

**[Project No. 1986 Oregon]****Oregon Trail Electric Consumers Cooperative Inc.; Notice Soliciting Applications**

June 1, 1995.

On July 1, 1991, Oregon Trail Electric Consumers Inc., licensee for the Rock Creek Hydroelectric Project No. 1986, filed a notice of intent to file an application for a new license, pursuant to Section 15(b)(1) of the Federal Power Act (Act). The original license for Project No. 1986 was issued effective June 30, 1946, and expires June 29, 1996. The project occupies 6.29 acres of lands of the United States within the Whitman National Forest.

The project is located on the Rock Creek, a tributary of the Powder River, in Baker County, Oregon. The principal project works consist of: (a) a low concrete diversion dam; (b) a 8,800-foot-long flume; (c) a regulating forebay of about 7-acre-feet; (d) a 2,720-foot-long penstock; (e) a powerhouse with a total installed capacity of 800 kW; (f) a transmission line; and (g) appurtenant facilities.

The licensee did not file an application for new license which was due by June 29, 1994. Pursuant to Section 16.25 of the Commission's Regulations, the Commission is soliciting applications from potential applicants other than the existing licensee. This is necessary because the deadline for filing an application for new license and any competing license applications, pursuant to Section 16.20 of the regulations, was June 29, 1994, and no other applications for license for this project were filed.

Pursuant to § 16.19 of the Commission's Regulations, the licensee is required to make available certain information described in Section 16.7 of the regulations. Such information is available from the licensee at 3275 Baker Street, Baker City, OR 97814.

A potential applicant that files a notice of intent within 90 days from the date of issuance of this notice: (1) may apply for a license under part I of the Act and part 4 (except Section 4.38) of the Commission's Regulations within 18 months of the date on which it files its notice; and (2) must comply with the requirements of Section 16.8 of the Commission's Regulations.

**[Project No. 2931, Maine]****S. D. Warren Co.; Notice of Intent To File an Application for a New License**

June 1, 1995.

Take notice that the S. D. Warren Company, the existing licensee for the Gambo Power Station, Project No. 2931, filed a timely notice of intent to file an application for a new license, pursuant to 18 CFR 16.6 of the Commission's Regulations. The original license for Project No. 2931 was issued effective April 1, 1962, and expires April 31, 2000.

The project is located on the Presumpscot River in Cumberland County, Maine. The principal works of the Gambo Project include a 250-foot-long, 24-foot-high concrete overflow dam; a reservoir with a normal water surface elevation of 138.8 feet m.s.l.; a structure with sluice gates; a 15-foot-deep, 737-foot-long concrete lined canal; a concrete and brick powerhouse containing two 950-Kw generators; generator leads, step-up transformer, and an eight-mile-long transmission line; and appurtenant facilities.

Pursuant to 18 CFR 16.7, the licensee is required henceforth to make available certain information to the public. This information is now available from the licensee at 89 Cumberland Street, P.O. Box 5000, Westbrook, Maine 04098-1597.

Pursuant to 18 CFR 16.8, 16.9 and 16.10, each application for a new license and any competing license applications must be filed with the Commission at least 24 hours prior to the expiration of the existing license. All applications for license for this project must be filed by August 31, 1998.
