Williams Natural Gas Co., Notice of Proposed Changes in FERC Gas Tariff

June 16, 1995.

Take notice that on June 14, 1995, Williams Natural Gas Company (WNG) tendered for filing to become part of its FERC Gas Tariff, Second Revised Volume No. 1, Substitute Second Revised Sheet No. 240. The proposed effective date of this tariff sheet is May 4, 1995.

WNG states that the purpose for the instant filing is to comply with the Commission's Order No. 577-A issued May 31, 1995. Substitute Second Revised Sheet No. 240 includes a revision to Article 11 of WNG's FERC Gas Tariff to provide that releases for a period of 31 days or less will be considered short term releases, and releases for more than 31 days are long term releases.

WNG states that a copy of its filing was served on all participants listed on the service lists maintained by the Commission in the dockets referenced above and on all of WNG's jurisdictional customers and interested state commissions.

Any persons desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests should be filed on or before June 23, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. EG95-55-000, et al.]

ABB Barranquilla Inc., et al.; Electric Rate and Corporate Regulation Filings

June 15, 1995.

Take notice that the following filings have been made with the Commission:

1. ABB Barranquilla Inc.

[Docket No. EG95-55-000]

On June 2, 1995, ABB Barranquilla Inc. ("ABB BAQ") filed with the Federal Energy Regulatory Commission ("Commission") an application for determination of exempt wholesale generator status pursuant to Part 365 of the Commission's regulations. ABB BAQ states that its sole business purpose is to acquire and own a 25.74 percent interest in Termobarranquilla S.A., Empresa de Servicios Publicos ("TEBSA"), which will own and operate the Termobarranquilla generating facility ("Facility") near Barranquilla, Colombia.

The Commission has previously determined that TEBSA is an exempt wholesale generator ("EWG") and, therefore, that the Facility is an "eligible facility" under PUHCA.

Termobarranquilla S.A., Empresa de Servicios Publicos, 69 FERC ¶ 61,295 (1994). ABB BAQ states that ABB BAQ's acquisition of an ownership interest in TEBSA will not affect that determination. ABB BAQ further states that ABB BAQ will be engaged indirectly (through TEBSA) and exclusively in the business of owning and operating an eligible facility and selling electric energy at wholesale. ABB BAQ concludes therefore that ABB BAQ qualifies as an EWG.

Comment date: July 5, 1995, in accordance with Standard Paragraph E at the end of this notice. The Commission will limit its consideration of comments to those that concern the adequacy or accuracy of the application.
