will be held on Lake Ontario, Port Bay, NY on July 3, 1995, with a rain date of July 8, 1995. This regulation will restrict general navigation on Lake Ontario, Port Bay, NY. Due to the large number of spectator vessels and the falling ash and debris from the fireworks display, this regulation is needed to provide for the safety of life, limb, and property on navigable waters during the event.

EFFECTIVE DATE: This regulation is effective from 9 p.m. through 11 p.m. on July 3, 1995. In case of inclement weather, this regulation will be effective on the rain date of July 8, 1995, at the same times.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a Notice of Proposed Rulemaking has not been published for this regulation and good cause exists for making it effective in less than 30 days from the date of publication. Following normal rulemaking procedures would have been impracticable. The application to hold this event was not received by the Commander, Ninth Coast Guard District, until May 10, 1995, and there was not sufficient time remaining to publish a proposed final rule in advance of the event. The Coast Guard has decided to proceed with a temporary rule for this year's event and publish a NPRM, as part of the Great Lakes annual marine events list, prior to next year's event.

Drafting Information

The drafters of this notice are Lieutenant Junior Grade Byron D. Willeford, Project Officer, Ninth Coast Guard District, Aids to Navigation and Waterways Management Branch, and Lieutenant Charles D. Dahill, Project Attorney, Ninth Coast Guard District Legal Office.

Discussion of Regulation

The Thomas Graves Memorial Fireworks Display will be conducted on Lake Ontario, Port Bay, NY on July 3, 1995. This regulation will restrict general navigation on Lake Ontario, Port Bay Harbor, NY in the vicinity of Loon Pt within a 500 foot radius of the fireworks barge. This event will have an unusually large concentration of spectator vessels and falling ash and debris, which could pose hazards to navigation in the area. This regulation is necessary to ensure the protection of life, limb, and property on navigable

waters during this event. Any vessels desiring to transit the regulated area may do so only with prior approval of the Patrol Commander (Commanding Officer, U.S. Coast Guard Station Sodus Point, NY).

This regulation is issued pursuant to 33 U.S.C. 1233 as set out in the authority citation for all of part 100.

Federalism Implications

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard is conducting an environmental analysis for this event pursuant to section 2.B.2.c of Coast Guard Commandant Instruction M16475.1B, and the Coast Guard Notice of final agency procedures and policy for categorical exclusions found at (59 FR 38654, July 29, 1994).

Economic Assessment and Certification

This regulation is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has been exempted from review by the Office of Management and Budget under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040, February 26, 1979). The Coast Guard expects the economic impact of this regulation to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of the DOT is unnecessary.

Collection of Information

This regulation will impose no collection of information requirements under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*
