

## The Proposal

The FAA is considering an amendment to part 73 of the Federal Aviation Regulations (14 CFR part 73) to amend R-2303A, R-2303B, and establish R-2303C at Fort Huachuca, AZ. The FAA published an earlier NPRM concerning these restricted areas on July 21, 1994 (59 FR 37188). As a result of comments received in response to the NPRM, the FAA is considering increasing the ceiling of the airport exclusion and VFR access corridor at the Libby AAF/Sierra Vista Municipal Airport. R-2303A would be amended to exclude from the restricted area the airspace from the surface to 7,000 feet MSL, within a 3-nautical-mile radius of the Fort Huachuca/Libby AAF/Sierra Vista Municipal Airport. The airspace from the surface to 7,000 feet MSL within 1-nautical-mile either side of U.S. Highway 90 would also be excluded. This would provide VFR access to the airport when R-2303A is in use. Comments received in response to the NPRM and this SNPRM will be addressed in the final disposition of the rule. The coordinates for this airspace docket are based on North American Datum 83. Section 73.23 of part 73 of the Federal Aviation Regulations was republished in FAA Order 7400.8B dated March 9, 1994.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

## Environmental Review

An environmental review of the proposal will be conducted by the U.S. Army and the FAA prior to an FAA final decision on the proposal. The results of the review will be addressed in any subsequent rulemaking action.
