SUPPLEMENTARY INFORMATION: This final rule is issued under Marketing Agreement and Order No. 985 (7 CFR part 985), regulating the handling of spearmint oil produced in the Far West. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the Act.

The Department is issuing this rule in conformance with Executive Order 12866.

This final rule has been reviewed under Executive Order 12778, Civil Justice Reform. Under the marketing order provisions now in effect, spearmint oil produced in the Far West is subject to assessments. It is intended that the assessment rate specified herein will be applicable to all assessable oil produced during the 1995–96 fiscal year, beginning June 1, 1995, through May 31, 1996. This final rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and requesting a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction in equity to review the Secretary's ruling on the petition, provided a bill in equity is filed not later than 20 days after date of the entry of the ruling.

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened.

Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about

through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are 8 handlers of spearmint oil regulated under the marketing order each season and approximately 260 spearmint oil producers in the Far West. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.601) as those having annual receipts of less than \$500,000, and small agricultural service firms are defined as those whose annual receipts are less than \$5,000,000. A minority of these producers and handlers may be classified as small entities.

The marketing order, administered by the Department, requires that the assessment rate for a particular fiscal year apply to all assessable spearmint oil handled from the beginning of such year. Annual budgets of expenses are prepared by the Committee, the agency responsible for local administration of this marketing order, and submitted to the Department for approval. The members of the Committee are handlers and producers of spearmint oil. They are familiar with the Committee's needs and with the costs for goods, services, and personnel in their local area, and are thus in a position to formulate appropriate budgets. The Committee's budget is formulated and discussed in a public meeting. Thus, all directly affected persons have an opportunity to participate and provide input.

The assessment rate recommended by the Committee is derived by dividing the anticipated expenses by expected shipments of spearmint oil. Because that rate is applied to actual shipments, it must be established at a rate which will provide sufficient income to pay the Committee's expected expenses.

The Committee met on February 22, 1995, and unanimously recommended a total expense amount of \$233,272 for its 1995–96 budget. This is \$4,567 less in expenses than the 1994–95 budget.

The Committee also unanimously recommended an assessment rate of \$.10 per pound for the 1995–96 fiscal year, which is \$.01 more than the assessment rate from the 1994–95 fiscal year. The assessment rate, when applied to anticipated shipments of 2,000,000 pounds from the 1995–96 spearmint oil production, would yield \$200,000 in assessment income. This, along with approximately \$24,272 from the Committee's authorized reserves, and \$9,000 interest will be adequate to cover estimated expenses.

Major expense categories for the 1995–96 fiscal year include \$101,300 for salaries, \$20,000 for market development, and \$23,000 for travel. Funds in the reserve at the beginning of the 1995–96 fiscal year are estimated at \$160,000, which is within the maximum permitted by the order of one fiscal year's expenses.

An interim final rule was issued on March 28, 1995, and published in the **Federal Register** on April 3, 1995 (60 FR 16770). That rule provided a 30-day comment period which ended May 3, 1995. No comments were received.

While this action will impose some additional costs on handlers, the costs are in the form of uniform assessments on all handlers. Some of the additional costs may be passed on to producers. However, these costs should be significantly offset by the benefits derived from the operation of the marketing order. Therefore, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

It is found that the specified expenses for the marketing order covered in this rule are reasonable and likely to be incurred and that such expenses and the specified assessment rate to cover such expenses will tend to effectuate the declared policy of the Act.

It is further found that good cause exists for not postponing the effective date of this action until 30 days after publication in the Federal Register (5 U.S.C. 553) because the Committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis. The 1995-96 fiscal year starts on June 1, 1995, and the marketing order requires that the rate of assessment for the fiscal year apply to all assessable spearmint oil handled during the fiscal year. In addition, handlers are aware of this rule which was recommended by the Committee at a public meeting and published in the Federal Register as an interim final rule with a 30-day comment period. No comments were received and the interim final rule is adopted without change.

List of Subjects in 7 CFR Part 985

Marketing agreements, Oils and fats, Reporting and recordkeeping requirements, Spearmint oil.

For the reasons set forth in the preamble, 7 CFR part 985 is amended as follows:

PART 985—MARKETING ORDER REGULATING THE HANDLING OF SPEARMINT OIL PRODUCED IN THE FAR WEST

Accordingly, the interim final rule amending 7 CFR part 985 which was
