SUPPLEMENTARY INFORMATION: On October 26, 1994 (59 FR 53884), OSM published a proposed rule which would amend its regulations in response to a petition for rulemaking. The rulemaking would require that the regulatory authority provide to each person who was a party to an informal conference its written findings granting, requiring modification of, or denying a permit application. The rulemaking would also require both that an approved permit contain in its permit area only lands for which the applicant has established a right-to-enter and commence surface coal mining and reclamation operations, and that compliance with an approved permit be based on activities to be conduced solely upon such lands.

On December 23, 1994 (59 FR 66286), as a result of a commenter's request, the comment period was extended to February 27, 1995. OSM has received requests to hold a public hearing on the proposed rule. Therefore, in order to accommodate the public hearing, OSM will reopen the comment period. Comments will now be accepted until 5 p.m. local time on March 23, 1995.

Refer to **DATES** and **ADDRESSES** for the times, dates and locations for the hearing. The hearing will continue until all persons wishing to testify have been heard. To assist the transcriber and ensure an accurate record, OSM requests that persons who testify at a hearing give the transcriber a written copy of their testimony.
