SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: Application Requirements under EPA's Building Air Quality Alliance (EPA No. 1742.01). This is a request for initial approval of an information collection.

Abstract: This information collection supports Title IV of the 1986 Superfund Amendments and Reauthorization Act (SARA), "The Radon Gas and Indoor Air Quality Research Act." Under this ICR, facilities voluntarily entering the Building Air Quality Alliance program must comply with certain reporting, monitoring and recordkeeping requirements.

Under this ICR, owners or operators of volunteer facilities must apply by submitting to EPA: (1) A Building Partner Statement of Commitment; and (2) a Building Partner Checklist. Upon acceptance, an updated version of the application material must be submitted annually. By submitting the Building Partner Statement of Commitment, the building volunteer attests that s/he will follow the Alliance's guiding principles and abide by other applicable provisions of the program. The Building Partner Checklist specifies in detail a set of areas that volunteers must inspect in their buildings, to properly implement indoor air quality procedures. In addition, Building Partner facilities must maintain records on the following: (1) Employees trained in indoor air quality maintenance; (2) indoor air

quality course curricula; (3) building information/drawings; (4) communication with tenants/occupants concerning indoor air quality; and (5) building operation procedures.

An estimated 100 facilities will voluntarily enter this program in the first year, 200 in the second year and 275 in the third, with an expected annual renewal rate of 90%. All volunteer facilities must maintain records related to compliance for the entire time that they are participants in this program.

Burden Statement: The annual estimated weighted public burden per facility for this ICR is 6 hours for reporting and 80 hours for recordkeeping. This estimate includes the time needed to review instructions, search existing data sources, gather and maintain the data needed, and complete and review the collection of information.

Estimated No. of Recordkeepers: 100–540

Estimated Total Annual Burden on Recordkeepers: 8,000–37,451 hours. Frequency of Collection: Upon initial application. If accepted, annually.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to: Ms. Sandy Farmer, U.S. Environmental
