(PM) 21, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 229, CM #2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305–6900.

SUPPLEMENTARY INFORMATION: EPA issued a notice, which was published in the Federal Register of October 27, 1993 (58 FR 57827), announcing the establishment of temporary tolerances for the combined residues of the fungicide Iprodione [3-(3,5dichlorophenyl)-N-(methylethyl)-2,4dioxo-1-imidazolidinecarboximide] and its isomer [3-(1-methylethyl)-N-(3,5dichlorophenyl)-2,4-dioxo-1imidazolidinecarboximidel, and its metabolite [3-(3,5-dichlorophenyl)-2,4dioxo-1-imidazolidinecarboximide] in or on the raw agricultural commodities tangerines and tangelos at 3.0 parts per million (ppm). These tolerances were issued in response to pesticide petition (PP) 3G4210, submitted by Rhone-Poulenc Ag Co., P.O. Box 12014, 2 T.W. Alexander Drive, Research Triangle Park, NC 27709.

These temporary tolerances have been extended to permit the continued marketing of the raw agricultural commodities named above when treated in accordance with the provisions of experimental use permit 264–EUP–94, which is being extended under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (Pub. L. 95–396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that the extension of these temporary tolerances will protect the public health. Therefore, the temporary tolerances have been extended on the condition that the pesticide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.

2. Rhone-Poulenc Ag Co., must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These tolerances expire April 15, 1996. Residues not in excess of this amount remaining in or on the raw

agricultural commodities after this expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerances. These tolerances may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirements of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–354, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

Authority: 21 U.S.C. 346a(j).

## Mycotech Corp.; Application to Register a Pesticide Product

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces receipt of an application submitted by Mycotech Corporation to register a pesticide product containing an active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

**DATES:** Written comments must be submitted by April 7, 1995.

**ADDRESSES:** By mail, submit written comments identified by the document

control number [OPP–30382] and the file number (65626–T), to: Public Response and Program Resources Branch, Field Operations Divisions (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Environmental Protection Agency, Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4 p.m., Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Janet L. Andersen, Acting Director, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. CS51B6, Westfield Building North Tower, 2800 Crystal Drive, Arlington, VA 22202, (703–308–8712).

SUPPLEMENTARY INFORMATION: EPA received an application from Mycotech Corp., 630 Utah Avenue, P.O. Box 4109, Butte, MT 59702, to register the pesticide product Mycotrol WP Biological Insecticide (EPA File Sybmol 65626-T), containing the active ingredient Beauvaria bassiana Strain GHA, an ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(4) of FIFRA. This product is proposed for use to control whiteflies, aphids, thrips, fungus psyllids, and mealybugs on vegetables, fruits, tree nuts, agronomic crops, herbs, ornamentals, turf, and forestry. Notice of receipt of this application does not imply a decision by the Agency on the application.

Notice of approval or denial of an application to register a pesticide product will be announced in the **Federal Register**. The procedure for requesting data will be given in the **Federal Register** if an application is approved.
