j. *Comment Date*: July 24, 1995.

k. *Description of Project*: The proposed project would utilize the U.S. Army Corps of Engineers' Red River Lock and Dam No. 2 and consists of the following new facilities: (1) a powerhouse containing three 10.5-MW generating units for a total installed capacity of 31.5 MW; (2) a new tailrace; (3) a 34.5-kV or equivalent transmission line; and (4) appurtenant facilities. The average annual generation would be 131 GWh. The applicant estimates that the cost of the studies under the terms of the permit would be \$400,000. All power generated would be sold to a local utility company. The project lock and dam is owned by the U.S. Army Corps of Engineers, Lower Mississippi Valley Office, P.O. 80, Vicksburg, MS 39180.

j. *Comment Date*: July 7, 1995.

k. *Description of Project*: Rivers Electric Company, Inc., licensee for the Mill Pond Project, requests approval of an amendment application to change the location of the recreation facilities required by Article 404 of the project license. The amendment request proposes to relocate project-related recreation facilities to leased lands outside the boundary of the Mill Pond Project. The licensee proposes this change given extensive safety concerns at the previously proposed location.

l. This notice also consists of the following standard paragraphs: B, C1, and D2.
