§71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9B, *Airspace Designations and Reporting Points*, dated July 18, 1994, and effective September 16, 1994, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth

ASW TX E5 Osceola, AR [New]

Osceola Municipal Airport, AR (lat. 35°41′28″ N., long. 090°00′36″ W.) Osceola NDB

(lat. 35°41'34" N., long. 090°00'47" W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of Osceola Municipal Airport and within 8 miles west and 4 miles east of the 021° bearing from the Osceola NDB to 9.9 miles.

Issued in Fort Worth, TX on June 5, 1995. **Helen Fabian Parke**,

Manager, Air Traffic Division, Southwest Region.

14 CFR Part 73

[Airspace Docket No. 93-AWP-8]

Proposed Modification of Restricted Areas R-2303A and R-2303B, and Establishment of R-2303C, Fort Huachuca, AZ

AGENCY: Federal Aviation Administration (FAA), DOT. **ACTION:** Supplemental notice of proposed rulemaking (SNPRM).

SUMMARY: This supplemental notice proposes to amend special use airspace at Fort Huachuca, AZ, as proposed in a prior notice of proposed rulemaking (NPRM). In the NPRM, the FAA proposed to amend Restricted Area R-2303A to exclude the Fort Huachuca/ Libby AAF/Sierra Vista Municipal Airport from the restricted area and provide airspace for visual flight rules (VFR) access to the airport when R-2303A is in use. Based upon comments received in response to the NPRM the FAA is considering increasing the airport exclusion and VFR access to the airport by increasing the ceiling from 1,500 feet above ground level (AGL) to 7,000 feet mean sea level (MSL) (2,284 AGL). These changes are proposed to accommodate increased training requirements and to return unneeded special use airspace to the National Airspace System (NAS).

DATES: Comments must be received on or before June 30, 1995.

ADDRESSES: Send comments on the proposal in triplicate to: Manager, Air Traffic Division, AWP–500, Docket No. 93–AWP–8, Federal Aviation Administration, P.O. Box 92007, Worldway Postal Center, Los Angeles, CA 90009.

The official docket may be examined in the Rules Docket, Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, DC, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: James R. Robinson, Military Operations Program Office (ATM–420), Office of Air Traffic System Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 493–4050.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, and energy-related aspects of the proposal. Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 93-AWP-8." The postcard will be date/ time stamped and returned to the commenter. Send comments on environmental and land use aspects to: Commander, U.S. Army Garrison, Attn: Mr. John Murray ATZS-EHB, Fort Huachuca, AZ 85613-6000. All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for

comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Supplemental Notice of Proposed Rulemaking (SNPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA–220, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267–3485. Communications must identify the notice number of this SNPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11–2A, which describes the application procedure.

Background

The FAA previously published an NPRM proposing to amend R-2303B by relocating the northern boundary 3 miles south of its existing position. This would better accommodate hang gliding activity that takes place just outside of the northwest corner of existing R-2303B. R-2303B would also be subdivided to designate the southeastern section as a separate restricted area, R-2303C. This NPRM also proposed to lower the floor of R-2303B from 15,000 feet MSL to 8,000 feet MSL, excluding that airspace within R-2303A when activated, in order to accommodate unmanned aerial vehicle training profiles. This amendment of R-2303B prevents the airspace between 8,000 and 15,000 feet within the lateral confines of R-2303A from simultaneously being reflected in both restricted areas, R-2303A and R-2303B. The ceiling of R-2303B would be lowered from FL 450 to FL 300. The U.S. Army has determined that there is no longer a requirement for restricted airspace above FL 300, therefore, that airspace would be returned to the NAS. Lastly, the times of designation for R-2303A and R-2303B would be reduced from "Monday-Saturday, 0700-1600 local time; other times by NOTAM at least 24 hours in advance," to "Monday-Friday, 0700-1600 local time; other times by NOTAM at least 24 hours in advance.

Activation of R–2303C would be intermittent by NOTAM at least 24 hours in advance. Designation of R–2303C is proposed to accommodate hang gliding activities that occur just outside of the southeastern corner of existing R–2303B.
