[Docket No. 94-010F]

Imported Product: Withdrawal of Czechoslovakia; Addition of the Czech Republic to the List of Eligible Countries

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Direct final rule.

SUMMARY: The Food Safety and Inspection Service (FSIS) is amending the Federal meat inspection regulations (9 CFR 327.2) to affirm that the newly formed country of the Czech Republic continues to be eligible to have its meat products imported into the United States. The regulations are also amended to delete Czechoslovakia from the list of countries eligible to have their meat products imported into the United States.

Based on mutual agreement, Czechoslovakia peacefully divided into the Czech Republic and the Slovak Republic on January 1, 1993. The meat inspection program recognized by the United States as meeting the requirements of the Federal meat inspection regulations and eligible to have its meat products imported into the United States is a program of the Czech Republic.

DATES: This rule will be effective on April 25, 1995 unless we receive written adverse comments or written notice of intent to submit adverse comments on or before March 27, 1995.

ADDRESSES: Adverse comments or notice of intent to submit adverse comments should be sent in triplicate to Regulations Development, Policy, Evaluation and Planning Staff, Attention: Diane Moore, FSIS Docket Clerk, Food Safety and Inspection Service, Room 3171, South Agriculture Building, U. SUPPLEMENTARY INFORMATION:

Background

In 1972, Czechoslovakia completed the eligibility process for importation of meat products into the United States. The country maintained its eligibility until it split into two separate republics on January 1, 1993: the Czech Republic and the Slovak Republic.

In October 1993, inspection officials of the Czech Republic notified FSIS that the new country continues to maintain a meat inspection system under the same laws and regulations as existed when it was a part of Czechoslovakia. These laws and regulations were previously determined by FSIS to be "at least equal to" the meat inspection standards applied to products produced in the United States. Further, FSIS recently determined that the Czech Republic employs qualified and competent inspectors to ensure that the standards are effectively enforced for products prepared for importation into the United States.

The part of Czechoslovakia which became the Slovak Republic has never had any certified meat inspection plants nor had any meat or meat products imported into the United States. Due to this history and absence of other pertinent information, FSIS is uncertain if the Slovak Republic's meat inspection system is "at least equal to" that of the United States. Therefore, the Slovak Republic will be required to request and receive approval from FSIS before it will be deemed eligible to have its meat and meat products imported into the United States.
