granting them now, transition relief systems will be able to adjust their rates to reflect the same inflation adjustment that the Commission has granted all other operators. Moreover, in the future, all transition relief systems may join other cable operators in making inflation adjustments on an annual basis, no earlier than October 1 of each year and no later than August 31 of the following year to reflect the final GNP–PI through June 30 of the applicable year.

#### Administrative Matters

Regulatory Flexibility Act Analysis

Pursuant to the Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, the Commission's final analysis with respect to the Ninth Order on Reconsideration is as follows:

Need and purpose of this action. The Commission, in compliance with section 3 of the Cable Television Consumer Protection and Competition Act of 1992, 47 U.S.C. 543 (1992), pertaining to rate regulation, adopts revised rules and procedures intended to ensure that cable services are offered at reasonable rates with minimum regulatory and administrative burdens on cable entities.

Summary of issues raised by the public in response to the Initial Regulatory Flexibility Analysis. There were no comments submitted in response to the Initial Regulatory Flexibility Analysis. The Chief Counsel for Advocacy of the United States Small Business Administration (SBA) filed comments in the original rulemaking order. The Commission addressed the concerns raised by the Office of Advocacy in the Report and Order and Further Notice of Proposed Rulemaking.

Significant alternatives considered and rejected. In the course of this proceeding, petitioners representing cable interests and franchising authorities submitted several alternatives aimed at minimizing administrative burdens. The Commission has attempted to accommodate the concerns expressed by these parties. In this order, the Commission is providing relief to small systems and low-price systems by permitting them to adjust their transition rates with an inflation adjustment.

## Paperwork Reduction Act

The requirements adopted herein have been analyzed with respect to the Paperwork Reduction Act of 1980 and are found to impose a new information collection requirement on the public. Implementation of the new requirement

will be subject to approval by the Office of Management and Budget.

Title 47, Part 76 of the Code of Federal Regulations is amended as follows:

# PART 76—CABLE TELEVISION SERVICE

1. The authority citation for Part 76 continues to read as follows:

Authority: Secs. 2, 3, 4, 301, 303, 307, 308, 309, 48 Stat. as amended, 1064, 1065, 1066, 1081, 1082, 1083, 1084, 1085, 1101; 47 U.S.C. Secs. 152, 153, 154, 301, 303, 307, 308, 309, 532, 535, 542, 543, 552 as amended, 106 Stat. 1460.

2. Section 76.922 is amended by revising paragraph (d)(2) to read as follows:

§76.922 Rates for the basic service tier and cable programming service tiers.

(2) Inflation Adjustments. The

(d) \* \* \*

residual component of a system's permitted charge may be adjusted annually for inflation. The annual inflation adjustment shall be based on inflation occurring from June 30 of the previous year to June 30 of the year in which the inflation adjustment is made, except that the first annual inflation adjustment shall cover inflation from September 30, 1993 until June 30 of the year in which the inflation adjustment is made. The adjustment may be made

after September 30, but no later than

August 31, of the next calendar year. Adjustments shall be based on changes in the Gross National Product Price Index as published by the Bureau of Economic Analysis of the United States Department of Commerce. Cable systems that establish a transition rate pursuant to paragraph (b)(4) of this section may not begin adjusting rates on account of inflation before April 1, 1995. Between April 1, 1995 and August 31, 1995 cable systems that established a transition rate may adjust their rates to reflect the net of a 5.21% inflation adjustment minus any inflation adjustments they have already received. Low price systems that had their March 31, 1994 rates above the benchmark, but their full reduction rate below the benchmark will be permitted to adjust their rates to reflect the full 5.21% inflation factor unless the rate reduction was less than the inflation adjustment received on an FCC Form 393 for rates established prior to May 15, 1994. If the rate reduction established by a low price system that reduced its rate to the benchmark was less than the inflation adjustment received on an FCC Form 393, the system will be permitted to receive the 5.21% inflation adjustment minus the difference between the rate reduction and the inflation adjustment the system made on its FCC Form 393. Cable systems that established a transition rate may make future inflation adjustments on an annual basis with all other cable operators, no earlier than October 1 of each year and no later than August 31 of the following year to reflect the final GNP-PI through June 30 of the applicable year.
