TABLE 2.—RECREATIONAL MANAGEMENT MEASURES FOR 1995 OCEAN SALMON FISHERIES (Continued)

[B. Minimum size limits (Total Length in Inches)*]

	Chinook	Coho	Pink
North of Cape Falcon	20.0 20.0	16.0	None. None, except 20.0 off California.

^{*}Metric equivalents: 20.0 inches=50.8 cm, 16.0 inches=40.6 cm.

- C. Special Requirements, Restrictions and Exceptions
- C.1. Hooks—Single point, single shank barbless hooks are required north of Point Conception, California (34°27′00″ N. latitude).
- C.2. Gear Restriction Between Cape Falcon and Humbug Mountain—Legal gear limited to artificial plugs or whole bait, either of which must be no less than 6 inches (15.2 cm) long; nonpainted weights and no more than 2 single point, single shank barbless hooks allowed on whole bait or artificial plugs; all attractors, including divers, are prohibited.
- C.3. Control Zone 1—The ocean area surrounding the Columbia River mouth bounded by a line extending for 6 nautical miles (11.1 km) due west from North Head along 46°18′00″ N. latitude to 124°13′18″ W. longitude, then southerly along a line of 167° True to 46°11′06″ N. latitude and 124°11′00″ W. longitude (Columbia River Buoy), then northeast along Red Buoy Line to the tip of the south jetty.

 C.4. Control Zone 2—The area immediately
- C.4. Control Zone 2—The area immediately adjacent to the mouth of Tillamook Bay is closed as established by the Oregon Department of Fish and Wildlife in state regulations.
- C.5. Control Zone 3—The ocean area surrounding the Klamath River mouth bounded on the north by 41°38′48″ N. latitude (approximately 6 nautical miles north of the Klamath River mouth), on the west by 124°23′00″ W. longitude (approximately 12 nautical miles off shore),

- and on the south by 41°26′48″ N. latitude (approximately 6 nautical miles south of the Klamath River mouth), is closed August 16–31. (6 nautical miles=11.1 km, 12 nautical miles=22.2 km)
- C.6. Control Zone 4 (Sacramento River Winter Chinook Conservation Closure)—The ocean area bounded by a line commencing at Bolinas Point (Marin County, 37°54′17″ N. latitude, 122°43′35″ W. longitude) southerly to Duxbury Buoy to Channel Buoy 1 to Channel Buoy 2 to Point San Pedro (San Mateo County, 37°35′40″ N. latitude, 122°31′10″ W. longitude) is closed from the opening of the season in 1996 through March 31.
- C.7. Inseason Management—To meet preseason management objectives such as quotas, harvest guidelines and season duration, certain regulatory modifications may become necessary inseason. Such actions could include modifications to bag limits or days open to fishing and extensions or reductions in areas open to fishing. In addition, NMFS may make inseason adjustments to fisheries north of Cape Falcon which are consistent and complementary to Council spawner escapement objectives in the event that management agreements or understandings with Canada warrant reevaluation of the Council's assumptions about prior interceptions.

The procedure for inseason transfer of coho among recreational subareas north of Cape Falcon will be as follows:

After conferring with representatives of the affected ports and the Salmon Advisory

Subpanel recreational representatives north of Cape Falcon, NMFS may transfer coho inseason among recreational subareas to help meet the recreational season duration objectives (for each subarea). Any transfers between subarea quotas of 5,000 fish or less shall be done on a fish-for-fish basis.

C.8. Consistent with Council management objectives, the State of Oregon may establish limited, all-salmon-except-coho fisheries inside state waters. Fall fisheries under consideration (mid-September through November) include areas at the mouths of Tillamook, Yaquina and Coos bays, and at the mouths of the Elk and Chetco rivers.

C.9. Consistent with Council management objectives, the State of Washington may establish limited fisheries in state waters.

D. Quotas

D.1. North of Cape Falcon—All non-treaty troll and recreational ocean fisheries will be limited by either (a) an overall 0 chinook quota or (b) impacts on critical Washington coastal and Puget Sound natural coho stocks equivalent to the preseason quota of 75,000 coho. The recreational fishery will be limited by overall catch quotas of 0 chinook and 56,250 coho.

D.2. Humbug Mountain to Horse Mountain—Limited by harvest quotas of 10,600 chinook in May–July, and 900 chinook in August. If the May–July quota is exceeded by more than 10 percent, the amount over 10 percent will be deducted from the August quota.

TABLE 3.—TREATY INDIAN MANAGEMENT MEASURES FOR 1995 OCEAN SALMON FISHERIES

Tribe and area boundaries	Open seasons	Salmon species	Minimum size limit (inches)*		Special restrictions by		
			Chinook	Coho	area		
A. Seasons, Species, Minimum Size Limits, and Gear Restrictions							
Makah—That portion of the Fishery Management Area (FMA) north of 48°02′15" N. latitude (Nor- wegian Memorial) and east of 125°44′00" W. longitude.	overall chinook guideline. August 1 thru earliest of Septem-	All except coho	24 24	16	Barbless hooks. No more than 8 fixed lines per boat or no more than 4 hand- held lines per per- son.		
Quileute—That portion of the FMA between 48°07'36" N. latitude (Sand Point) and 47°31'42" N. latitude (Queets River) east of 125°44'00" W. longitude.	May 1 thru earlier of May 31 or overall chinook guideline. August 1 thru earliest of September 30 or chinook or coho quota	All except coho	24 24	16	Barbless hooks. No more than 8 fixed lines per boat.		
Hoh—That portion of the FMA between 47°54′18″ N. latitude (Quillayute River) and 47°21′00″ N. latitude (Quinault River) east of 125°44′00″ W. longitude.	May 1 thru earlier of May 31 or overall chinook guideline. August 1 thru earliest of September 30 or chinook or coho quota	All except coho	24 24	16	Barbless hooks. No more than 8 fixed lines per boat.
