

4. Evaluation of the Interdisciplinary Generalist Curriculum—New—The Interdisciplinary Generalist Curriculum (IGC) Project awards funds to Schools of Medicine that change their curricula to include preclinical generalist primary care training directed toward influencing medical students to select primary care medical careers. The

evaluation of this project will include two surveys. A survey of faculty members of the schools funded by this project will assess the faculty attitudes and beliefs about the innovations in the curriculum one year after the project began and three years after the project began. The funded schools were selected through a request for proposal

(RFP) process. All 141 allopathic and osteopathic Schools of Medicine received the RFP. The second survey will be sent to the Deans of these schools. This RFP survey will assess the extent to which the RFP process itself generated changes in curricula.
