<sup>&</sup>lt;sup>1</sup> Annual fees will be assessed based on whether a licensee held, during the fiscal year, a valid license with the NRC authorizing possession and use of radioactive material. However, the annual fee is waived for those materials licenses and holders of certificates, registrations, and apand use of radioactive material. However, the annual fee is waived for those materials licenses and holders of certificates, registrations, and approvals who either filed for termination of their licenses or approvals or filed for possession only/storage licenses prior to October 1, 1994 and permanently ceased licensed activities entirely by September 30, 1994. Annual fees for licensees who filed for termination of a license, downgrade of a license, or for a POL during the fiscal year and for new licenses issued during the fiscal year will be prorated in accordance with the provisions of § 171.17. If a person holds more than one license, certificate, registration, or approval, the annual fee(s) will be assessed for each license, certificate, registration, or approval held by that person. For licenses that authorize more than one activity on a single license (e.g., human use and irradiator activities), annual fees will be assessed for each category applicable to the license. Licensees paying annual fees under Category 1.A.(1). are not subject to the annual fees of Category 1.C and 1.D for sealed sources authorized in the license.

2 Payment of the prescribed annual fee does not automatically renew the license, certificate, registration, or approval for which the fee is paid. Renewal applications must be filed in accordance with the requirements of parts 30, 40, 70, 71, or 72 of this chapter.

3 For FYs 1996 through 1998, fees for these materials licenses will be calculated and assessed in accordance with § 171.13 and will be published in the Federal Register for notice and comment.
