The HTS item numbers are provided for convenience and Customs purposes. They are not determinative of the products subject to the orders. The written description remains dispositive.

Size or precision grade of a bearing does not influence whether the bearing is covered by the orders. These orders cover all the subject bearings and parts thereof (inner race, outer race, cage, rollers, balls, seals, shields, etc.) outlined above with certain limitations. With regard to finished parts, all such parts are included in the scope of these orders. For unfinished parts, such parts are included if (1) they have been heat treated, or (2) heat treatment is not required to be performed on the part. Thus, the only unfinished parts that are not covered by these orders are those that will be subject to heat treatment after importation.

The ultimate application of a bearing also does not influence whether the

bearing is covered by the orders. Bearings designed for highly specialized applications are not excluded. Any of the subject bearings, regardless of whether they may ultimately be utilized in aircraft, automobiles, or other equipment, are within the scope of these orders.

# B. Scope Determinations

The Department has issued numerous clarifications of the scope of the orders. The following is a compilation of the scope rulings and determinations the Department has made.
