The following provisions apply to existing and new direct discharge PFPR/Manufacturers only:

## Effluent Limitations Guidelines Representing the Degree of Effluent Reduction Attainable by the Application of the Best Available Technology Economically Achievable (BAT) for Subcategory C

(a) Except as provided in 40 CFR 125.30 through 125.32, and as provided in paragraph (b) of this section, any existing point source subject to this subpart which must achieve effluent limitations representing the degree of effluent reduction attainable by the application of the best available technology economically achievable: There shall be no discharge of process wastewater pollutants.

(b) Any existing pesticides formulating, packaging and repackaging facility may use the Pollution Prevention Alternative when it demonstrates that it has met the requirements of the Pollution Prevention Alternative listed on Table B-1 and Table B-2 (or received a modification for requirements on Table B-2) and has notified their NPDES permit writer at renewal or modification of their permit and has kept any necessary paperwork on-site and readily available for the permitting authority. This paperwork shall: (1) Describe the facility specific practices which are to be practiced as part of the Pollution Prevention Alternative; (2) describe any justification allowing modification to practices listed on Table B-2; (3) include a written discussion demonstrating that the treatment system being used contains the appropriate treatment technologies for removing

PAIs; (4) establish a method for demonstrating to the pretreatment authority that the treatment system is well operated and maintained; and (5) include a discussion of the rationale for choosing the method of demonstration. Any existing source must achieve effluent limitations representing the degree of effluent reduction attainable by the application of the best available technology economically achievable: There shall be allowed a pollution prevention allowable discharge of wastewater pollutants, as defined in the Specialized Definition Section.

New Source Performance Standards (NSPS) for Subcategory C

- (a) Any new source, except as provided in paragraph (b) of this section, subject to this subpart which discharges process wastewater must meet the following standards: There shall be no discharge of process wastewater.
- (b) Any new pesticides formulating, packaging and repackaging facility may use the Pollution Prevention Alternative when it demonstrates that it has met the requirements of the Pollution Prevention Alternative listed on Table B-1 and Table B-2 (or received a modification for requirements on Table B-2) and has notified the NPDES permit writer through the application process and has kept any necessary paperwork on-site and readily available for permitting authorities. This paperwork shall: (1) Describe the facility specific practices which are to be practiced as part of the Pollution Prevention Alternative; (2) describe any justification allowing modification to practices listed on Table B-2; (3) include a written discussion

demonstrating that the treatment system being used contains the appropriate treatment technologies for removing PAIs; (4) establish a method for demonstrating to the pretreatment authority that the treatment system is well operated and maintained; and (5) include a discussion of the rationale for choosing the method of demonstration. Any wastewater from the formulating, packaging and repackaging of pesticides at any new facility which has been described in this paragraph which discharges process wastewater must meet the following standards: There shall be allowed a pollution prevention allowable discharge of wastewater pollutants, as defined in the Specialized Definition Section.

## Subcategory E—Repackaging of Agricultural Pesticides Performed by Repackaging Establishments

Applicability; Description of the Repackaging Establishment Subcategory

- (a) The provisions of this subpart are applicable to discharges resulting from all repackaging of agricultural pesticide products into refillable containers that occurs at repackaging establishments, as defined in the General Definitions Section except as provided in paragraphs (b), and (c) of this section.
- (b) The provisions of this subpart do not apply to wastewater discharges from the operation of employee showers and laundry facilities; and testing of fire protection equipment, safety showers and eye washes.
- (c) The provisions of this subpart do not apply to wastewater discharges from the repackaging of microorganisms, as defined under General Definitions.
