[Announcement Number 532]

**Cooperative Agreements for a National
System of Integrated Activities to
Prevent HIV Infection and Other
Serious Health Problems Among
Students, Especially Postsecondary
Students****Introduction**

The Centers for Disease Control and
Prevention (CDC) announces the
availability of fiscal year (FY) 1995
funds for cooperative agreements to
establish a national system of integrated
activities for preventing HIV infection
and other serious health problems
among the nation's students, especially
postsecondary students and those in
high-risk situations.

Applicants may apply for funding to
carry out activities in one or more of the
following priority areas:

*Priority One—Educate Policy and
Decision-Makers*

To educate and encourage policy and
decision-making members of
postsecondary institutions to support
programs to prevent HIV infection
among students, especially
postsecondary students and those in
high-risk situations.

*Priority Two—Support Institution-Wide
Health Promotion Programs*

To build the capacity of
postsecondary institutions to implement
comprehensive integrated strategies
designed to prevent HIV infection as
part of institution-wide health
promotion and disease prevention
programs for postsecondary students,
especially those in high-risk situations.

*Priority Three—Support Preservice
Education*

To provide technical assistance and
training to personnel in postsecondary
institutions about the skills that health,
education, social service, and other
professionals need in order to help
young people, including students in
grades K-12 and those in high-risk
situations, avoid HIV infection and
other serious health problems.

The Public Health Service (PHS) is
committed to implementing the
recommendations outlined in the
*External Review of HIV Prevention
Strategies*, and the health promotion
and disease prevention objectives of
Healthy People 2000, a PHS-led national
activity to reduce morbidity and
mortality and improve the quality of
life. This program announcement is
related to the priority areas of HIV
