PTP Transmission System revenues subsequently received by Bonneville for use of such facilities.

4.5 Reservation Charge

The Customer may pay a Reservation Charge pursuant to PT–95 or its successor in Appendix A, to preserve its priority for service with respect to other Applicants and Customers.

4.6 Transmission Losses

Transmission losses shall be determined on the basis of average estimated system losses. The Customer shall compensate Bonneville for losses by either providing additional energy to compensate for losses associated with the scheduled capacity or by buying losses from Bonneville in accordance with the Firm Power Products and Services (FPS–95) rate schedule or its successor in Appendix A.

4.7 Reactive Charge

The Customer shall pay for reactive power necessary to provide transmission services under this Tariff pursuant to the PTP Firm Transmission rate (PT–95) or its successor.

4.8 Control Area Services Charge

If a Customer elects to purchase Control Area services from Bonneville pursuant to the Ancillary Services in section 2.5, the Customer shall pay for such services pursuant to the FPS–95 rate schedule or its successor.

4.9 Revision to Rates, Charges, and Loss Factors

Bonneville may periodically revise rates, charges, and transmission loss factors and apply such revisions to its Service Agreements.

4.10 Commencement of Service

Within 30 days of the receipt of notice from Bonneville that service can commence, the Customer shall commence paying the Transmission Charge or Dual Transmission Charge and any other rates or charges required by section 4 hereof. Failure to do so will result in forfeiture by the Customer of all deposits and security and require immediate payment of any cost incurred by Bonneville to furnish the requested Network PTP Transmission Service; and the Customer's Application will no longer be considered valid or pending.

5. Initiating Service

5.1 Conditions Precedent for Receiving Service

Subject to the terms and conditions of this Tariff, Bonneville shall provide Network PTP Transmission Service over the Network PTP Transmission System Facilities to any Eligible Customer, provided that: (i) the Eligible Customer has completed an Application for Network PTP Transmission Service as provided below in section 5.2; (ii) the Eligible Customer and Bonneville have completed the technical arrangements set forth in section 9.4 below; and (iii) the Eligible Customer has executed a Service Agreement.

5.2 Application Procedures

For transactions of 1 month up to 1 year an Eligible Customer requesting service under this Tariff must submit a completed application to: Bonneville Power Administration, Attention: Manager, Short-Term Contracts; P.O. Box 491; Vancouver, Washington, 98666–0491.

For transactions of 1 year or more an Eligible Customer requesting Service under this Tariff must submit a completed Application to: Bonneville Power Administration, Attention: Manager, Transmission Business; Bonneville Power Administration; P.O. Box 3621; Portland, Oregon, 97208–3621. In order for an Application hereunder to be considered a "good faith request" for transmission service in accordance with the provisions of Section 213 of the FPA, the Application must contain the following information:

- (a) The identity, address, and telephone number of the Applicant requesting a Network PTP Transmission Service:
- (b) A statement that the entity requesting Network PTP Transmission Service hereunder is, or will be upon commencement of service, an Eligible Customer under this Tariff.
- (c) The name and title of the contact person for the Applicant.
- (d) The identity of the Delivering Party and the identity of the Receiving Party;
- (e) The Primary Point(s) of Interconnection and the Primary Point(s) of Delivery;
- (f) The proposed dates for initiating and terminating PTP Transmission Service hereunder;
- (g) The Transmission Demand, expected load profile and load characteristics;
- (h) The identity of the initial source of the power to be transmitted pursuant to the Application; and
- (i) The identity of the Control Area in which the ultimate consumer of power is located.

Bonneville will notify the Applicant of receipt of the Application within 10 days of receipt. Bonneville reserves the right to ask for additional information necessary to determine the availability of transmission capacity and reliability impacts.

5.3 Notice of Deficient Application

If an Application fails to meet the requirements of this Tariff, Bonneville shall notify the party requesting service within 10 days of receipt of the Application of the reasons for such failure. Bonneville will attempt to remedy minor deficiencies in the Application through informal communications with the Eligible Customer. If such efforts are unsuccessful. Bonneville shall return the Application. Upon receipt of a new or revised Application that fully complies with the requirements of this Tariff, the Eligible Customer shall be assigned a new priority consistent with the date of the new or revised Application.

5.4 Identity of Ultimate Consumer

The Applicant may be required to identify the ultimate consumer of the power to be transmitted if such information is necessary for Bonneville to determine, pursuant to section 7 hereof, whether adequate transmission capacity will be available on its Network PTP Transmission System Facilities to provide the service initially and for the full term of the transaction requested by the Applicant. If the Applicant objects to a request by Bonneville under sections 5.3 or 5.4 that it provide the name of the ultimate consumer, then Bonneville shall have the right to seek an order from the Commission allowing Bonneville to require the Applicant to provide Bonneville with the identity of the ultimate consumer and the parties cannot otherwise resolve their differences, the Applicant may proceed under the provisions of section 19.

5.5 Mutually Exclusive Applications for Same Service

In order to determine whether Applications for Network PTP Transmission Service hereunder are duplicative or mutually exclusive of Applications filed by other parties, Bonneville may request further information, including, by way of illustration, a statement as to whether the Application is being made in response to a competitive solicitation. If certain requests for Network PTP Transmission Service give Bonneville a reasonable basis to believe that such requests are mutually exclusive, Bonneville may ask the Applicant making such a request to identify the ultimate purchaser of power and, if appropriate under the circumstances, Bonneville may contact the ultimate
