finding of no significant hazards consideration.

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated February 15, 1995.

No significant hazards consideration comments received: No.

Local Public Document Room location: Fairfield County Library, 300 Washington Street, Winnsboro, SC 29180.

Tennessee Valley Authority, Docket Nos. 50–259, 50–260, and 50–296, Browns Ferry Nuclear Plant, Units 1, 2, and 3, Limestone County, Alabama

Date of application for amendments: September 29, 1993.

Brief Description of amendment: The proposed changes revise standards for testing of charcoal used for removal of radioactive iodine in ventilation systems at the Browns Ferry Nuclear Plant.

Date of issuance: February 13, 1995. Effective Date: February 13, 1995. Amendment Nos.: 215, 231 and 188. Facility Operating License Nos. DPR-33, DPR-52 and DPR-68: Amendments revised the Technical Specifications.

Date of initial notice in Federal Register: December 22, 1993 (58 FR 67862). The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated February 13, 1995.

No significant hazards consideration comments received: None.

Local Public Document Room Location: Athens Public library, South Street, Athens, Alabama 35611.

Tennessee Valley Authority, Docket No. 50–296, Browns Ferry Nuclear Plant, Unit 3, Limestone County, Alabama

Date of application for amendment: March 29, 1994.

Brief Description of amendment: The amendment adds requirements for load shedding components being added to ensure that emergency diesel generators are not overloaded during design basis accidents.

Date of issuance: February 14, 1995. Effective Date: February 14, 1995. Amendment No.: 189.

Facility Operating License No. DPR-68: Amendment revised the Technical Specifications.

Date of initial notice in Federal Register: August 3, 1994 (59 FR 39597). The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated February 14, 1995.

No significant hazards consideration comments received: None.

Local Public Document Room Location: Athens Public library, South Street, Athens, Alabama 35611. Tennessee Valley Authority, Docket Nos. 50–327 and 50–328, Sequoyah Nuclear Plant, Units 1 and 2, Hamilton County, Tennessee

Date of application for amendments: December 16, 1994; supplemented January 19, 1995 (TS 94–16).

Brief description of amendments: The amendments remove the 900 rpm emergency diesel generator surveillance test criteria and a requirement that the plant be shutdown for performance of the interdependence diesel generator tests

Date of issuance: February 9, 1995.
Effective date: February 9, 1995.
Amendment Nos.: 195 and 186.
Facility Operating License Nos. DPR-77 and DPR-79: Amendments revise the technical specifications.

Date of initial notice in Federal Register: December 29, 1994 (59 FR 67350). The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated February 9, 1995.

No significant hazards consideration comments received: None.

Local Public Document Room location: Chattanooga-Hamilton County Library, 1101 Broad Street, Chattanooga, Tennessee 37402.

Notice of Issuance of Amendments to Facility Operating Licenses and Final Determination of No Significant Hazards Consideration and Opportunity for a Hearing (Exigent Public Announcement or Emergency Circumstances)

During the period since publication of the last biweekly notice, the Commission has issued the following amendments. The Commission has determined for each of these amendments that the application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Because of exigent or emergency circumstances associated with the date the amendment was needed, there was not time for the Commission to publish, for public comment before issuance, its usual 30-day Notice of Consideration of Issuance of Amendment, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing.

For exigent circumstances, the Commission has either issued a **Federal**

Register notice providing opportunity for public comment or has used local media to provide notice to the public in the area surrounding a licensee's facility of the licensee's application and of the Commission's proposed determination of no significant hazards consideration. The Commission has provided a reasonable opportunity for the public to comment, using its best efforts to make available to the public means of communication for the public to respond quickly, and in the case of telephone comments, the comments have been recorded or transcribed as appropriate and the licensee has been informed of the public comments.

In circumstances where failure to act in a timely way would have resulted, for example, in derating or shutdown of a nuclear power plant or in prevention of either resumption of operation or of increase in power output up to the plant's licensed power level, the Commission may not have had an opportunity to provide for public comment on its no significant hazards consideration determination. In such case, the license amendment has been issued without opportunity for comment. If there has been some time for public comment but less than 30 days, the Commission may provide an opportunity for public comment. If comments have been requested, it is so stated. In either event, the State has been consulted by telephone whenever possible.

Under its regulations, the Commission may issue and make an amendment immediately effective, notwithstanding the pendency before it of a request for a hearing from any person, in advance of the holding and completion of any required hearing, where it has determined that no significant hazards consideration is involved.

The Commission has applied the standards of 10 CFR 50.92 and has made a final determination that the amendment involves no significant hazards consideration. The basis for this determination is contained in the documents related to this action. Accordingly, the amendments have been issued and made effective as indicated.

Unless otherwise indicated, the Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments. If the Commission has prepared an environmental assessment under the special circumstances provision in 10 CFR 51.12(b) and has
