NA–227). The Navajo Nation submitted the proposed amendment at its own initiative and in response to the final rule **Federal Register** notice acknowledging that the Navajo Nation would amend its AMLR Code of 1987 to provide for the reclamation of interim program coal sites (59 FR 49178, 48181, finding No. 1(f), September 27, 1994; administrative record No. NA–225). The Navajo Nation proposed the addition of new language at section 404(b) of its AMLR Code to provide for such reclamation.

OSM announced receipt of the proposed amendment in the February 10, 1995, **Federal Register** (60 FR 7926), provided an opportunity for a public hearing or meeting on its substantive adequacy, and invited public comment on its adequacy (administrative record No. NA–232). Because no one has requested a public hearing or meeting, none has been held. The public comment period ends on March 10, 1995.

OSM would like to take this opportunity to correct an error in the February 10, 1995, **Federal Register** document. In the first column on page 7927, part of the original language of the proposed amendment submitted by the Navajo Nation is incorrectly cited. Subsection 404(b)(4) should read as follows:

The site qualifies as a priority one or two site pursuant to section 403(a) (1) and (2) of SMCRA. Priority will be given to those sites which are in the immediate vicinity of a residential area or which have an adverse economic impact upon a community.

During its review of the proposed amendment, OSM identified concerns relating to the provisions of the Navajo AMLR Code of 1987 at section 404(b)(2) pertaining to (1) the dates used to define interim program coal sites, and (2) the requirement that a determination be made that any funds available for reclamation or abatement pursuant to a bond or other form of financial guarantee or from any other source are not sufficient to provide for adequate reclamation or abatement at the site. OSM notified the Navajo Nation of the concerns in a telephone conversation on February 23, 1995 (administrative record No. NA-233). The Navajo Nation responded in a letter dated February 23, 1995, by submitting a revised amendment (administrative record No. NA-234).

The Navajo Nation proposes revisions to section 404(b)(2) of the Code as it pertains to the dates used to define interim program coal sites, and the addition of the requirement that there be insufficient funds for completion of reclamation or abatement activities.

# **IV. Public Comment Procedures**

OSM is extending by an additional 15 days the comment period on the proposed Navajo plan amendment to provide the public an opportunity to reconsider the adequacy of the proposed amendment in light of the additional materials submitted. In accordance with the provisions of 30 CFR 884.14 and 884.15(a), OSM is seeking comments on whether the proposed amendment satisfies the applicable plan approval criteria of 30 CFR 884.14. If the amendment is deemed adequate, it will become part of the Navajo plan.

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under **DATES** or at locations other than the Albuquerque Field Office will not necessarily be considered in the final rulemaking or included in the administrative record.

# V. Procedural Determinations

## 1. Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

## 2. Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State or Tribal AMLR plans and revisions thereof since each such plan is drafted and promulgated by a specific State or Tribe, not by OSM. Decisions on proposed State or Tribe AMLR plans and revisions thereof submitted by a State or Tribe are based on a determination of whether the submittal meets the requirements of Title IV of SMCRA (30 U.S.C. 1231-1243) and the applicable Federal regulations at 30 CFR Parts 884 and 888.

# 3. National Environmental Policy Act

No environmental impact statement is required for this rule since agency decisions on proposed State or Tribe AMLR plans and revisions thereof categorically excluded from compliance with the National Environmental Policy Act (42 U.S.C. 4332) by the Manual of the Department of the Interior (516 DM 6, appendix 8, paragraph 8.4B(29)).

# 4. Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

# 5. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The Tribal submittal which is the subject of this rule is based upon Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements established by SMCRA or previously promulgated by OSM will be implemented by the Tribe. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions in the analyses for the corresponding Federal regulations.
