#### Swiss Bank Corporation, Basel, Switzerland; Application to Engage in Nonbanking Activities

Swiss Bank Corporation, Basel, Switzerland (Applicant) has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. § 1843(c)(8)) (BHC Act) and 225.23(a)(3) of the Board's Regulation Y (12 CFR 225.23(a)(3)), to acquire and retain indirect ownership, control and power to vote up to 100 percent of the voting shares of Brinson Partners, Inc. (Brinson Partners) and Brinson Trust Company (Brinson Trust) and to thereby to engage in the following nonbanking activities: (1) providing investment and financial advisory services; (2) providing investment advice to nonaffiliated persons with respect to (A) the purchase and sale of financial futures contracts and options on such futures contracts as set forth in 12 CFR 225.25(b)(19), and (B) the purchase and sale of those futures contracts and options on futures contracts based on bonds, interest rates and stock and bond indexes that the Board has approved previously; and (3) providing trust company services. Applicant proposes to provide investment advice to clients directly and through limited partnerships, for which Brinson Partners would act as investment advisor and in some cases as general partner.

Section 4(c)(8) of the BHC Act provides that a bank holding company may, with Board approval, engage in any activity which the Board, after due notice and opportunity for hearing, determines by order or regulation to be so closely related to banking or managing or controlling banks as to be a proper incident thereto. This statutory standard requires that two separate tests be met for an activity to be permissible for a bank holding company. First, the Board must determine that the activity is, as a general matter, closely related to banking. Second, the Board must find in a particular case that the performance of the activity by the applicant bank holding company may reasonably be expected to produce public benefits that outweigh possible adverse effects.

A particular activity may be found to meet the "closely related to banking" test if it is demonstrated that banks have generally provided the proposed activity; that banks generally provide services that are operationally or functionally similar to the proposed activity so as to equip them particularly well to provide the proposed activity; or that banks generally provide services that are so integrally related to the proposed activity as to require their provision in a specialized form.
