

On behalf of the IPHC, this inseason action is published in the **Federal Register** to provide additional notice of its effectiveness, and to inform persons subject to the inseason action of the restrictions and requirements established therein.

#### Inseason Action

#### 1995 Halibut Landing Report Number 2

#### Non-Treaty Commercial Fishing Period Limits in Area 2A

The IPHC has determined that fishing period limits will be required during the 10-hour, July 5, 1995, non-treaty directed commercial fishing period in Area 2A to avoid exceeding the 91,052 pounds (41.30 metric tons) catch limit. Fishing period limits as indicated in the following table will be in effect for this

opening. Note that the fishing period limits for the three smallest vessel classes have all been set at the same level.

Vessel class		Fishing period limit (pounds)	
Length	Letter	Dressed, head on	Dressed, head off *
0-25 .....	A	225	200
26-30 .....	B	225	200
31-35 .....	C	225	200
36-40 .....	D	530	465
41-45 .....	E	570	500
46-50 .....	F	675	595
51-55 .....	G	755	665
56+ .....	H	1,135	1,000

\* Weights are after 2 percent has been deducted for ice and slime if fish are not washed prior to weighing.

The appropriate vessel length class and letter is printed on each halibut license.

The fishing period limit is shown in terms of dressed, head-off weight as well as dressed, head-on weight although fishermen are reminded that regulations require that all halibut from Area 2A be landed with the head on.

The fishing period limit applies to the vessel, not the individual fisherman, and any landings over the vessel limit will be subject to forfeiture and fine.

Dated: June 9, 1995.

**Richard W. Surdi,**

*Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.*
