## Privacy Act of 1974; Transfer of Records

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice of transfer of records subject to the Privacy Act to the National Archives.

**SUMMARY:** Records retrievable by personal identifiers which are transferred to the National Archives of the United States are exempt from most provisions of the Privacy Act of 1974 (5 U.S.C. 552a) except for publication of a notice in the **Federal Register**. NARA publishes a notice of the records newly transferred to the National Archives of the United States which were maintained by the originating agency as a system of records subject to the Privacy Act.

**FOR FURTHER INFORMATION CONTACT:** Dr. Michael Kurtz, Assistant Archivist for the National Archives, on (301) 713-7000.

**SUPPLEMENTARY INFORMATION:** In accordance with section (l)(1)(3) of the Privacy Act, archival records transferred from executive branch agencies to the National Archives of the United States are not subject to the provisions of the Act relating to access, disclosure, and amendment. The Privacy Act does require that a notice appear in the **Federal Register** when executive branch systems of records retrievable by personal identifiers are transferred to the National Archives of the United States. After transfer of records retrievable by personal identifiers to the National Archives of the United States, NARA does not maintain these records as a separate system of records. NARA will attempt to locate specific records about an individual in any system of records described in a Privacy Act Notice as being part of the National Archives of the United States. Furthermore, records in the National Archives of the United States may not be amended, and NARA will not consider any requests for amendment.

Archival records maintained by NARA are arranged by Record Group depending on the agency of origin. Within each Record Group, the records are arranged by series, thereunder generally by filing unit, and thereunder by document or groups of documents. The arrangement at the series level or below is generally the one used by the originating agency. Usually, a system of records corresponds to a series.

In this notice, each system is identified by the system name used by the executive branch agency that accumulated the records. That system name is followed by information in parentheses about the National Archives Record Group to which records in the system have been allocated. In the section of the notice covering categories of records in the system, the specific segment of the system transferred to the National Archives is identified by the accession number assigned to the system segment when it was transferred to the National Archives and the series title associated with the system in the National Archives.
