Russian espionage agent, and that agent is followed to the Russian Embassy, where the material is handed over. This is no secret to the State Department.

"Incidentally, I might say that I promised the press I would have copies of this material for their use. However, in view of the fact that I have nothing completely ready at this time, and must refer to the documents before me, which I cannot turn over to the press, I do not have anything to give them. I am sorry. I shall try, however, to give them now the material I have, and shall try to make the dates and places as clear as I can."

An article appeared in the Washington Daily News on February 27, 1948, under the heading of "Top U. S. Diplomat a Red Spy?" This article reported that the House Appropriations Committee had developed information during a hearing on State Department appropriations which indicated that a confidential White House telegram to Chungking, China,

reached Moscow before ever leaving Washington. It was alleged that Moscow obtained the telegram through a top United States diplomatic official identified only as "No. 52." It was further indicated that investigations had disclosed that the diplomatic official referred to as No. 52 was seen contacting a man in Washington and was trailed to the Soviet Embassy. The Bureau received information that the individual referred to as No. 52 was

"Case No. 9. This individual, after investigation, was not given security clearance by the State Department. After failing to obtain clearance by the State Department he secured a job in the Office of the Secretary of Defense. And where do Senators think that man is today? He is now a speech writer in the White House. This is case No. 9. I will secure a little more information on that case if I may.

"So that there may be no question about this, we will refer directly to the investigative file. I think I am doing Mr. Truman a favor by telling him this. I do not think he knows it. I do not think he would have this individual there writing speeches for him if he knew it.

"Poth the individual referred to and his wife-this is in the file of the investigative agency-are nembers of Communist-front organizations. He has a relative who has a financial interest in the Daily Worker. But in any event the State Department used good judgment not to clear this individual."

"Case No. 77. This young man applied for a position in the State Department. The file indicates he is a very close friend of reported Communists, and that he is closely associated with members of Communist-front organizations. The file indicates that his wife belongs to an organization listed as subversive by the House Un-American Activities Committee, and that a relative of his has a financial interest in the Daily Worker.

"Mr. President, I believe I have covered this case before, and what I have just said seems to be a repetition. This is the case of a young man who ended up as a speech writer in a well-known house in Washington."

The National Lawyers Guild, the League of Women Shoppers and the International Juridical Association, above-mentioned, were named as Communist fronts by the House Committee on Un-American Activities in March 1944. The Decendents of the American Revolution was similarly described by the same Committee in June 1942. The "Daily Worker" is an East Coast daily Communist newspaper, while "New Masses" has been characterized by the House Committee as a "nationally circulated weekly journal of the Communist Party." "Case No. 47. This individual was employed in March 1944, as Division Assistant in the Division of Internal Security. The House Un-American Activities Committee advised on August 18, 1947, that an admitted former Communist Party member was formerly associated with this individual in Communist activities in Washington, D. C. This individual's husband admitted having been a member of the Communist Party. The husband now has a highly confidential position with the Mavy Department. The file indicates that this individual has been associated with a group of known Communists.

"Keep in mind, Mr. President, that she was given a job in the Division of Internal Security."

"A report dated July 16, 1947, states that in 1941 a Senate investigating committee had found that both this individual and her husband were members of the Communist Party. A report dated September 15, 1947, by a Government investigative agency, advised that a reliable informant reported this individual as a Communist, and that she has been recently contacting a member of the Soviet espionage ring. This individual is still in a highly paid job in the State Department."

Possible Identification

A review of the Eureau's files indicates this individual is apparently identical with Dr. Esther Caukin Erunauer. The Bureau's records reflect that a loyalty investigation was conducted on this individual in 1948.

According to information developed during the course of this investigation, Dr. Brunauer was never known to be a member of the Communist Party.

Case Po. 81. "I think this individual has been doing this mation untold damage because of the high position she holds in the Voice of America. This individual was in the Voice of America project, in the New York office, until some time ago. She was transferred to Europe, technically under control of the Commanding General, in the same type of work as the Voice of America, and subsequently the entire project was transferred back to the state Department, and she is today in the State Department.

"The file in this case contains a wealth of information indicating that this individual is an extremely dangerous and active Communist, completely disloyal to the United States, and loyal to Soviet Russia. Euch of the information here, however, was given in strictest confidence but I shall try to give somewhat of a picture of this person.

"It is perhaps sufficient to point out that the witnesses without exception have stated in essence that this individual has collected in her office a mixture of fellow travelers and pseudo liberals and outright Communists. These witnesses indicate that the group is close knit and attempts a vicious character assassination of anyone who attempts to disagree with them, and apparently rather successfully so.

