Board (SAB) will meet on the dates and times described below. All times noted are Eastern Time. Documents that are the subject of SAB reviews are normally available from the originating EPA office and are not available from the SAB Office, unless otherwise specified. All meetings are open to the public, however, due to limited space, seating at meetings will be on a first-come basis.

1. Executive Committee (EC)

The Science Advisory Board's Executive Committee will conduct a public teleconference meeting on Monday, March 20, 1995, between the hours of 1 p.m. and 3 p.m. The meeting will be coordinated through a conference call connection at the Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. Additional instructions about how to participate in the conference call (in person or via telephone) can be obtained by calling Ms. Constance Valentine at (202) 260–6552 or FAX (202) 260–7118 no later than March 13.

This is the first conference call meeting conducted by the Executive Committee. It stems from a recommendation of the Board's selfstudy committee that the SAB explore methods for speeding final action on reports from the Board's various committees. By conducting the final review of reports via conference call that take place between the quarterly face-to-face meetings of the Executive Committee, the production for final SAB reports can be shortened by as much as several weeks.

In this meeting the Executive Committee plans to review three reports from two of its Committees: (1) Environmental Health Committee—(a) Review of the Agency's Reproductive Toxicity Risk Assessment Guidelines and (b) Commentary on the Benchmark Dose; and (2) Drinking Water Committee—Review of the Agency's Arsenic in Drinking Water Document. Copies of these documents are available from Ms. Valentine at the above phone numbers.

Any member of the public wishing further information concerning the meeting or wishing to submit comments should contact Mr. A. Robert Flaak, Acting Designated Federal Official for the Executive Committee, Science Advisory Board (1400F), U.S. Environmental Protection Agency, Washington DC 20460; telephone (202) 260–6552; FAX (202) 260–7118; or via the INTERNET at

FLAAK.ROBERT@EPAMAIL.EPA.GOV.

2. Research Strategies Advisory Committee (RSAC)

The Research Strategies Advisory Committee (RSAC) of the SAB will meet on March 17, 1995, at the Holiday Inn, 550 C Street SW., Washington, DC. The meeting will begin at 8:30 a.m. and end no later than 5 p.m.

The Research Strategies Advisory Committee routinely reviews broad issues related to the planning and management of research activities within the Agency. At this meeting, RSAC will receive briefings on the FY 1996 President's Budget Request for the Office of Research and Development (ORD), the status of several management and reorganization initiatives within ORD, and the Agency's Research Strategic Planning activities. Based on these presentations, RSAC will offer recommendations to the Agency and develop its agenda for formal reviews later in this fiscal year.

Members of the public desiring additional information about the meeting, including a draft agenda, should contact Mrs. Constance Valentine, Staff Secretary, Science Advisory Board (1400F), US EPA, 401 M Street SW., Washington DC 20460, by telephone at (202) 260-6552 or fax at (202) 260–7118. Anyone wishing to submit written comments must forward at least 35 copies of their comments to Dr. Edward S. Bender, Designated Federal Official, at the above address, no later than March 13 for distribution to the Committee and the interested public. Dr. Bender may also be contacted via the INTERNET at: BENDER.EDWARD@EPAMAIL. EPA.GOV.

3. Radionuclide Cleanup Standards Subcommittee (RCSS) of the Radiation Advisory Committee (RAC)

The Radionuclide Cleanup Standards Subcommittee (RCSS) of the Science Advisory Board's (SAB's) Radiation Advisory Committee (RAC), will continue its review of the technical basis of the Agency's Cleanup Standards for Radionuclides with a public teleconference meeting on Monday, March 27, 1995 from 11 am to 1 p.m. The RCSS formally began this review at its first public meeting on the topic on October 27 and 28, 1994 (See Federal Register Vol. 59, No. 191, Tuesday, October 4, 1994, pages 50600-50601), and had a follow-up review meeting on January 26 and 27, 1995 (See Federal Register Vol. 60, No. 5, January 9, 1995, pp. 2386–2387). This teleconference meeting is open to the public, but the number of lines available is limited and available on a first-come basis.

Additional instructions about how to participate in the conference call can be obtained by calling Ms. Diana Pozun at (202) 260–6552 or FAX (202) 260–7118 no later than March 21, 1995.

The draft documents that are the subject of this review are available from the originating EPA office (see below) and are not available from the SAB Office. These draft documents are: (1) Radiation Site Cleanup Regulations: Technical Support Document for the Development of Radionuclide Cleanup Levels for Soil, Review Draft, September, 1994. and (2) Radiation Site Cleanup Regulations: Technical Support Document for the Development of Radionuclide Cleanup Levels for Soil, Appendices, September 1994.

To discuss technical aspects of the draft documents, please contact Dr. Anthony B. Wolbarst, Chief, Remedial Guidance Section, Office of Radiation and Indoor Air (ORIA) (6603J), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460, tel. (202) 233-9392. To simply obtain copies of the draft documents, please contact Ms. Virginia Stradford, Secretary, at (202) 233–9350, FAX (202) 233–9650. The background documents that support this review, as well as the draft documents listed above are available in the Agency's Air and Radiation Docket. Please address written inquiries as follows: USEPA, Attn: Air and Radiation Docket, Mail Stop 6102, Air Docket No. A-93-27, Room M1500, First Floor, Waterside Mall, 401 M Street SW, Washington, DC 20460. The docket may be inspected from 8 a.m. to 4 p.m., Monday through Friday, excluding Federal holidays, in Room M1500. A reasonable fee may be charged for copies of docket materials. Inquiries regarding access to the public information docket should be directed to Ms. Lynn Johnson, ORIA Staff at (202) 233–9383.

The charge to the SAB is as follows: (a) Is the methodology used by the Office of Radiation and Indoor Air (ORIA) for evaluating source terms for radioactively contaminated sites, for modeling transport to people, and for estimating risk to individuals and populations acceptable for providing a technical basis for writing a cleanup standard?

(b)(1) Are the assumptions for the combined residential/agricultural land use scenario, and the pathways model, reasonable and suitable for assessing risk at radioactively contaminated sites?

(2) Are the assumptions for the combined industrial/commercial land use scenario, and the pathways model, reasonable and suitable for assessing risk at radioactively contaminated sites?
