

switchboard room to be large enough to permit the use of wheelchairs, and the Government has agreed to modify the room if that proves necessary.

Nonprofit agencies are required to provide services to the Government under the Committee's program at a fair market price determined by the Committee, and the nonprofit agency in question has agreed to do so. Consequently, there will not be the dramatic increase in price the contractor predicted.

The nonprofit agency performing the service has long been a successful participant in the Committee's program. It has hired a project manager with many years of experience in telephone operations to manage the project who has established good relations with Government people at the job site. The nonprofit agency, with the assistance of its central nonprofit agency, has devised a plan of operation to meet the needs of the service. Consequently, the Committee believes that the concerns expressed by the contractor about the nonprofit agency's ability to do the job, which may have been based on an early contact with the agency, do not provide a basis for deeming the nonprofit agency incapable of performing the service.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the service, fair market price, and impact of the addition on the current or most recent contractors, the Committee has determined that the services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48d and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the service to the Government.
2. The action does not appear to have a severe economic impact on current contractors for the service.
3. The action will result in authorizing small entities to furnish the service to the Government.
4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for addition to the Procurement List.

Accordingly, the following service is hereby added to the Procurement List: Switchboard Operation, Department of Veterans Affairs Medical Center, 4300

West 7th Street, North Little Rock, Arkansas.

This action does not affect current contracts awarded prior to the effective date of this addition or options exercised under those contracts.
