## Naval Information Systems Management Center, Arlington, Virginia

Recommendation: Relocate the Naval Information Systems Management Center from leased space in Arlington, Virginia, to the Washington Navy Yard, Washington, D.C.

Justification: The resource levels of administrative activities are dependent upon the level of forces they support. The continuing decline in force levels shown in the FY 2001 Force Structure Plan coupled with the effects of the National Performance Review result in further reductions of personnel in administrative activities. This relocation reduces excess capacity and achieves savings by the movement from leased space to government-owned space, and furthers the Department's policy decision to merge this activity with the Information Technology Acquisition Center which is already housed in the Navy Yard.

Return on Investment: The total estimated one-time cost to implement this recommendation is \$0.1 million. The net of all costs and savings during the implementation period is a savings of \$0.3 million. Annual recurring savings after implementation are \$0.1 million with a return on investment expected in two years. The net present value of the costs and savings over 20 years is a savings of \$1.7 million.

## Impacts:

Economic Impact on Communities: This recommendation will not result in a change in employment in the Washington, DC-Maryland-Virginia-West Virginia PMSA economic area because all affected jobs will remain in that economic area.

Community Infrastructure Impact: There is no known community infrastructure impact at any receiving installation.

Environmental Impact: The relocation of this activity from leased space in the NCR to the Washington Navy Yard will not adversely impact the environment because it is an administrative activity and the relocation concerns only a small number of personnel and office support equipment. There is no adverse impact on threatened/endangered species, sensitive habitat and wetlands, or cultural/historical resources occasioned by this recommendation.