"The witnesses without exception seem to feel that this individual has exerted a great deal of control over the information used on the Voice of America, and is doing the United States immessivable damage.

"I understand that this individual is now in Europe, and, although technically under the control of the Army, is in effect, to all intents and purposes, under the control of the State Department, and is still doing the same work as that involved in the Voice of America, formerly worked on in New York.

"Er. President, since this paper was dictated night before last I find that she is back in the State Department.

"Immediate steps should be taken, in my opinion, to obtain not only the discharge but the prosecution of this individual."

CHARGES OF SENATOR MCCARTHY

AGAINST THE STATE DEPARTMENT

CONCERNING SPIES AND COMMUNISTS

Reportingend Apropos newspaper comment concerning Senator Accarthy's charges against the State Department that it is harboring Soviet spies and Communists, has learned the following information from the State Department, which is of interest at this time.

According to Mr. Donald L. Micholson, Chief, Security Division, State Department, the State Department has identified all of the 81 cases cited by McCarthy, and approximately 68 are no longer working for the Department. Nicholson stated that all of those still employed by the State Department were given clearance by the Richardson Loyalty Commission, and that the State Department is not too concorned about the persons presently employed as mentioned by McCarthy

Mr. Nicholson also stated that it had been agreed among Mr. Peyton Ford, Department of Justice, Donald Dawson of the White House, and Mr. Peurifoy of the State Department that all loyalty files on the individuals mentioned by McCarthy, plus approximately 385 loyalty cases, were to be transferred to the White House. At this time, all the files, including Bureau reports on the 81 cases mentioned by McCarthy, have been transferred to the White House. The other loyalty cases are being worked on by the State Department at this time, and are being referred to the that he assumed Peyton Ford had White House soon. Mr. Nicholson informed discussed the referral of these cases to the White House, particularly so in view of the fact that there are Bureau investigative reports in most of them. Micholson further stated that it was his understanding that the White House would perhit members of Congress to review the files at the White House, but that the White House would not permit the files to be removed to Capitol Hill for review. According to Mr. Nicholson, the transfer of these files to the White House was done for political reasons, and, further, for the reason that the State Department was fearful that the Secretary of State would be served with a subpena to produce the files, which can now be answered by stating that the files are not in the possession of the State Department.

I took a call from Senator Joseph CoCarthy (R. Wisc.) by reference from your office. He stated that as a result of the speeches he has raie, stacks of rail, some of it anonymous, has been received from State Department employees and from Voice of America employees. He stated that he has former Special Agent working in his office on the reterial. Some of it is real good; that he doubts if he is cetting any that the Eureau doesn't already have, but he doesn't know, that he would like to make this material evailable to the Turcau and that if the Eureau would have an Agent contact the for review and use by the Bureau.

I advised Senator McCarthy that you were out of the building, that I would be in telephonic contact with you later and after talking to you, I would let him, McCarthy, know of your views in this matter.

Senator L'cCarthy stated he was leaving the office at the time he called me and would not be available further today.

In accordance with your instructions, I will contact l'cCarthy tomorrow or at theearliest possible moment and advise him that in view of the President's statement concerning making this material available to him, that it would be embarrassing to Senator L'cCarthy and to us to make such a contact without first elearing with the Department and if Senator L'cCarthy approves the matter will be appropriately discussed with Lr. While talking to Peyton Ford on another matter he mentioned that he had told the White House to call all loyalty files from the State Department to the White House in order that the President might better resist any attempt by Congress to obtain these files. He stated that it is not the President's intention to let the committee review the files; that at the present time he, Ford, has the State Department preparing a summary of the charges and of the action taken in each case, without identifying the subject of the case, and this brief summary will be furnished by the State Department to the Senate Committee in the hope that the information thus furnished will satisfy them.

In the event it does not satisfy the Committee, the President has indicated that he might let the Chairman of the Committee come over and look at the files which the President is now holding merely for the purpose of verifying that the summaries prepared by the State Department are accurate.

But Mr. Ford stated that the President has indicated that if this is necessary he, the President, is going to take the necessary time to sit down and make the Senators look at the material in his presence, and that he will forbid the taking of any notes whatsoever.

