

access corridor, destruction of a migrating bird habitat, air quality impacts, identification of radioactive material, preservation of cultural resources and the condition of the existing wastewater treatment system.

Final EISs

ERP No. F-AFS-L99004-AK, Exxon Valdez Oil Spill Restoration Plan, Programmatic EIS, Implementation, Prince William Sound, Gulf of Alaska, AK.

SUMMARY: Review of the Final EIS has been completed and the project found to be satisfactory. No formal comment letter was sent to the preparing agency.

ERP No. FS-BLM-L67032-WA, Kettle River Key Project Expansion, Lamfoot Mine Site Mining and Milling Operations, Plan of Operation Approval, Ferry County, WA.

SUMMARY: EPA expressed environmental concerns regarding groundwater contamination, changes in hydrology and effluent guidelines for the NPDES permits.

Other

ERP No. LD-AFS-E61070-KY Rating LO, Daniel Boone National Forest, Wild and Scenic Rivers Study, Six Rivers for Inclusion in the National Wild and Scenic Rivers System, Suitability or Non-Suitability, Jackson, Laurel, McCreary, Pulaski and Whitley Counties, KY.

SUMMARY: EPA had no objections to the preferred alternative.

Dated: January 9, 1995.

William D. Dickerson,
Director, Office of Federal Activities.

Receipt of Applications for Pesticide Registration for Transgenic Plant Pesticides

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received applications from Ciba-Geigy Corporation and Mycogen Plant Sciences to register transgenic plant pesticides. These will make the third and fourth application for registration of a transgenic plant pesticide under section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, in which a plant has been genetically altered to produce a pesticide. Because of its uniqueness the Agency has determined that this application may be

of regional and national significance. Therefore, in accordance with 40 CFR 172.11(a), the Agency is soliciting public comments on this application.

DATES: Written comments must be submitted by February 13, 1995.

ADDRESSES: By mail submit comments identified by the document control number [OPP-30377] and the (File Symbols 66736-R and 68467-R) to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, Environmental Protection Agency, CM #2, 1921 Jefferson Davis Highway, Arlington, VA.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Janet L. Andersen, Acting Director, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. CS51B6, Westfield Building North Tower, 2800 Crystal Drive, Arlington, VA 22202, (703-308-8712).

SUPPLEMENTARY INFORMATION: EPA received applications from Ciba-Geigy Corporation (Ciba Seeds), 3054 Cornwallis Road, P.O. Box 12257, Research Triangle Park, NC 27709 and Mycogen Plants Sciences, 4980 Carroll Canyon Road, San Diego, CA 92121 to register the transgenic plant pesticide B.t.k. CryIA(b) Insect Control Protein as Produced in Corn and B.t.k. CryIA(b) Insect Control Protein as Produced in Corn (EPA File Symbols 66736-R and 68467-R) respectively, containing the new active ingredient *Bacillus thuringiensis* delta-endotoxin as produced in corn by a cryIA(b) gene and its controlling sequences as found on plasmid vector pCIB4431 0.0001 - 0.0018 percent of total plant protein.

The CryIA(b) plant pesticide protein in corn plants is derived from transgenic transformation event 176, and is encoded by a synthetic cryIA(b) transgene and its controlling sequences as found on plasmid vector pCIB4431. The CryIA(b) protein produced in these plants is a truncated form of the CryIA(b) protein produced by *Bacillus thuringiensis* subsp. *kurstaki* strain HD1. Corn plants producing this protein are protected against the European corn borer (*Ostrinia nubilalis*) larvae.

When using the hybrid seed corn containing cryIA(b) transgene, additional insecticides should not be applied to the crop to control European corn borer. These plants are tolerant to glufosinate ammonium herbicide and this herbicide is not currently registered for use on corn.

Notice of approval or denial of an application to register a pesticide product will be announced in the **Federal Register**. The procedure for requesting data will be given in the **Federal Register** if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

Written comments filed pursuant to this notice, will be available in the Public Response and Program Resources Branch, Field Operations Division (FOD) office at the address provided from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays. It is suggested that persons interested in reviewing the application file, telephone the FOD office (703-305-5805), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.

List of Subjects

Environmental protection, Pesticides and pests, Product registration.

Dated: January 6, 1995.
