

Consistent with the Department's position in *Grain-Oriented Electrical Steel*, we determine that the funds provided by ILVA to Dalmine are countervailable.

During the period March-November 1989, Dalmine had use of the money and paid no interest on it. Therefore, we have treated the funds provided by ILVA to Dalmine as an interest-free short-term loan from March 1989 to November 1989.

Because any benefit from this interest-free loan would be allocable entirely to 1989, no benefit is attributable to the POI.

III. Programs Determined To Be Not Used

We established at verification that the following programs were not used during the POI.

1. Preferential IMI Export Financing Under Law 227/77
2. Preferential Insurance Under Law 227/77
3. Retraining Grants under Law 181/89
4. Benefits under ECSC Article 56

Verification

In accordance with section 776(b) of the Act, we verified the information used in making our final determination. We followed standard verification procedures, including meeting with government and company officials, examination of relevant accounting records and examination of original source documents. Our verification results are outlined in detail in the public versions of the verification reports, which are on file in the Central Records Unit (Room B-099 of the Main Commerce Building).

Suspension of Liquidation

In accordance with our affirmative preliminary determination, we instructed the U.S. Customs Service to suspend liquidation of all entries of seamless pipe from Italy, which were entered or withdrawn from warehouse for consumption, on or after November 28, 1994, the date our preliminary determination was published in the **Federal Register**. This final countervailing duty determination was aligned with the final antidumping duty determination of seamless pipe from Italy, pursuant to section 606 of the Trade and Tariff Act of 1984 (section 705(a)(1) of the Act).

Under article 5, paragraph 3 of the GATT subsidies Code, provisional measures cannot be imposed for more than 120 days without a final affirmative determination of subsidization and injury. Therefore, we instructed the U.S. Customs Service to

discontinue the suspension of liquidation on the subject merchandise entered on or after March 28, 1995, but to continue the suspension of liquidation of all entries, or withdrawals from warehouse, for consumption of the subject merchandise between November 28, 1994, and March 27, 1995. We will reinstate suspension of liquidation under section 703(d) of the Act, if the ITC issues a final affirmative injury determination, and will require a cash deposit of estimated countervailing duties for such entries of merchandise in the amounts indicated below.

ITC Notification

In accordance with section 705(c) of the Act, we have notified the ITC of our determination. The ITC will make its determination whether these imports materially injure, or threaten injury to, a U.S. industry within 45 days of the publication of this notice. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all securities posted as a result of the suspension of liquidation will be refunded or cancelled. However, if the ITC determines that material injury or threat of material injury does exist, the Department will issue a countervailing duty order.

Return of Destruction of Proprietary Information

This notice serves as the only reminder to parties subject to Administrative Protective Order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 355.34(d). Failure to comply is a violation of the APO.

This determination is published pursuant to section 705(d) of the Act and 19 CFR 355.20(a)(4).

Dated June 12, 1995.

Susan G. Esserman,

Assistant Secretary for Import Administration.