Office Memorandum . UNITED STATES GOVERNMEN DATE: March 6, 1950cr The Director D. M. Ladd SUBJECT: COMMUNISTS IN THE STATE DEPARTMENT (Allegations by Senator Joseph R. McCarthy - Rep. Wisconsin) PURPOSE: To furnish you with additional information concerning? were mentioned by Senator McCarthy and on whom we were checking to ascertain if they were currently employed by the State Department. BACKGROUND: You will recall my memorandum of February 24, 1950, included summaries of 68 individuals who were referred to by Senator McCarthy. You will further recall that there were four individuals, namely, whom we could not identify as having been investigated by the Bureau and on whom we were checking State Department records to ascertain if they were currently employed. It has been ascertained by the Liaison Section of the Bureau that is currently employed by the State Department; that are presently employed by the State Department; further and is presently employed and apparently is identical with the individual mentioned by Senator McCarthy since there is no record of a being employed by the State Department. For your information there is a brief summary of information available concerning each of these individuals. Senator Joseph R. McCarthy referred to this individual as "Case No. 40," who was another person employed in the State Department since 1947. He stated he did not have too much information on this, except the statement by the agency that there is nothing in the files to disprove Communistic connections. As previously furnished you in my memorandum dated February 24. 1950. RECORDEÓ

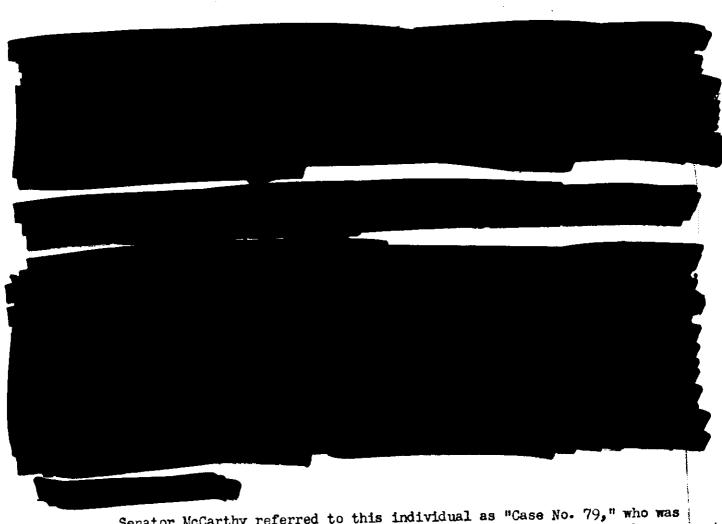

As you know, all Loyalty Forms have not been indexed; however, through a search of the forms presently being alphabetized by the Records Section a form on one.

Department of State,

man is probably identical with
the individual referred to as
and returned to the State Department marked "No Disloyal Data" on April 17, 1948.
It is to be noted that the State Department in submitting this form did not specify possession of any reports containing loyalty information as required under Item 14 of the Loyalty Form.

A check of the Bureau files at this time fails to disclose any identifiable disloyal information concerning

Senator McCarthy referred to this individual as "Case No. 46," who was born in Russia and naturalized in San Francisco in 1929. According to McCarthy, the Navy Department informed the State Department that this individual had secret State Department documents in the room shared by him and another Russian. Further, that an investigation was instituted, however, this individual was still in the State Department as late as December, 1949. Bureau files reflect information received from the State Department by memorandum dated January 10, 1947, that a routine investigation of

Senator McCarthy referred to this individual as Case No. 31 and described him as having been in Government service since July, 1942, being formerly stationed in the Office of Information and Education of the State Department. The Senator advised that the files of the Un-American Activities Committee showed that had signed a petition in New York City in 1940 to the effect that he was a member of the Communist Party.

STATUS: As you probably will recall, when the information concerning the individuals mentioned by AcCarthy recently was previously brought out before the House Appropriations Committee in January, 1948, the State Department indicated to the House Appropriations Committee that 19 of the cases on whom the Department had disloyal information had been referred to the FBI for investigation. These 19 cases, as you will recall, were handled as a special project and thorough investigations were made of the 19. Since that time no request has been made by the State Department for investigation of any of the four above-mentioned individuals under the Loyalty Program.

it does not appear that there is sufficient information to warrant initiating rull field loyalty investigations at this time, particularly in view of the fact that all pertinent information comerning them has been in the possession of the State Department for some time and was in its possession at the time the House Appropriations Committee confucted hearings in connection with the State Department appropriations bill in January, 1948. With respect to as noted above, he is presently the subject of a pending Atomic Energy Act investigation and copies of the reports will, of course, be furnished to the State Department. Further, it is noted that the the who is presently employed by the State Department has already been the subject of a Voice of America investigation.
