rate for all other manufacturers or exporters will continue to be the "All Others" rate for the relevant class or kind and country made effective by the final results of review published on July 26, 1993 (see *Final Results of Antidumping Duty Administrative Reviews and Revocation in Part of an Antidumping Duty Order*, 58 FR 39729, July 26, 1993). These rates are the "All Others" rates from the relevant LTFV investigations.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative reviews.

Assessment Rates

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. Because sampling and other simplification methods prevent entry-by-entry assessments, we will calculate wherever possible an exporter/importer-specific assessment rate for each class or kind of antifriction bearings.

1. Purchase Price Sales

With respect to PP sales for these final results, we divided the total dumping margins (calculated as the difference between FMV and USP) for each importer by the total number of units sold to that importer. We will direct Customs to assess the resulting unit dollar amount against each unit of merchandise in each of that importer's entries under the relevant order during the review period. Although this will result in assessing different percentage margins for individual entries, the total antidumping duties collected for each importer under each order for the review period will be almost exactly equal to the total dumping margins.

2. Exporter's Sales Price Sales

For ESP sales (sampled and nonsampled), we divided the total dumping margins for the reviewed sales by the total entered value of those reviewed sales for each importer. We will direct Customs to assess the resulting percentage margin against the entered Customs values for the subject merchandise on each of that importer's entries under the relevant order during the review period. While the Department is aware that the entered value of sales during the period of review (POR) is not necessarily equal to the entered value of entries during the POR, use of entered value of sales as the basis of the assessment rate permits the Department to collect a reasonable approximation of the antidumping duties which would have been determined if the Department had

reviewed those sales of merchandise actually entered during the POR.

In the case of companies which did not report entered value of sales, we calculated a proxy for entered value of sales, based on the price information available and appropriate adjustments (e.g., insurance, freight, U.S. brokerage and handling, U.S. profit, and any other items, as appropriate, on a companyspecific basis).

For calculation of the ESP assessment rate, entries for which liquidation was suspended, but which ultimately fell outside the scope of the orders through operation of the "Roller Chain" rule, are included in the assessment rate denominator to avoid over-collecting. (The "Roller Chain" rule excludes from the collection of antidumping duties bearings which were imported by a related party and further processed, and which comprise less than one percent of the finished product sold to the first unrelated customer in the United States. See the section on Further Manufacturing and the "Roller Chain" Rule in the Issues Appendix.)

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as the only reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Failure to comply is a violation of the APO.

These administrative reviews and this notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: January 31, 1995.

Susan G. Esserman,

Assistant Secretary for Import Administration.

Scope Appendix

A. Description of the Merchandise

The products covered by these orders, antifriction bearings (other than tapered roller bearings), mounted or unmounted, and parts thereof (AFBs), constitute the following classes or kinds of merchandise:

1. Ball Bearings and Parts Thereof: These products include all AFBs that employ balls as the roller element. Imports of these products are classified under the following categories: Antifriction balls, ball bearings with integral shafts, ball bearings (including radial ball bearings) and parts thereof, and housed or mounted ball bearing units and parts thereof. Imports of these products are classified under the following Harmonized Tariff Schedule (HTS) subheadings: 3926.90.45, 4016.93.00, 4016.93.10, 4016.93.50, 6909.19.5010, 8431.20.00, 8431.39.0010, 8482.10.10, 8482.10.50, 8482.80.00, 8482.91.00, 8482.99.05, 8482.99.10, 8482.99.35, 8482.99.6590, 8482.99.70, 8483.20.40, 8483.20.80, 8483.50.8040, 8483.50.90, 8483.90.20, 8483.90.30, 8483.90.70, 8708.50.50, 8708.60.50, 8708.60.80, 8708.70.6060, 8708.70.8050,
