

reproductive toxicity was 2,500 ppm (263 mg/kg/day, HDT).

8. A mutagenicity test with *Salmonella* Ames assay showed nonmutagenicity in three strains. Clethodim imine sulfone was negative for reverse gene mutation in *Salmonella* and *E. coli* exposed up to 10,000 µg/plate with or without activation. Clethodim was negative for chromosomal damage in bone marrow cells of rats treated orally up to toxic doses (1,500 mg/kg).

The dietary risk exposure analysis used a RfD of 0.01 mg/kg/body weight(bw)/day based on a NOEL of 1.0 mg/kg/bw/day and a safety factor of 100. The proposed use on potatoes for the U.S. population results in an Anticipated Residue Contribution (ARC) of 0.000571 mg/kg/bw/day, which represents 6% of the RfD. For nonnursing infants less than one year old, the ARC for the use on potatoes is 0.000860 mg/kg/bw/day, or 9% of the RfD.

The nature of the residue is adequately understood. A common moiety analytical method (gas chromatograph with a flame photometric detector in the sulfur mode) and a compound-specific confirmatory method are available for enforcement purposes. Prior to publication in the Pesticide Analytical Manual, Vol. II, both methods are available in the interim to anyone interested in pesticide enforcement. They can be requested from: Calvin Furlow, Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M. St. SW., Washington, DC 20460. Office location and telephone number: Crystal Mall #2, Rm. 1132, 1921 Jefferson Davis Hwy., Arlington, VA 22202, (703)-305-5232.

Any secondary residues occurring in milk, eggs, or meat of livestock and poultry will be covered by the established tolerances for these commodities. The pesticide is considered useful for the purpose for which the tolerance is sought. There are currently no actions pending against the continued registration of this chemical.

Based on the information and data considered, the Agency has determined that the tolerances established by amending 40 CFR parts 180 and 185 would protect the public health. Therefore, it is proposed that the tolerances be established as set forth below.

Any person who has registered or submitted an application for registration

of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, which contains any of the ingredients listed herein, may request within 30 days after publication of this notice in the **Federal Register** that this rulemaking proposal be referred to an Advisory Committee in accordance with section 408(e) of the FFDCA.

Interested persons are invited to submit written comments on the proposed regulation. Comments must bear a notation indicating the document control number, [OPP-300391]. All written comments filed in response to this petition will be available in the Public Response and Program Resources Branch, at the address given above from 8 a.m. to 4:30 p.m., Monday through Friday, except legal holidays.

A record has been established for this rulemaking under docket number [OPP-300391] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this rulemaking, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official rulemaking record which will also include all comments submitted directly in writing. The official rulemaking record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

Under Executive Order 12866 (58 FR 51735, Oct. 4, 1993), the Agency must determine whether the regulatory action is "significant" and therefore subject to all the requirements of the Executive Order (i.e., Regulatory Impact Analysis, review by the Office of Management and

Budget (OMB)). Under section 3(f), the order defines "significant" as those actions likely to lead to a rule (1) having an annual effect on the economy of \$100 million or more, or adversely and materially affecting a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local or tribal governments or communities (also known as "economically significant"); (2) creating serious inconsistency or otherwise interfering with an action taken or planned by another agency; (3) materially altering the budgetary impacts of entitlement, grants, user fees, or loan programs; or (4) raising novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in this Executive Order.

Pursuant to the terms of this Executive Order, EPA has determined that this rule is not "significant" and is therefore not subject to OMB review.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

List of Subjects in 40 CFR Parts 180 and 185

Environmental protection, Administrative practice and procedure, Agricultural commodities, Food additives, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: June 15, 1995.

Peter Caulkins,

Acting Director, Registration Division, Office of Pesticide Programs.

herefore, it is proposed that 40 CFR parts 180 and 185 be amended as follows:

PART 180—[AMENDED]

1. In part 180:

a. The authority citation for part 180 continues to read as follows:

Authority: 21 U.S.C. 346a and 371.

b. By amending § 180.458 in the table therein by adding and alphabetically inserting the commodity potatoes, to read as follows:
