

**SUPPLEMENTARY INFORMATION:****Background**

The Department has received a request, in accordance with 19 CFR 353.22(h) (1995), for a new shipper review of an antidumping duty order with a May anniversary date.

**Initiation of Review**

In accordance with 19 CFR 353.22(h), we are initiating a new shipper review of the antidumping duty order on ball bearings (other than tapered roller bearings) and parts thereof (ball bearings) from Germany. If this review proceeds normally, we will issue the final results of review not later than March 31, 1996.

Antidumping duty proceeding	Period to be reviewed
GERMANY: Ball Bearings A-428-801 Miniaturkugellager GmbH (MKL) .....	12/01/94-05/31/95

We will instruct the Customs Service to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the merchandise in accordance with 19 CFR 353.22(h)(4) (1995).

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 353.34(b).

This initiation and this notice are in accordance with section 751(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1675(a)) and 19 CFR 353.22(h).

Dated: June 14, 1995.

**The Fishing Capacity Reduction Demonstration Program (FCRDP); Funding Availability**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability of Federal assistance.

**SUMMARY:** NMFS issues this notice describing the FCRDP and how NMFS

will review and select applications for funding. The FCRDP is a \$2 million demonstration program to provide grants to the owners of fishing vessels participating in the Northeast multispecies limited access groundfish fishery, who are willing to scrap their vessels and surrender associated Federal fish harvesting permits.

**DATES:** Applications must be postmarked by September 5, 1995.

**ADDRESSES:** Applications should be sent to the Northeast Financial Services Branch, National Marine Fisheries Service, One Blackburn Drive, Gloucester, MA 01930-2298.

**FOR FURTHER INFORMATION CONTACT:** Leo Erwin, NMFS at (508) 281-9203.

**SUPPLEMENTARY INFORMATION:****I. Background**

Under the provisions of Public Law 103-211, the Emergency Supplemental Appropriations Act of 1994, \$30 million has been provided to the U.S. Department of Commerce (DOC) for the Northeast Fisheries Assistance Program to address the needs of those directly affected by the decline of traditional fisheries in the Northeast. Of that total amount, \$2 million is being made available for the FCRDP to pilot test an approach for permanently reducing the fishing capacity in the Northeast multispecies groundfish fishery. NMFS is conducting the FCRDP under authority contained in 15 U.S.C. 713c-3(d).

The goal of the FCRDP is to demonstrate that a vessel removal program can be successfully designed and implemented and that such a program can be an effective tool in the conservation and management of U.S. fisheries. The FCRDP is a voluntary program which is intended to target full-time groundfish vessels. Consequently, only permit holders of the following types of permits under the Northeast Multispecies Fishery Management Plan are eligible: Multispecies limited access individual days-at-sea (DAS), fleet das or multispecies limited access gillnet vessel (categories I, II, or VI). A successful applicant will have to scrap the offered vessel and surrender all Federal fishing permits associated with that vessel.

**II. How to Apply****A. Eligible Applicants**

Applications for FCRDP grants can only be made by owners of eligible fishing vessels, in accordance with the procedures set forth in this notice. An owner may be an individual who is a citizen or national of the United States,

or a citizen of the Northern Mariana Islands, or a corporation, partnership, association or other entity (non profit or otherwise) if such entity is a citizen within the meaning of section 802 of the Shipping Act, 1916, as amended (46 U.S.C. App. 802). Federal Government agencies or employees, including full-time, part-time, and intermittent personnel (or their spouses or blood relatives who are members of their immediate households), are not eligible to submit an application under this solicitation.

For a vessel to be eligible for FCRDP, it must meet the following conditions:

1. Have a valid Multispecies limited access individual DAS, fleet DAS or limited access gillnet fishing permit. Vessel owners will be required to surrender such permits along with ALL other Federal fishing permits issued to that vessel if awarded a grant under the FCRDP.

2. Be active and functioning at the time the vessel owner submits an application, which means that a vessel must be capable of fishing for groundfish in Federal waters under its own power. Successful applicants will be required to show proof that their vessel made at least 2 fishing trips (of any duration for any species) between March 1, 1995, and May 1, 1995.

3. Have derived 65 percent or more of its gross annual revenues from groundfish regulated under the multispecies plan in 3 of the last 4 years. This means that in 1991, 1992, 1993, and 1994 successful applicants must be able to prove that 65 percent or more of the gross revenues (for the vessel involved) in 3 of those years was from the sale of regulated groundfish. Under the Northeast Multispecies Fishery Management Plan, the regulated groundfish species are: Cod, haddock, pollock, yellowtail flounder, winter flounder, gray sole, American plaice, Windowpane flounder, white hake, and redfish.

**B. Submission of Applications**

Vessel owners must fill out an FCRDP application form in order to apply. Proof of eligibility need not be submitted with this application. However, applicants preliminarily accepted by NMFS for funding will be expected to provide such documentation upon request. Applicants must submit one signed original and two copies of their completed applications. No facsimile applications will be accepted. Proof of receipt may be obtained by sending an application by certified mail, return receipt requested. The anticipated time required to process applications is 90
