may specify any number or combination of Construction Units that the Owner may deem necessary for the construction of the Project. Separate Construction Units are designated for each different arrangement which may be used in the construction of the Project. This Proposal is based on a consideration of each unit in place and includes only the materials listed on the corresponding Construction Drawings or description of unit where no drawing exists.

Section 6. Familiarity with Conditions. The Bidder has made a careful examination of the site of the Project to be constructed and of the Plans, Specifications for Construction, Construction Drawings, and form of Contractor's Bond attached hereto, and has become informed as to the location and nature of the proposed construction, the transportation facilities, the kind and character of soil and terrain to be encountered, and the kind of facilities required before and during the construction of the Project, and has become acquainted with the labor conditions, state and local laws and regulations which would affect work on the proposed construction.

Section 7. License. The Bidder warrants that a Contractor's License is _____, is not _____, required, and if required, it possesses Contractor's License No. ______ for the State of ______ in which the Project is located and said license expires on ______19____.

Section 8. The Bidder warrants that this Proposal is made in good faith and without collusion or connection with any person or persons bidding for the same work.

Section 9. The Bidder warrants that it possesses adequate financial resources and agrees that in the event this Proposal is accepted and a Contractor's Bond is required, it will furnish a Contractor's Bond in the form attached hereto, in a penal sum not less than the maximum Contract price, with a surety or sureties listed by the United States Treasury Department as Acceptable Sureties.

In the event that the surety or sureties on the performance bond delivered to the Owner contemporaneously with the execution of the Contractor on any bond or bonds delivered in substitution therefor or in addition thereto shall at any time become unsatisfactory to the Owner or the Administrator, the Bidder agrees to deliver to the Owner another or an additional bond.

Section 10. Taxes. The unit prices for Construction Units in this Proposal include provisions for the payment of all monies which will be payable by the Bidder or the Owner in connection with the construction of the Project on account of taxes imposed by any taxing authority upon the sale, purchase or use of materials, supplies and equipment, or services or labor of installation thereof, to be incorporated in the Project as part of such Construction Units. The Bidder agrees to pay all such taxes, except taxes upon the sale, purchase or use of owner-furnished materials and it is understood that, as to ownerfurnished materials, the values stated in the attached ''List of Owner's Materials on Hand'' and ''List of Materials Ordered by Owner But Not Delivered'' include taxes upon the sale, purchase or use of ownerfurnished materials, if applicable. The Bidder will furnish to the appropriate taxing authorities all required information and reports pertaining to the Project, except as to the owner-furnished materials.

Section 11. Changes in Quantities. The Bidder understands and agrees that the quantities called for in this Proposal are approximate, and that the total number of units upon which payment shall be made shall be as set forth in the inventory. If the Owner changes the quantity of any unit or units specified in this Proposal by more than 15%, and the materials cost to the Bidder is increased thereby to an extent which would not be adequately compensated by application of the unit prices in this Proposal to the revised quantity of such unit or units, such change, to the extent of the quantities of such units in excess of such 15%, shall be regarded as a change in the construction within the meaning of Article II, Section 1(d) of this Proposal.

Article II—Construction

Section 1. Time and Manner of Construction.

a. The Bidder agrees to commence construction of the Project on a date (hereinafter called the "Commencement Date") which shall be determined by the Engineer after notice in writing of approval of the Contract by the Administrator and notice in writing from the Bidder that the Bidder has sufficient materials to warrant commencement and continuation of construction, but in no event will the Commencement Date be later than calendar days after date of approval of the Contract by the Administrator. The Bidder further agrees to prosecute diligently and to complete construction in strict accordance

with the Plans, Specifications for Construction and Construction Drawings within () calendar days (excluding Sundays) after Commencement Date: Provided, however, that the Bidder will not be required to perform any construction on such days when in the judgment of the Engineer snow, rain, or wind, or the results of snow, rain, or frost make it impracticable to perform any operation of construction and to the extent of the time lost due to the conditions described herein and approved in writing by the Engineer, the time of completion set out above will be extended if the Bidder makes a written request therefor to the Owner as provided in subsection b of this Section 1.

b. The time for Completion of Construction shall be extended for the period of any

reasonable delay which is due exclusively to causes beyond the control and without the fault of the Bidder, including acts of God, fires, floods, inability to obtain materials and acts or omissions of the Owner with respect to matters for which the Owner is solely responsible: Provided, however, that no such extension of time for completion shall be granted the Bidder unless within ten (10) days after the happening of any event relied upon by the Bidder for such an extension of time the Bidder shall have made a request therefore in writing to the Owner, and provided further that no delay in such time of completion or in the progress of the work which results from any of the above causes, except acts or omissions of the Owner, shall result in any liability on the part of the Owner.
