maintenance plan as required by 175A of the Clean Air Act, as amended in 1990. Elements of the section 175A maintenance plan include a base year (1993 attainment year) emission inventory for NO_X and VOC, a demonstration of maintenance of the ozone NAAQS with projected emission inventories (including interim years) to the year 2005 for NO_X and VOČ, a plan to verify continued attainment, a contingency plan, and an obligation to submit a subsequent maintenance plan revision in 8 years as required by the Clean Air Act. If the area records a violation of the ozone NAAQS (which must be confirmed by the State), Michigan will implement one or more appropriate contingency measure(s)

which are contained in the contingency plan. Appropriateness of a contingency measure will be determined by an urban airshed modeling analysis. The Governor or his designee will select the contingency measure(s) to be implemented based on the analysis and the MDNR's recommendation. The menu of contingency measures includes basic motor vehicle inspection and maintenance program upgrades, Stage I vapor recovery expansion, Stage II vapor recovery, intensified RACT for degreasing operations, NO_X RACT, and RVP reduction to 7.8 psi. The redesignation request and maintenance plan meet the redesignation requirements in sections 107(d)(3)(E) and 175A of the Act as amended in

1990, respectively. The redesignation meets the Federal requirements of section 182(a)(1) of the Clean Air Act as a revision to the Michigan Ozone State Implementation Plan for the above mentioned counties.

PART 81—[AMENDED]

1. The authority citation for part 81 continues to read as follows:

Authority: 42 U.S.C. 7401-7671q.

2. In §81.323 the ozone table is amended by revising the entry for the Detroit-Ann Arbor area for ozone to read as follows:

§81.323 Michigan.

MICHIGAN—OZONE

[IL001; FRL-5164-6]

Clean Air Act Final Interim Approval of Operating Permits Program; Illinois

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final interim approval.

SUMMARY: The EPA is promulgating interim approval of the Operating Permits Program submitted by Illinois for the purpose of complying with Federal requirements for an approvable State program to issue operating permits to all major stationary sources, and to certain other sources.

EFFECTIVE DATE: March 7, 1995. **ADDRESSES:** Copies of the State's submittal and other supporting information used in developing the final interim approval are available for inspection during normal business

hours at the following location: United States Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, AR-18J, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Jennifer Buzecky, 77 West Jackson Boulevard, Permits and Grants Section AR-18J, Chicago, Illinois 60604, (312) 886-3194

SUPPLEMENTARY INFORMATION:

I. Background and Purpose

A. Introduction

Title V of the 1990 Clean Air Act Amendments (sections 501-507 of the Clean Air Act ("the Act")), and implementing regulations at 40 Code of Federal Regulations (CFR) Part 70 require that States develop and submit operating permits programs to EPA by November 15, 1993, and that EPA act to approve or disapprove each program within 1 year after receiving the submittal. The EPA's program review occurs pursuant to section 502 of the Act and the part 70 regulations, which together outline criteria for approval or

disapproval. Where a program substantially, but not fully, meets the requirements of part 70, EPA may grant the program interim approval for a period of up to 2 years. If EPA has not fully approved a program by 2 years after the November 15, 1993 date, or by the end of an interim program, it must establish and implement a Federal program.

On September 30, 1994, EPA proposed interim approval of the operating permits program for Illinois. See 59 FR 49882. The EPA received public comment on the proposal, and compiled a Technical Support Document (TSD) which describes the operating permits program in greater detail. In this notice EPA is taking final action to promulgate interim approval of the operating permits program for Illinois.

II. Final Action and Implications

A. Analysis of State Submission

The EPA received comments from a total of four organizations. The EPA's response to these comments is summarized in this section. Comments
