other light source or reflections of light that interfere with, or prohibit the accurate quality determination of eggs in the grading or candling area.

- (2) The grading and candling equipment shall provide adequate light to facilitate quality determinations. Other light sources and equipment or facilities shall be provided to permit the detection and removal of stained and dirty eggs or other undergrade eggs.
- (3) Adequate facilities, equipment, and light sources shall be provided to determine the condition of packing material.
- (4) Egg weighing equipment shall be provided. The egg weighing equipment shall be constructed to permit cleaning; operation in a clean, sanitary manner; and shall be capable of ready adjustment.
- (5) Adequate ventilation shall be provided.

\* (e) \* \* \*

(10) Washed eggs shall be sprayrinsed with water having a temperature equal to, or warmer than, the temperature of the wash water and contain an approved sanitizer of not less than 50 p/m nor more than 200 p/m of available chlorine or its equivalent. Alternate procedures, in lieu of a sanitizer rinse, may be approved by the National Supervisor.

## §§ 56.226, 56.227, and 56.228 [Removed and Reserved]

- 9. Sections 56.226, 56.227, and 56.228 are removed and reserved.
- 10. Section 56.230 is revised to read as follows:

#### § 56.230 Grade.

"U.S. Nest-Run \_% AA Quality" shall consist of eggs of current production of which at least 20 percent are AA quality; and the actual percentage of AA quality eggs shall be stated in the grade name. Within the

maximum of 15 percent which may be below A quality, not more than 10 percent may be B quality for shell shape, pronounced ridges or thin spots, interior quality (including meat or blood spots), or due to rusty or blackishappearing cage marks or blood stains, not more than 5 percent may have adhering dirt or foreign material on the shell ½ inch or larger in diameter, not more than 6 percent may be Checks, and not more than 3 percent may be Loss. Marks which are slightly gray in appearance and adhering dirt or foreign material on the shell less than 1/2 inch in diameter are not considered quality factors. The eggs shall be officially graded for all other quality factors. No case may contain less than 75 percent A quality and AA quality eggs in any combination.

11. Section 56.231 is amended by revising Table 1 to read as follows:

## § 56.231 Summary of grade.

\*

	Nest-run grade, description <sup>1</sup>	U.S. nest- run percent AA quality <sup>2</sup>
Minimum percentage of quality required (lot average) 3	AA quality <sup>4</sup>	20
- 3 - /	A quality or better <sup>5</sup>	85
Maximum percentage toler- ance permitted (15 per- cent lot average) <sup>3</sup>	B quality for shell shape, pronounced ridges or thin spots, interior quality (including blood & meat spots) or cage marks <sup>6</sup> and blood stains.	10
3-,	Checks	6
	Loss	3
	Adhering dirt or foreign material ½ inch or larger in diameter	5

<sup>1</sup> Stains (other than rusty or blackish appearing cage marks or blood stains), and adhering dirt and foreign material on the shell less than ½ inch in diameter shall not be considered as quality factors in determining the grade designation.

<sup>2</sup>The actual total percentage must be stated in the grade name

<sup>3</sup> Substitution of eggs of higher qualities for lower specified qualities is permitted.

<sup>4</sup> No case may contain less than 10 percent AA quality.

<sup>5</sup>No case may contain less than 75 percent A quality and AA quality eggs in any combination.

<sup>6</sup> Cage marks which are rusty or blackish in appearance shall be considered as quality factors. Marks which are slightly gray in appearance are not considered as quality factors.

12. Section 56.234 is amended by revising paragraph (c) to read as follows:

### § 56.234 Packaging material.

(c) Sealing: The tops of all cases must be securely closed, so they will not open during transportation, by applying paper gummed, plastic, or other suitable tape or by methods that would secure seams made by the closing of the top of the case. The tape shall extend down the sides and/or ends of the case a sufficient length to preclude the top flaps from opening while permitting the official identification of the case, as applicable.

Dated: March 1, 1995.

# [FV95-989-1IFR]

**Raisins Produced From Grapes Grown** In California; Final Free and Reserve Percentages for the 1994-95 Crop Year for Zante Currant and Other Seedless Raisins

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Interim final rule with request for comments.

**SUMMARY:** This interim final rule invites comments on the establishment of final free and reserve percentages for 1994 crop Zante Currant and Other Seedless raisins. The percentages are 40 percent free and 60 percent reserve for each of these varietal types. These percentages are intended to stabilize supplies and prices and to help counter the destabilizing effects of the burdensome oversupply situation facing the raisin industry. This rule was recommended by the Raisin Administrative Committee (Committee), the body which locally administers the marketing order.
